**C of C PLANS PARK TOILET FACILITIES**

A report of work being done by labour unions in the park was given by Fred Chapman at a meeting of the Chamber of Commerce executive last Wednesday. Progress in cleaning up a section of the park has been very good and it is now planned to erect permanent washrooms in time for use at the fall fair. It is hoped to have a children's playground properly laid out and equipped by early next summer. Various union members have offered to do most of the work on the washrooms and town council will be approached for approval and support of the whole project.

Charles Wray reported on a meeting of merchants the previous Monday and stated that he felt the Chamber could not take sides in the controversy over closing hours. At present early Saturday closing is in force, passed by council as a result of a petition signed by a majority of merchants.

Art Scott told the Chamber that early mail delivery will soon commence and pointed out that a great deal of red tape had been encountered in getting improved service and the benefit will be felt for only a short time this summer. In future, however, this will be a boon to businessmen and merchants.

Jim Linton said highway signs are being lettered and will be erected very soon on No. 7 Highway. President C. P. Bantelle said he hoped to add a new board member to represent the farming community before the next meeting. He also welcomed Ernie Rawson, who replaces Wilf Hillis as chairman of the membership committee.
