

Juveniles Hit Stride Defeat Acton, Fergus

After winning over Acton's juvenile B entry last week, Georgetown 120 Club met Fergus last Monday night in the arena to administer an 11-3 walloping to a hard-playing, rough aggregation.

Up until these last two games, the local B entry have been playing a class above their grouping, against A teams, such as Weston, and Lakeshore. Now with them fighting it out with teams in their own category, the Legion sponsored team is really showing some superior hockey to the fans.

Monday's battle between Fergus and the 120's was just that, a battle with the locals coming out on top of the heap 11-3, as well as winning the numerous fist fights that marred the third period.)

The first period opened with a burst of speed, Haines taking a pass from Webster, to score in the first twenty seconds. Georgetown seemed to take control of the game against the larger team, who, though pressing hard, seemed unable to beat Maltby. At 2:15 Porte scored for the locals followed by one at 13:45 by Grassy, assist Webster and followed by a solo effort by George in the last minute of play. McKenzie and Wheeler tallied, for the Fergus team.

The second period was a fast one, with Fergus trying desperately to even things. However the locals tallied two more, one by Cunningham on an assist from Fred Dickson, followed by a solo by Fred. Near the end of the period Stevenson finally managed to beat Maltby for the Fergus third and last marker of the evening. The period was a rough one, with the Fergus boys tossing out some really stiff bodies, and 5 penalties were given out, four to the locals, one to Fergus.

The third frame was a big scoring one for the 120's, with Haines scoring two solos, Grassy, Porte and Palmer each getting one with Webster and Breen picking up assists. However the period was marred by rough play, and fighting, started by two of the Fergus lads, one of whom, Hower, seemed to be looking for trouble throughout the entire game. He and teammate McKenzie set off what became a parade of players to the sin bin. On the whole, tho', the game was good hockey, with Georgetown boys in command of the situation all the way.

STEWARTTOWN

ST. JOHN'S REPORTS SUCCESSFUL YEAR

St. John's Vestry Meeting was held in the church after service Sunday evening. Rev. J. E. Maxwell presiding. Mr. Maxwell, in his report for the year thanked all those who assisted in any way with the church. Mrs. C. Smith gave the report for St. John's Guild. Mrs. M. Bally for the W.A. and the Junior W.A. Mr. Maxwell reported that the Sunday School with Mr. R. B. Canham as superintendent has had a good year, and improving. Mrs. C. A. Grant reported for the Little Helpers. Officers for 1953: Rector's Warden, Mr. S. Mileham. People's Warden, William Hulls; Vestry Clerk, Mrs. Thomas Clapham; Treasurer, Mrs. C. A. Grant. Lay Delegate Mr. Gilbert English; Substitute, Mrs. Sam Mileham; Auditors, Mr. C. Smith, Mr. T. Clapham. Sidesmen re-elected.

Junior W.A. met last week as usual. Ruby Tennant chose the hymn and conducted the worship service. The Thursday Pledge was remembered. Scrap books were made.

Happy birthday to Ruby Tennant for Wednesday, February 11.

Happy birthday to Mrs. Lawson Sr for next Sunday, February 8th.

W.I. meeting will be held Wednesday evening, February 11th at Mrs. Sanford's home.

Mr. and Mrs. P. R. Bally, Dawn and Stephen and Mrs. Marshall of Islington were visitors with Mrs. Bally on Sunday.

The only regret is that sports-minded fans of other years could not see their way clear to drop in and see some of these Monday night games! Wonder where the followers of last year's juveniles are this year!

Honour Bingham & Son At Holstein Annual

One of the highlights of the Annual meeting of the Holstein-Friesian Association of Canada held in the banquet hall of the Royal York Hotel in Toronto, Wednesday was the presentation of Master Breeder Shields by Hon. F. S. Thomas. Three Canadian breeders received this signal honour in 1952. To the delight of all 'Haltonites', the partnership of Harold Bingham and Son was one of the three so honoured. In making the presentation Hon. Mr. Thomas made reference to the fact that the Bingham's have bred nine XX bulls, seven Very Good cows, and 31 Good Plus cows. All animals in this herd of 45, with the exception of one, have been born on the Bingham farm. One of the outstanding females in this herd, cedes Dutchland, with a life time is the 17 year old Katharine Mer-production record of 199,540 lbs. of milk. She is producing 35 lbs. or more daily and she will not complete her present lactation until May, so she should go well over the 200,000 lb. mark.

