What Council Did

ON MONDAY, APRIL 7th
Made the usual \$300 grant to Est. Geotown Agricultural Society for Georgetown Fair.

Will meet with Fair Board officials to decide on the location of a new building for housing animals on fair day in the park.

Harding Price, who spoke for the board, headed a delegation which included Perc Cleave, Nelson Robinson and Frank Wilson. Mr. Price said the building should be of aluminum construction. Reporting for the property committee, Councillor McGilvray said the committee favoured placing the building in the oval, running north and south, so as not to obstruct the view of the track any more than necessary. Crs. Goodlet and Hale said they would prefer to keep the building out of the oval if at all possible. Mr. Robinson pointed out that the building would be only 8 ft. high, and that it would be preferable to have it run east and west, because there would be better ventilation and also because it would fit in more harmoniously with park planning. At a meeting tonight, it is expected that a definite site will be chosen.

Granted a taxi licence to Harold Bennett to operate within the town limits.

Will investigate a drainage condition on the property of E. H. Robinson, which is causing a flooded cellar. Mr. Robinson wishes permission to run a drain across James Street.

Asked the police committee to investigate a complaint by garage operator Fred Harrison, that the police are going beyond their duty in dispensing gas to motorists after hours.

Mr. Harrison said he understood that when all stations are closed, the police must give an OK before gas can be made available, but he does not believe they should take a customer to any one garage and dispense the gas themselves. He outlined a recent situation which had annoyed him and said it was his intention to investigate the by-law and stay open 24 hours if possible.

Promised Jack Whitney water service into his new home in the Tyers subdivision as soon as approval of the subdivision is received from the Dept. of Planning. Mr. Whitney said he must be in the house by May 1st and urgently needs water service. Reeve Marshall and Cr. McGilvray thought council should waive some of the red tape and put in the service immediately, but a majority of council felt this could not be done until approval is received.

Will review all town insurance at a special meeting on April 21st, at the request of Cr. Goodlet. Mr. Goodlet suggested that insurance should be reviewed in order to make sure the town is getting the best rate possible.

Accepted the tender of Ted Bludd to decorate the municipal offices at a price of \$614.50.

Reeve Marshall and Crs. Petch and Hale voted against the motion, saying they thought there were more important things on which the money could be spent. Cr. Allen was not present at the meeting, and the motion carried 4-3.

Will accept a new contract for provincial policing, effective in 1953, which will raise the cost about \$2200, from \$700 to \$8900.

Reeve Marshall, who was one of the movers of the motion, said he thought any change-over would be a mistake and provincial policing is still the cheapest system.

Established Daylight Saving Time in Georgetown from 2 a.m. Sunday, April 27th until 2 a.m. Sunday, September 28th.

Will require a \$8 deposit with an application fee for supplying new domestic water service.

Received a protest from Harold Hutchinson, Ab Williams and Jack Yokimsa, that billboard licence fee is too high. The clerk was instructed to write for fees in neighbouring towns for comparison.

Will entertain county assessors at dinner when they hold their monthly meeting here in May.

Engaged Roy Smith, the county engineer, as engineer for the proposed road program.

Amended the water rate by-law, increasing the deposit for water service for tenants from \$3 to \$6.

Will have a water engineer assist the town foreman in flushing out water mains to clear them of sand which has been causing trouble in meters. Estimated cost is \$100.

The matter was brought up by Deputy Reeve MacDonald, who said an engineer's opinion was that the sand is not being pumped from the well, but has accumulated in the pipes over the years and has been disturbed by the addition of a large branch water line.

Appointed W. O. Brownridge as weed inspector at a salary of \$50 a year.

Will remove dangerous trees on town property near properties of Matt Armstrong, Jack Kay and Thomas Leslie, Victoria Street.

Voted down a by-law which would dispense with the services of a private garbage collection and institute collection by municipal employees.

(Recorded vote. Goodlet, Sargent and Hale voted for the by-law. Armstrong, Marshall, MacDonald, Petch and McGilvray voted against. Cr. Allen was absent from the meeting.)

The by-law vote came after heated discussion by council about the proposal. At an earlier meeting council had voted unanimously to make the change and had ordered a by-law drawn up.

The discussion was opened when the clerk read a letter from town foreman Ern Hyde in which he stated that garbage collection would be an added responsibility, and as it had not been part of the original job when he took the foreman's position, he felt justified in not accepting garbage collection as part of his duties.

With Mayor Armstrong insisting that the discussion confine itself to the foreman's letter, the mayor said that it is impossible to outline a foreman's duties and that he is responsible for carrying out any work which council sees fit to give him. Cr. Goodlet asked that Mr. Hyde's letter of application for the position of a foreman had not been mentioned in this. Cr. Hale said Mr. Hyde should take on the job and if he didn't think he was being fairly dealt with, he could then come to council with his complaint.

The by-law was then introduced, and a further discussion took place, with Cr. Goodlet asking for a recorded vote. Mr. Goodlet said that council had favoured the plan at the last meeting and he believed money could be saved by municipal collection. Cr. Petch was of the opinion that Georgetown is getting cheaper service than neighbouring towns. Cr. McGilvray said that since his original support of the plan, several factors had come to light which made him unsure of any financial saving, and if there was a question of raising wages, any saving would be cut down. Mayor Armstrong said that garbage had been reasonably well looked after, and that this year if there were a change, costs would probably go up rather than down, although there might be a saving in years to come. It was a hard motion to vote upon, he continued, and reminded members that Mr. Hyde's letter should not be taken into consideration in arriving at a decision.

"If you feel money can be saved, vote for it" said the mayor. "If not vote against it. I am voting against it at the present time if the contract price remains the same."

Voting was then asked for, and the by-law was defeated.
