

What Council Did

ON MONDAY, FEBRUARY 2nd

A report on water samples taken by Halton Health Unit showed Georgetown water as Grade 1. Mayor Armstrong said there had been rumours around town that the water supply might be responsible for jaundice and other illnesses prevalent at present, and that the report should answer any such rumours.

Passed a motion which had been drafted at a meeting of five solicitors representing municipalities in North Halton high school district, which will ask the Municipal Board to reverse its decision on apportioning high school costs made in December, 1951. Costs will now be shared on the equalized assessment, the same as other county costs.

Will look for a new collector of dog taxes, after W. O. Brownridge said he would be unable to take the appointment this year, as he could not spare the time from his business.

Mr. Brownridge's appearance at the meeting to enquire about what procedure he should take to collect from a resident who refused to pay the tax precipitated a lengthy discussion.

Mayor Armstrong said the collector has authority to issue a summons but that he personally likes to avoid this wherever possible. He suggested that in such a case a final warning be issued by the police which, in most cases has been sufficient for the delinquent to pay up.

Mr. Brownridge said he had visited this man seven times, then the police paid a call, and he had gone back an eighth time, but still has not been able to collect.

Mayor Armstrong said that in such a case, after fair warning, he would be in favour of a summons. Police chairman Norton will ask the police to uphold the dog by-law.

During the discussion the point was brought out that many people erroneously think that no tags are needed for dogs under 6 months old. This is not the case, and any dog, regardless of age, must have a tag.

Mr. Brownridge spoke strongly in favour of having dogs restricted to homes at all seasons of the year and said that he was in process of getting up a petition to this effect. He had a petition in his pocket containing approximately 117 names and said he intended to present it at a later date.

Mayor — Did everyone who signed it read the petition? One woman told me her neighbour signed it and didn't know what she was signing.

Goodlet — I suggest Mr. Brownridge cover the town thoroughly. The names on this might represent a minority group.

McGilvray — He has a cross-section of the town, but I would like to see more names before we consider it.

Petch — One hundred and seventeen names on a petition hardly warrants action at this time.

Hale — I'm of the same opinion. I saw a couple of names on this of people who let their dogs run all last summer.

Allen — If council took such action, we would have to hire a dog catcher. There is no other way to enforce such a law. We would have no protection against dogs from the township.

Hale — I'd favour lengthening the time for having them tied up in the summer somewhat, but not a complete restriction.

Mayor Armstrong spoke about what an expensive and cumbersome system it would be to have a dog catcher and a pound.

"We have enough by-laws on our books now which aren't enforced," he said, "without adding another one which would be both costly and difficult. However, when the petition is presented we will deal with it at that time."

The administrative committee was asked to look for a man to replace Mr. Brownridge as collector of dog taxes.

Finance Minister McGillvray asked all committees to have their estimates in early so the tax rate could be struck early in March.

He hopes to be able to include an allocation for new gates at the park in this year's budget.

Councillor Goodlet spoke strongly in favour of having local improvement costs borne by the contractor, rather than saddling the town with further debt in future subdivisions.

This is the practice, he said, in most of the Toronto suburban subdivisions, so that when a person buys property they pay for services too, rather than finding out later that they must pay for water, sewers and sidewalks.

Houses in Georgetown will be allocated numbers, with assessor Joseph Gibbons put in charge of setting up a proper numbering system.

It is planned to inform each house owner of his proper number, but the town does not plan to provide numbers and it will be up to each owner if he so wishes to purchase a suitable marker himself.

Mayor Armstrong spoke of a magazine Police News which had ap-

1953 Chevrolet

better than ever

Advance-Design Trucks

For 1953, Chevrolet trucks offer new performance, new stamina, new safety and economy — and every model is even stronger, sturdier, more durable than those of past years!

The advanced Loadmaster, Torquemaster and Workmaster engines in all models deliver more power than has ever before been available in Chevrolet trucks. This big, husky, valve-in-head engine with a new high-compression ratio brings you finer performance, faster acceleration, greater hill-climbing ability and substantially greater gasoline mileage.

