### . "I put away my hard-earned money"

This young bank depositor recently wrote to his bank manager:

"I made a goal of \$1,000 for this year. It is two years since I opened the account with two dollars. I owe thanks to you that I put away my hard-earned money where it will benefit me . . . I do not wish to touch it for the time being."

Building up a bank account means work and sacrifice. But Canadians know the value of having savings handy in time of opportunity or need: they maintain 7½ million savings accounts in the chartered banks-almost twice as many as ten years ago. At the same time bank staffs have almost doubled. That, and higher-wages, have increased bank payrolls almost three-times.

More people use the banks, more people work for the banks than ever before.
