

Do YOU Need New Implements, Machinery, Equipment?

FARM IMPROVEMENT Loans

Farm improvement loans can be used to buy new implements, machinery and equipment to make your work easier and more profitable. Amounts up to \$3,000 may be advanced under the plan and the money repaid by instalments spread over one, two or more years. The rate charged is 5% simple interest. Ask for full particulars at our nearest branch.

FARM IMPROVEMENT LOANS

- can also be used for
- New foundation or breeding livestock.
- Fences, drainage and other developments.
- Construction, repair, or alteration of any building on the farm.
- Farm electrification.
- New implements, machinery and equipment.

Ask for a copy of this booklet. It tells all about farm improvement loans.

Discover How Good Iced Tea Can Be!

Make tea double strength and while still hot pour into glasses filled with cracked ice... Add sugar and lemon to taste.

"SALADA" ICED TEA

Hello Homemakers! Now is the season that we look for freezing facilities to store packages of garden produce — a home freezer or a locker at a freezing plant. This modern method of storing many foods retains true flavour and goodness. Then too the preparation of produce for freezing is a simplified and perfected way of processing. Yet, it must be remembered that freezing does not sterilize — the frozen fruit or vegetable will only be as good as the fresh product.

Briefly the processing method is the careful trimming and washing, then scalding two to four minutes followed by rapid chilling two to four minutes. The packaging is done in moisture and vapour-proof boxes. Air is pressed from the top of each inner envelope which is then sealed with a farm iron. Packages should be taken to locker plant within 48 hours, having packed them in a box padded well with newspapers on all sides.

TAKE A TIP

1. Select only fully ripened, firm fruit or vegetable.
2. Cut out any bruised or too-ripened produce to use fresh or make into a preserve for relish.
3. Prepare, then wash in cool water with care.
4. Let fruit drain on trays lined with paper towelling, keeping food cool. Then slice, fruit or pour directly into moisture-vapour proof containers. Carefully add cool syrup (1 cup sugar to 6 cups water) to cover fruit. Try to exclude air from each package and seal top with warm iron or sticky tape. Label.
5. All vegetables are sorted and washed thoroughly. Then cut according to size required. It is necessary to scald in boiling water using only sufficient to cover. Time this blanching period exactly using cheesecloth or a wire basket so the food can be transferred quickly into ice cold water. Chill thoroughly then package the vegetable in boxes using either layers of dry salt or a brine solution (1 tsp table salt to 1 cup water). Exclude as much air as possible. Heat-seal the package if possible. Label.
6. Place packages of food in freezer at zero degrees or lower.

THE QUESTION BOX

Mrs. M. R. asks: Can we package sliced beets and their washed, cut tops in the same box?

Answer: No. Package small beets and tops separately. Cook the roots and peel after cooking. Blanch the tops for 4 minutes, handling about 1 quart at a time.

Mrs. S. B. asks: Is there any difference in the varieties of spinach for freezing?

Answer: The smooth leaf (e.g. Nobel) is easier to wash clean than the crinkly (Bloomsdale) but the results are much the same if harvested before the bloom. Blanch each quart 4 minutes then chill.

Mrs. B. D. asks: Do you blanch corn before cutting from the cob or afterwards?

Answer: Both times. Remove husks and silks. Blanch 5 mins. Chill. Cut off the kernels and re-blanch 3 mins. Chill quickly in ice water again. Pack in brine for best results.

Mrs. H. J. asks: Have you ever had blackberries turn red when frozen?

Answer: Experts tell us that blackberries which are not fully ripe may turn red and become sour.

Was Norval Minister Called to Arthur

A unanimous call has been extended to Rev. Arthur Leggett by the congregations of St. Andrew's Presbyterian Churches, Arthur and Gordonville. Mr. Leggett had preached for a call the previous Sunday.

Mr. Leggett was minister at Norval and Union for four years, from 1937 to 1941, when he left to go to Beauharnois, Quebec. He later went to Vancouver where both he and Mrs. Leggett, who is a graduate of Toronto Bible College, were on the staff of Vancouver Bible College.

Fish brought the French to St. Pierre and Miquelon off the Newfoundland coast in the 14th century and fishing has been the staple industry of the island ever since.

