# MORE THAN A MILLION ROCKETS RIDE THE ROAD!

Yes, the Oldsmobile Super "88" and Classic "98" are owner-proved by more than a million motorists. They're road-proved by more than a billion miles of driving. You've probably met and heard some of these owners' yourself... talking about the sensational "get-up-and-go" of the 160 H.P. "Rocket" engine, or the perfect power delivery, in every situation, of Hydra-Matic Super Drive\*.

Take a tip from Oldsmobile owners — try "Rocket" driving for yourself. You'll discover amazing action — exceptional economy — silken smoothness. You'll discover advanced features like GM Power Steering\* for effortless parking and turning and the Autronic-Eye\* for safer night time driving. Stop in soon and make arrangements for a demonstration drive in an Oldsmobile Super "88" or Classic "98".

**SEES U.S. DEMAND FOR DAIRY HOLSTEINS**

Speaking at the annual meeting of the Oxford Holstein Breeders' Association held Dec. 9th at Woodstock, Ont., Norman R. Martin, St. Thomas, Ont., vice president of the Holstein-Friesian Association of Canada said: "We have every reason to be optimistic about our market with the U.S. when the embargo is removed on March 1st. The dairy cattle population of the U.S. is sixteen percent less than it was in 1945 and there is a definite shortage of dairy cows in those eastern states where our markets lie. Holsteins sold at auction in the U.S. have averaged higher this year than ever before and the U.S. Department of Agriculture has predicted higher prices for dairy products in 1953. All this together with an estimated annual increase of six million in the U.S. population makes me feel sure that there will be a big demand for our Holsteins and that they will bring good prices."

—Why not try a Christmas Greeting advertisement in the Herald

**FARM NEWS**

**Farm Circular Gives Interesting Farm Hints**

Ontario Farm Business is the title of a new extension circular compiled by the staff of the Department of Agricultural Economics, Ontario Agricultural College. The pamphlet is available at the Agricultural Office in Milton, and is free for the asking. It is the sort of pamphlet in which every progressive farmer would be interested. It is concise, written up in an attractive style, illustrated, and contains something on the "Outlook", "The Economic Situation", "A Way to Start Farming", "Why the High Cost of Feed", "Seasonal Variation in Egg Prices" and "Agricultural Credit".

**The Economic Situation**

"Canada is experiencing a boom largely arising out of her tremendous investment programme and defence preparations. Investment in 1952 is expected to exceed 1951 by 8 per cent in volume, and 13 per cent in total expenditure. The tooling up stage of defence is over and the demand will be high in affected industries. Demand for consumer goods is high and not complicated by credit restrictions. Growing population, higher employment and higher wages are increasing the dependence of farmers on exports. Farmers will be affected favorably if, as we predict, income taxes are lowered, the present recovery in the U.K. opens that market

to more of our goods, and the U.S. embargo on livestock is raised. Increasing cattle numbers in the U.S. and appreciation of our dollar will make raising of the embargo of less importance than is generally thought. Good steers in Chicago at \$27.25 were not much above similar grades in Toronto in early November."

Every hour of every day the telephone in your home stands ready to serve you for a fraction of a cent an hour. What else in your daily living means so much, yet costs so little?
