Perseverance paid off for two pionship matches. dairy farming plowmen when they won the Esso Trans-Atlantic classes at the International Plowing Match held this year at Carp, Ontario, by the Ontario Plowmen's Association. Carp is 20 miles northwest of Ottawa

For Algie Wallace, 35-year-old bachelor farmer, from North Gower, near Ottawa, it was his seventh attempt at the Dominion horse plowing crown, a gold medal and six weeks' trip to Europe.

Douglas S. Reid, 26-year-old farmer from Brampton, reached his goal - the tractor plowing crown - in six years. Last year he placed third in the Trans-Atlantic class.

The two gold medallists will be the guests of Imperial Oil on a sixweek visit to the British Isles. They will be accompanied by Roy Shaver, of Newington, Ont., who will act as team manager. Mr. Shaver is a post president of the Ontario

Plowmen's Association. During their trip the two plowmen will compete against some of Europe's finest plowmen at the British Ploughing Association national championship to be held at Falkirk, the Dutch farmers at work.

Scotland, on November 12. The special overseas class which they will compete will conducted under a new set of international rules which have been tentatively accepted by Canada, Great Britain, Sweden, Holland, Eire and Finland. It is hoped that these rules will serve as a basis for proposed future world cham-

Doug Reid and Algie Wallace will be the seventh team of champion plowmen in as many years to make the six weeks' overseas trip as the guests of Imperial

Second place, in the Exp Trans-Atlantic contests went to horse plowman Stanley May of Hornby and tractor plowman Ivan McLaughlin of Stouffville. Both received a silver medal and \$150 cash from Imperial Oil. For Mr May it was another heart-breaking contest He placed a close second last year also.

The overseas trip will be the realization of a life-time dream for Doug Reid, though he says he doubts if his dream would ever have been fulfilled had he not won the Esso Championship. Though he has been trying for six years he thought so little of his chances of winning that he didn't even bother to stay around the plowing site long enough to hear the judges announce him as

the winner. Doug has two particular ambitions he would like to achieve during his trip. He wants to see London, and would like to go to Holland to see has become very friendly with Dutch farmers who have settled recently in the Brampton area, and feels that he and other Canadian farmers can learn much from them.

Doug was born on the 185-acre farm which he now operates jointly with Lis father. This spring he bought a 100-acre pasture farm adjacent to the family homestead. Fluid milk shippers to the Brampton market, the Reids keep 50 head of cattle, 20 of which are milking,

and about 45 hogs. Doug is married to the former Betty Furness of Brampton. They have two children, Julie, aged three, and Teddy, who is 18 months old.

His companion for the overseas trip, horse plowing champion Algie Wallace, has been a lifelong farmer on 225 acres of land outside North Gower, where he was born 35 years ago.

Good plowing has been one of his greatest prides since he was in his teens. He has been plowing 20 years, and has been a consistent winner at local matches in Carleton County. The consistency of his performances may be judged by the comment of a friend, who when he heard Wallace was the Esso championship winner, said "Well, least now the rest of us will be rid . ley from the capital's Peace Tower. of you for a while and can get a