But that's only the beginning. You get all the proved features and advantages that have made Chevro-

let trucks world-famous for their ability to handle the roughest jobs day after day at the lowest over-all cost to you!

Yet, even with all these greater advantages, 1953 Chevrolet trucks give you more for your money than any other trucks of comparable capacity and specifications. Drop in at our showroom and talk over your trucking needs. Let us show you how much more you get for your money with 1953 Chevrolet trucks.

A GENERAL MOTORS VALUE

powerful reasons why they are better than ever

more engine power!

You get all the power you need with outstanding valve-in-head economy from Chevrolet's great new engines for 1953 — the 108 h.p. Loadmaster, the 125 h.p. Torquemaster and the big 130 h.p. Workmaster — all with new high compression ratios.

more staying power!

Now, heavier, stronger, more durable frames increase rigidity, add to ruggedness and stamina of all 1953 Chevrolet trucks. Long famous for their ability to take the roughest jobs day after day, Chevrolet trucks are now braver and sturdier than ever.

more braking power!

In 1953, all Chevrolet trucks up to 1400 Series models are equipped both front and rear with big, powerful "Torque-Action" brakes which make full use of truck momentum for greater stopping power. Series 1100, 1500, 1700 and 1800 heavy-duty trucks use extra-large "Torque-Action" brakes in front, "Twin-Action" type in rear. Both assure quick, smooth, safe stops — provide greater stopping power, greater durability than before.

more economy!

The new and greater stamina of 1953 Chevrolet trucks, plus extra gasoline economy with improved valve-in-head engines, reduces hauling costs per ton-mile, brings you greater over-all economy throughout the long life of your trucks.

QUEEN & GUELPH STREETS

proached him about putting a write-up about the town, with pictures of the council and police force in an approaching issue.

The salesman had suggested, also, that the town purchase a half page advertisement at a cost of \$60.

Council said they had no objection to a news story, but would not sanction paying for an advertisement which they could not see would be of any benefit to the town.

Raidettes Defeat Hamilton Ladies

On Saturday Georgetown Raidettes defeated Hamilton Ladies in a close game, with the score ending 3-2 in favour of the Raidettes.

This was the second last game to be played this year by the Hamilton Ladies, although a return game will be played sometime in the near future.

In the first period the first goal of the game was scored by Joyce Herrington, with the assist being credited to Eileen Prust. This was also repeated once more in the first period with the goal again being credited to Joyce, assisted by Eileen.

Hamilton came back near the end of the first period with their first goal, scored by Gladys "Stretch" Ruddell, a former Georgetown girl, assisted by Marj Smith.

In the second period a penalty was given to Hamilton's Jerry Durkin for tripping, and after she got out of the penalty box, she scored

the next goal, again assisted by Marj Smith, and tied the score 2-2. Once again Joyce scored her third goal, and again Eileen was credited with the assist. The third period failed to bring about a tie for Hamilton and the game ended in favour of the Raidettes.

Georgetown will be entering the Provincial Play-offs this year and it is expected that the first game will be played with Brampton, whom the Raidettes have defeated twice.

As you may remember, last year the Raidettes went as far as the semi-finals, and were put out by Brampton girls. This year the girls are hoping that the tables will be turned.

The team was glad to see such a wonderful crowd out on Saturday, and are sure they enjoyed the game as well as the players. You can be sure to see the girls enter the play offs with lots of confidence in themselves, because they know that they are being supported by local fans.

Hamilton Ladies — Pearl Hicklingbottom, Beth Eberle, goal; Jerry Derks, Marie Cumingham, Gladys Ruddell, Marj Smith, Kitty Quinn, Frances White, Grace Partito, Norma Clark.

Raidettes — Jean Hancock, goal; Joyce Herrington, Neretta Zillo, June Thompson, Sandra Scott, Eileen Prust, Betty Anne Henderson, Claire Bradley, Mim Grace.
