### Aid Superintendent Attends "Workshop"

Owing to the icy conditions of the roads there was a small attendance of members at the regular Society Board meeting held in the office at Milton on the evening of February 13th. Mr. E. D. Mahon presided.

Accounts for the month of January, amounting to \$1428.86 were passed for payment. Included in this amount were \$887.40 board and \$181.43 clothing and supplies for children in paid boarding care.

The purchase of dictating equipment for use in the Society Office was discussed.

The superintendent, G. F. Thompson, reported on the Workshop for superintendents held in Toronto on January 20th, 30th and 31st. This meeting was attended by fifteen superintendents representing societies as far west as Fort Frances and east as Prescott and Russell.

By resolution it was decided to dispense with the March meeting; the accounts for the month of February to be passed by the Finance Committee.

The following information was submitted for the month of January:

Child protection cases open at the first of the month, 54; new cases during the month, 7; cases closed, during the month, 9; cases open at the end of month, 52; children involved in new cases, 21; visits and office interviews 92; children in care at the first of the month, 128; children in care at the end of the month, 134; Home visits made to children in care, 116.

Two legal adoptions were completed through the County Court during the month of January.

### WITH ROD AND GUN

### Angle for Whitefish Lake Simcoe Bus Trip

A busload of fishermen went to Lake Simcoe on Sunday to angle for whitefish. Arriving at Shanty Bay at 10.30 most everyone was in a hut and angling at 10.45.

Through the day some nice ones were caught, Fred Brown of Brampton taking prize money for the largest. Water depth was from 90 to 120 feet. That's a long way to pull a whitefish up without pulling out the hook. Bill Gibbs can verify that.

The party left the huts about 5.30 and after lunch in Barrie's main grill, left for home -- that is, after the boys were coaxed away from a new-fangled Wurlitzer. There was a large selection of numbers, from hillbilly tunes to the latest in waltzes and it seems everybody wanted to play their favourite. Perhaps when we get our clubhouse there will be one installed so they can play it as long as their neckles hold out. What they missed on the Wurlitzer they made up on the way home, singing everything from the Tennessee Waltz to Roll Out the Barrel, and a few others too numerous to mention. Never let it be said that a busload of fishermen is not a happy crowd.

Another trip is already shaping up for the perch run in the spring. Fred Spires did a good job of managing the trip. Everyone was sorry that vice president Bud Kenner couldn't make the trip due to illness.

Those who made the trip were: Dave Stamp, Maurice Herbert, Ha-

TERMS: CASH FRANK PETCH, Auct.

### FARM NEWS

### Crop Leaders Make Plans for 1951

Friday of last week was a busy day for the directorate of the Halton Crop Improvement Association. In the morning they met in the Farmers' Bldg., Milton, to plan their projects for 1951. In recent years difficulty in securing satisfactory seed catches has been a major problem on many farms. The question of mulching spring grain immediately after seeding created keen interest. Vice president Cecil Lawrence of Sheridan, who acted as chairman throughout the day, reported that he had personally practiced this to some extent in recent years with excellent results both from the standpoint of increased yields and improved seed catches. All directors of the Association are undertaking to try out the idea in a limited way at least this coming spring, some on spring grain and others on corn. Another subject which created keen interest was that of legume seed setting. The question of pollination which was briefly reviewed in the Herald last week and to which the honey bee would seem to be closely correlated; resulted in the recommendation that a demonstration or experiment on alfalfa be conducted this year. Other projects planned include a "Fifty Bushel Winter Wheat Club," a winter wheat variety test; two improved hay-pasture demonstrations; a replicated variety test of eight varieties of oats and nine varieties of barley; applications of ammonium nitrate on both meadows and spring grain on ten or more farms; the sponsoring of a boys' grain club; a bus tour, etc.

At the afternoon session which was held in the Court House, Milton, and which was open to the public, George S. Atkins and W. E. Breckon, Halton delegates to the annual convention of the Ontario Crop Improvement Association, presented excellent reports, touching on some of the highlights of that excellent three day convention. W. E. Breckon in reporting on the addresses pertaining to "barn hay driers," intimated that it had been stated at the Toronto convention that the use of barn hay driers permitted storing hay in the barn with 35 to 40 per cent moisture. It was also stated that the extra protein secured by this method of curing alfalfa off 40 acres at today's prices would pay for the installation of the necessary equipment.

During the latter part of the afternoon, Professors Jas. Laughland, and N. J. Thomas of the OAC, together with W. E. Breckon and Geo. S. Atkins acted as a panel of experts. Questions from the audience on all phases of soil and crop production were dealt with by the members of the panel to the satisfaction of all concerned.

Quebec's famous Laval University traces its history back to the year 1674.

### BALLINAFAD

### NORTH ERIN TIES FAD-HOCKEY SERIES

Wednesday evening Ballinafad hockey team defeated North Erin

6-2 in the second game of the final series. Friday night the tables were turned and a score of 5-4 favoured North Erin.

The flu and German measles have made a very unwelcome appearance in this community.

## LOOK TO YOUR FENCES AND DRAINAGE

# FARM IMPROVEMENT Loans

Farm improvement loans can be used for fencing, drainage and other improvements on your farm. Amounts up to \$3,000 may be advanced under the plan and the money repaid by instalments spread over one, two or more years. The rate charged is 5% simple interest. Ask for full particulars at our nearest branch.

**FARM IMPROVEMENT LOANS**

can also be used for

- New implements, machinery and equipment.
- New foundation or breeding livestock.
- Construction, repair, or alteration of any building on the farm.
- Farm electrification.
- Fences, drainage and other developments.

Ask for a copy of this booklet. It tells all about farm improvement loans.