District Lady's Father Dies at Niagara Falls

Father of Mrs. Elroy Horne, Georgetown, Norman Beam died suddenly in Niagara Falls on June 6th. Mr. Beam was a native of Fort Erie and had lived in Niagara Falls since 1901. He was a machinist at the McGlashan Clarke plant until ill health forced his retirement two years ago. He was 52 years of age.

Surviving are his wife, Gladys Hill Beam, one daughter and two sons, Mrs. Elroy (Vera) Horne, Norman and Lloyd at home, one sister and two brothers, Mrs. Lydia Speer, Fort Erie, Clarence Beam, Fort Erie and Chester Beam, Niagara Falls.

The funeral service was held on Saturday with interment in Lundy's Lane Cemetery.

Church Mission Worker Transferred to Midland

A missionary of the Church of Latter-Day Saints who has been stationed in town for several months Elder John T. Smith was transferred this week to Midland.

Elder Smith, who comes from Berkeley, California, arrived in town with Gary Tolley of Idaho to do mission work for the church which has its headquarters in Salt Lake City, Utah. The men have enrolled for a two-year term as missionaries and will then resume their civil occupations as their church does not support a paid ministry.

The present elders in town are Palmer Clark, Ogden, Utah, and Vernon Woodbury, Burley, Idaho, who replaced Elder Smith here this week. Elder Tolley went to Gravemurst several weeks ago.

IODE PICNIC SUPPER AT WILDWOOD

A picnic supper at the Wildwood home of Mrs. Ern Batkin concluded activities for the Countess of Strathmore Chapter, IODE, until the fall.

Forty members enjoyed the hospitality of Mrs. Batkin on Monday. The regent, Mrs. Wallace Thompson, conducted a business meeting later at which plans were made for a June tea later this month. Miss Helen MacDonald reported 168 articles of used clothing packed in crates for overseas relief shipment and the adopted school in Haliburton.

The IODE will continue to hold their child health clinics in co-operation with Halton Health Unit

during the summer months, on the second and fourth Mondays. Mrs. Denney Charles invited the members to her home for a supper meeting in September.

A member, Mrs. Calvin Clark, who is leaving town the end of this month, was presented with a cup and saucer as a token of remembrance from the Chapter.

Guest speaker, Miss Sybil Bennett, K.C. was presented with an orchid by the regent after her talk on "Ideals of Democracy" and "Taxation." Mrs. Sam Mackenzie moved a vote of thanks to Miss Bennett for an interesting talk and to Mrs. Batkin for her hospitality.

Quote from Tolstoy: "It is pleasant to dream of eternity, but for an honest man is enough to have lived his life, doing his work."

Audiences attending the Festival of Britain's Telecinema in London this year will wear special polarized glasses and will see coloured films in three dimensions.

PERGOLAS for shade & beauty

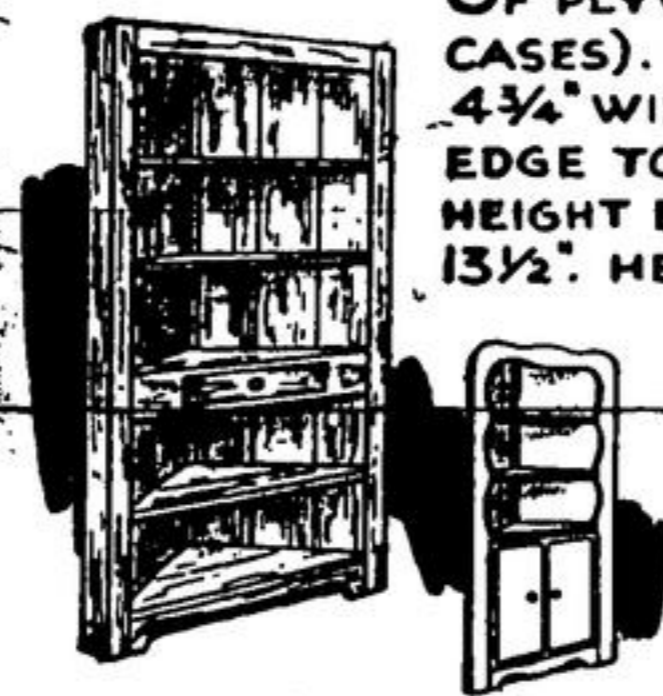

OF CEDAR POSTS — OR UPRIGHTS OF 2x4, STRINGERS OF 2x2. UPRIGHTS AT LEAST 8' HIGH PLUS 1' IN SOIL. CROSS PIECES 8' LONG WITH OVERHANGS OF 1' EACH SIDE. LENGTHWISE STRINGERS, 10' LONG. FASTEN ALL JOINTS WITH SPIKES. TO SUPPORT ROSES, ETC.: 2" STAPLES AT INTERVALS.