Another outstanding cow is Meadowbrae Sylvia Polly, with a lifetime record of 154,240 lbs. of milk and 5,265 lbs. of butter fat. All Black & White enthusiasts will recall Glenafon R. A. Monogram, former herd sire in the Bingham herd which took the Grand Championship at Milton and also at the West Central Championship show at Brantford a few years ago. This great sire was sold to Argentina at a five figure price. Halton has many outstanding farmer breeders but Harold Bingham and his son Kyle, are the first to achieve the elite circle recognized as "Master Breeders" and to them we extend sincerest congratulations on their great achievement.

FARM NEWS

SOME HIGHLIGHTS AT BREED MEETINGS

Last week saw the Royal York in Toronto with pure bred breeders from all parts of Canada.

Dairy Breeders Oppose Synthetic Product Invasion

Judging by the discussions and resolutions passed at the annual meetings of the Holstein, Jersey, Guernsey and Soil and Crop meetings, the dairymen of Ontario and Canada are in no passive mood when it comes to the further invasion of their market by vegetable oils and synthetic products. It was pointed out at the Holstein-Friesian meeting, that dairying represents the third largest industry in Canada. Furthermore, that one-sixth of our Canadian population is entirely dependent on the dairy industry. While some of the leaders in the various discussions were prepared to admit that the time may come when they must be prepared to admit such products, it was the general consensus of opinion, that the present time with glutted milk markets due largely to the U.S. embargo and our export market for dairy products cut off in Great Britain is no time for further substitutes for dairy products.

More Artificial Insemination

Secretary George M. Clemons of the Holstein-Friesian Association revealed that 44 per cent of the Holstein calves registered in 1952 were the result of artificial insemination. This compares with a figure of 40 per cent in 1951, and 31 per cent in 1950. Mr. Clemons also reported a total active membership of 12,420 at the end of 1952. Transfers of ownership, he stated, were seriously affected by the embargo on exports, dropping from 50,584 in 1951 to 33,399 in the current year. This 34 per cent drop underlines very strongly the importance of export markets to the breeders of pure bred Holstein-Friesian cattle in Canada. As a matter of fact, it is equally as important to the breeders of all pure bred dairy cattle.

No Cure for Rhinitis

Ontario Swine breeders indicated unmistakably their concern about the disease, Rhinitis. A resolution was introduced requesting more rigid inspection of pure bred swine herds. W. P. Watson, Ontario Live Stock Commissioner, and Prof. R. G. Knox both pointed out to the meeting that except in advanced stages it is impossible for anyone to determine accurately whether or not the disease is present in a live animal. As yet there is no test which can be used in diagnosing the disease. Nor as yet, stated Mr. Watson, have our Veterinary authorities discovered any cure. Research authorities in various parts of the continent are continuing to work on the problem. This should indicate to our swine producers the need for every precaution when selecting breeding stock or feeder pigs.

site of the third annual Halton Folk School, scheduled for the period of February 25th to March 1st. Professor Sim was one of the first men to help organize "folk schools" in Grey County. Later, when Director of Adult Education at McConaughy College, he introduced the general idea of the movement into Community night classes in Quebec High Schools. It has been pointed out to us by Mrs. Roy Coulter, that those who took advantage of the recent Leadership Training Course held in Milton, are well acquainted with Mrs. Sim and her ability to lead discussion groups. Certainly with Professor and Mrs. Alex Sim together with Dr. Roby Kidd providing leadership, the local committee have every reason to be enthusiastic that the 1953 school will be the "Best yet." Apparently there is room for a few more applicants and those interested should send their applications to Mrs. R. E. Elington, Milton, R. F. No. 8.
