Want HIGHER Taxes?

"Don't be silly," you are likely to retort. But the question is not a foolish one. For if you keep asking the government to do things for you then you are automatically asking for higher taxes.

Government itself creates and possesses nothing. All it can do is to take something from the citizens and hand it back to them—less a handling charge to pay the wages of government employees and cost of distribution. Taxes are the means by which this transfer is made possible.

Higher wages without higher production per man mean higher prices. If welfare transfer payments are raised because of rising prices then taxes must go up, too. Thus higher prices now mean higher taxes.

Keep these facts in mind when you read about new State welfare proposals, or about new wage demands that are not accompanied by assurance of higher per man production.