CORNER CABINET

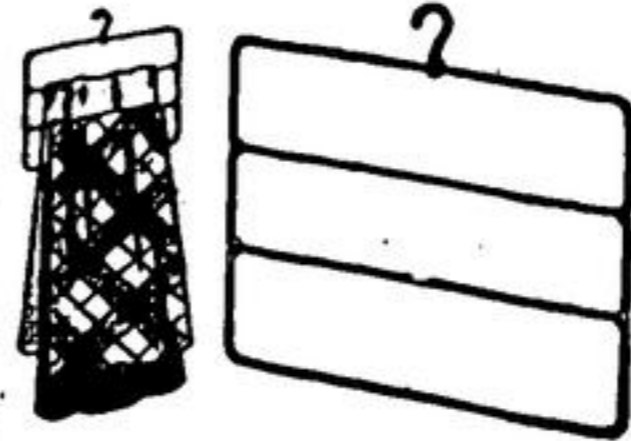

OF PLYWOOD (OR FROM PACKING CASES). HEIGHT 82". FACE BOARDS — 4 3/4" WIDE, 1" THICK. DEPTH, FRONT EDGE TO REAR CORNER: 28 1/2". HEIGHT BETWEEN UPPER SHELVES: 13 1/2". HEIGHT FOR SECTION WITH DRAWER: 5 1/2". HEIGHT BETWEEN LOWER SHELVES: 12 3/4". WIDTH ACROSS FRONT, ABOUT 40". COUNTER, SINK ALL NAILS AND COVER WITH PLASTIC WOOD BEFORE PAINTING.

ALTERNATE DESIGN... MADE OF 3/8" PLYWOOD AND 1" PINE.

SKIRT HANGERS

FROM EXTRA COAT HANGERS. ENDS LOOPED TIGHTLY OVER ANGLES OF NEXT SECTION SNUB WITH PLIERS. ADD SECTIONS AS REQUIRED.

FLOWER CONTAINER

2x4 DRESSED PINE — CUT INTO 4 PIECES, 14" LONG — NAILED TOGETHER. DRILL HOLES FOR SMALL CONTAINERS TO HOLD FLOWERS. SPRIGS OF CEDAR CONCEAL HOLES. WITH DRIFTWOOD PLANE OFF BOTTOM TO LEVEL.

Bits of driftwood picked up along the shores of northern lakes make excellent decorative pieces, and can often be formed into useful items. One very good friend worked several specimens into various interesting Christmas decorations that were both attractive and original. One hollow "log" held small tube candles; odd shapes painted white spelled out the family initials on the door against a background of green; several pieces had been fashioned to hold small floral arrangements. Be on the alert for useful and ornamental pieces of driftwood during your holidays this summer.

What a happy association — holders made with your own hands for flowers from your own garden. Follow the instructions given for a simple flower holder and suggestions for floral arrangement.

Rustic Pergola

As well as remembering to use flowers indoors don't forget to add beauty to your garden — especially with roses. Climbers require some means of support and a pergola is just the thing. We have a small rustic arbour worked into our garden plan that is a bit of color right now.

Cornered

The Gardas have become accustomed to holidaying during the first two weeks in July. Each year at this time I usually tackle some small improvement in the cottage to take my mind off fishing and this season will be no exception. There is one corner that is waste space at the present time and I have agreed to install a general utility cupboard. Plans are well in hand now but there will likely be a few wrinkles to iron out once the job is started. I'm using plywood but it would be made equally well from cheaper material.

My son has just brought his yearly contribution for the cottage home from school — a triple decker hanger made out of good — hangers. He evidently dreamed up the idea and made it "on the fly" during about-week periods. Looks sturdy and serviceable, too.

NEW BOOKLET

You'll find more information on these and many other interesting ideas in the booklet "Around the Home Again", just published. Write for your copy to Tom Gard, c/o MOLSON'S (ONTARIO) LIMITED, P.O. Box 490, Adelaide Street, Toronto.
