CANADIAN PLOWMEN ABROAD

By J. A. CARROLL, Assistant Secretary, Ontario Plowmen's Association

This is the first of a series of weekly stories which J. A. Carroll, assistant deputy minister of agriculture for Ontario and formerly secretary-manager of the Ontario Plowmen's Association, will write about the visit of Canada's champion plowmen to the British Isles, Germany, Denmark, and Sweden.

Toronto: In a few hours' the last goodbyes will have been said and we will be winging over the white-mantled countryside to New York. There we will board the "Queen Mary" and begin a trip that will last six weeks and take us into seven European countries.

It would take a wise man to say who is the most excited of the three of us. For me it will be a return to scenes that were last viewed through the mist of war. For my two young companions it will be their first glimpse of the Old World.

But before I go any further I had better make some introductions.

I am John A. Carroll, assistant-deputy minister of agriculture for Ontario. My two companions are Canada's 1931 champion plowmen and I might add, the youngest plowing team this country has produced.

Younger of this pair of champions — and incidentally the youngest man ever to win the horse section of the Esao Transatlantic class — is E. Eugene Timbers, an 18-year-old stalwart from Milliken, Ont. Winner of the tractor section of the Esao Transatlantic class is 24-year-old Norman S. Tyndall, of Richmond Hill, just north of Toronto.

During this trip to Great Britain and the continent I shall be acting as their team manager and reporter. Historian of the events that befall us and the things that we see.

The expenses of our trip will be paid by Imperial Oil Limited, as have the expenses of the five previous champion teams that have made the transatlantic crossing.

Our trip will take us to England, Wales, Scotland and Northern Ireland and to West Germany, Denmark and Sweden. Gene and Norman will take part in two plowing events in the United Kingdom.

International plowing matches, truly international matches with contestants from all parts of the world will be well to the fore of my mind during this trip. A meeting is being held in London to discuss the possibilities of creating a world competition and I anticipate being present. I have been authorized by the Ontario Plowmen's Association to speak as its representative if the meeting gets down to "talking turkey."

Some eight European nations and ourselves have indicated interest in this meeting and we will have plenty of problems to iron out: a standard plow for competition, a universal set of rules, and a plan for rotation of plowing site, and others.

But I will tell you more about that in later letters, when we have had a chance to meet some of the European officials and gained their opinions. I also hope to be able to report on some of the agricultural developments we see on our trip.

Right now I'd like to tell you more about my travelling companions.

their farm, Lot 18, Concession 5, at Milliken in Scarborough Township.

My second gold medalist companion, Norman Tyndall, is hoping to renew some Scottish friendships during our tour. Norm has been very active in Junior Farmers Club for many years and is presently president of York County Junior Farmers. Last year he acted as host for two days to two of the four Scottish Junior Farmers who visited Canada. His house guests were both young men, and though he says it is them he wants to see again, both Gene and I strongly suspect he is just as eager to check out the two young Scots lasses who also made the trip.

Norman, who started plowing with horses at the age of nine, and then switched to tractors three years ago, also comes by his skill through the family. His father, Stanley Tyndall, until a few years ago was an international judge for the Ontario Plowmen's Association, and for many years was himself a plowman of note.

Norm was born on his father's 100-acre farm at Richmond Hill and now, in addition to helping his father work the family acres, works another 150 acres which he himself rents for mixed farming (Holsteins and Yorkshire hogs).

It is customary for the team manager to say something about himself in this first letter, so here goes.

All the five boys in our family entered agriculture in some branch or another. Three of my brothers are still farming. My son and daughter and my son in law are all Ontario Agricultural College graduates and in the farming industry. They followed in my footsteps for it was in 1914 that I graduated from O.A.C.

I was born on a farm near Dutton, Ont., and have been connected with agriculture all my life. The one brief break was during World War I, when I served overseas, as an officer in the Royal Horse Artillery.

I was recently appointed assistant deputy minister of agriculture for Ontario, and during my service with the department I was for several years superintendent of agricultural and horticultural societies in Ontario. For 16 years I was secretary-manager of the Ontario Plowmen's Association.

So now you know the three of us. Through this weekly letter of our travels we hope you'll get to know us better and gain something from our impressions of British and European farmers and their methods.

Attending the dinner were Mrs. Elizabeth Haw and Mr. Russell Haw, Brampton; Mr. and Mrs. John Parslow, St. Catharines; Mr. and Mrs. Hubert Duncan and Mr. and Mrs. Gordon McLeod, Toronto; Mrs. James Sturrock, Flesherton; Mr. and Mrs. Jack Carson, Washago; Mr. and Mrs. Gordon Ferguson, Mount Forest; and Mr. and Mrs. George Duncan, Dundalk. Mrs. Duncan being a niece.

Mrs. Ferguson, whose maiden name was Mary Campbell, is a lifelong resident of Swinton Park, twelve miles west of Dundalk. She is the daughter of Mr. and Mrs. George Campbell who came to Canada from Scotland and had been a member of St. Andrew's Presbyterian Church, Swinton Park, for the greater

THE WEATHER

Mr. Editor: New Year's Eve was true to form again with nasty weather, although we have had quite normal winter weather since then. We still no doubt long remember the month of December, 1931, and following is the comparison with the normal average.

The total snowfall of 34 1/2 inches was almost three times normal. The average minimum temperature of 10° was exactly normal and the average maximum of 33° was 3 degrees above normal. The highest temperature during the month was 61° on December 7th and 12 days later with a drop of 82 degrees, we had the month's lowest of 21° below zero.
