You can make pipe from a great variety of materials. Vegetable or mineral fibres, for instance, pressed into a mass, can produce a pipe that has strength and can be coated or treated to resist moisture and indicate permanence.

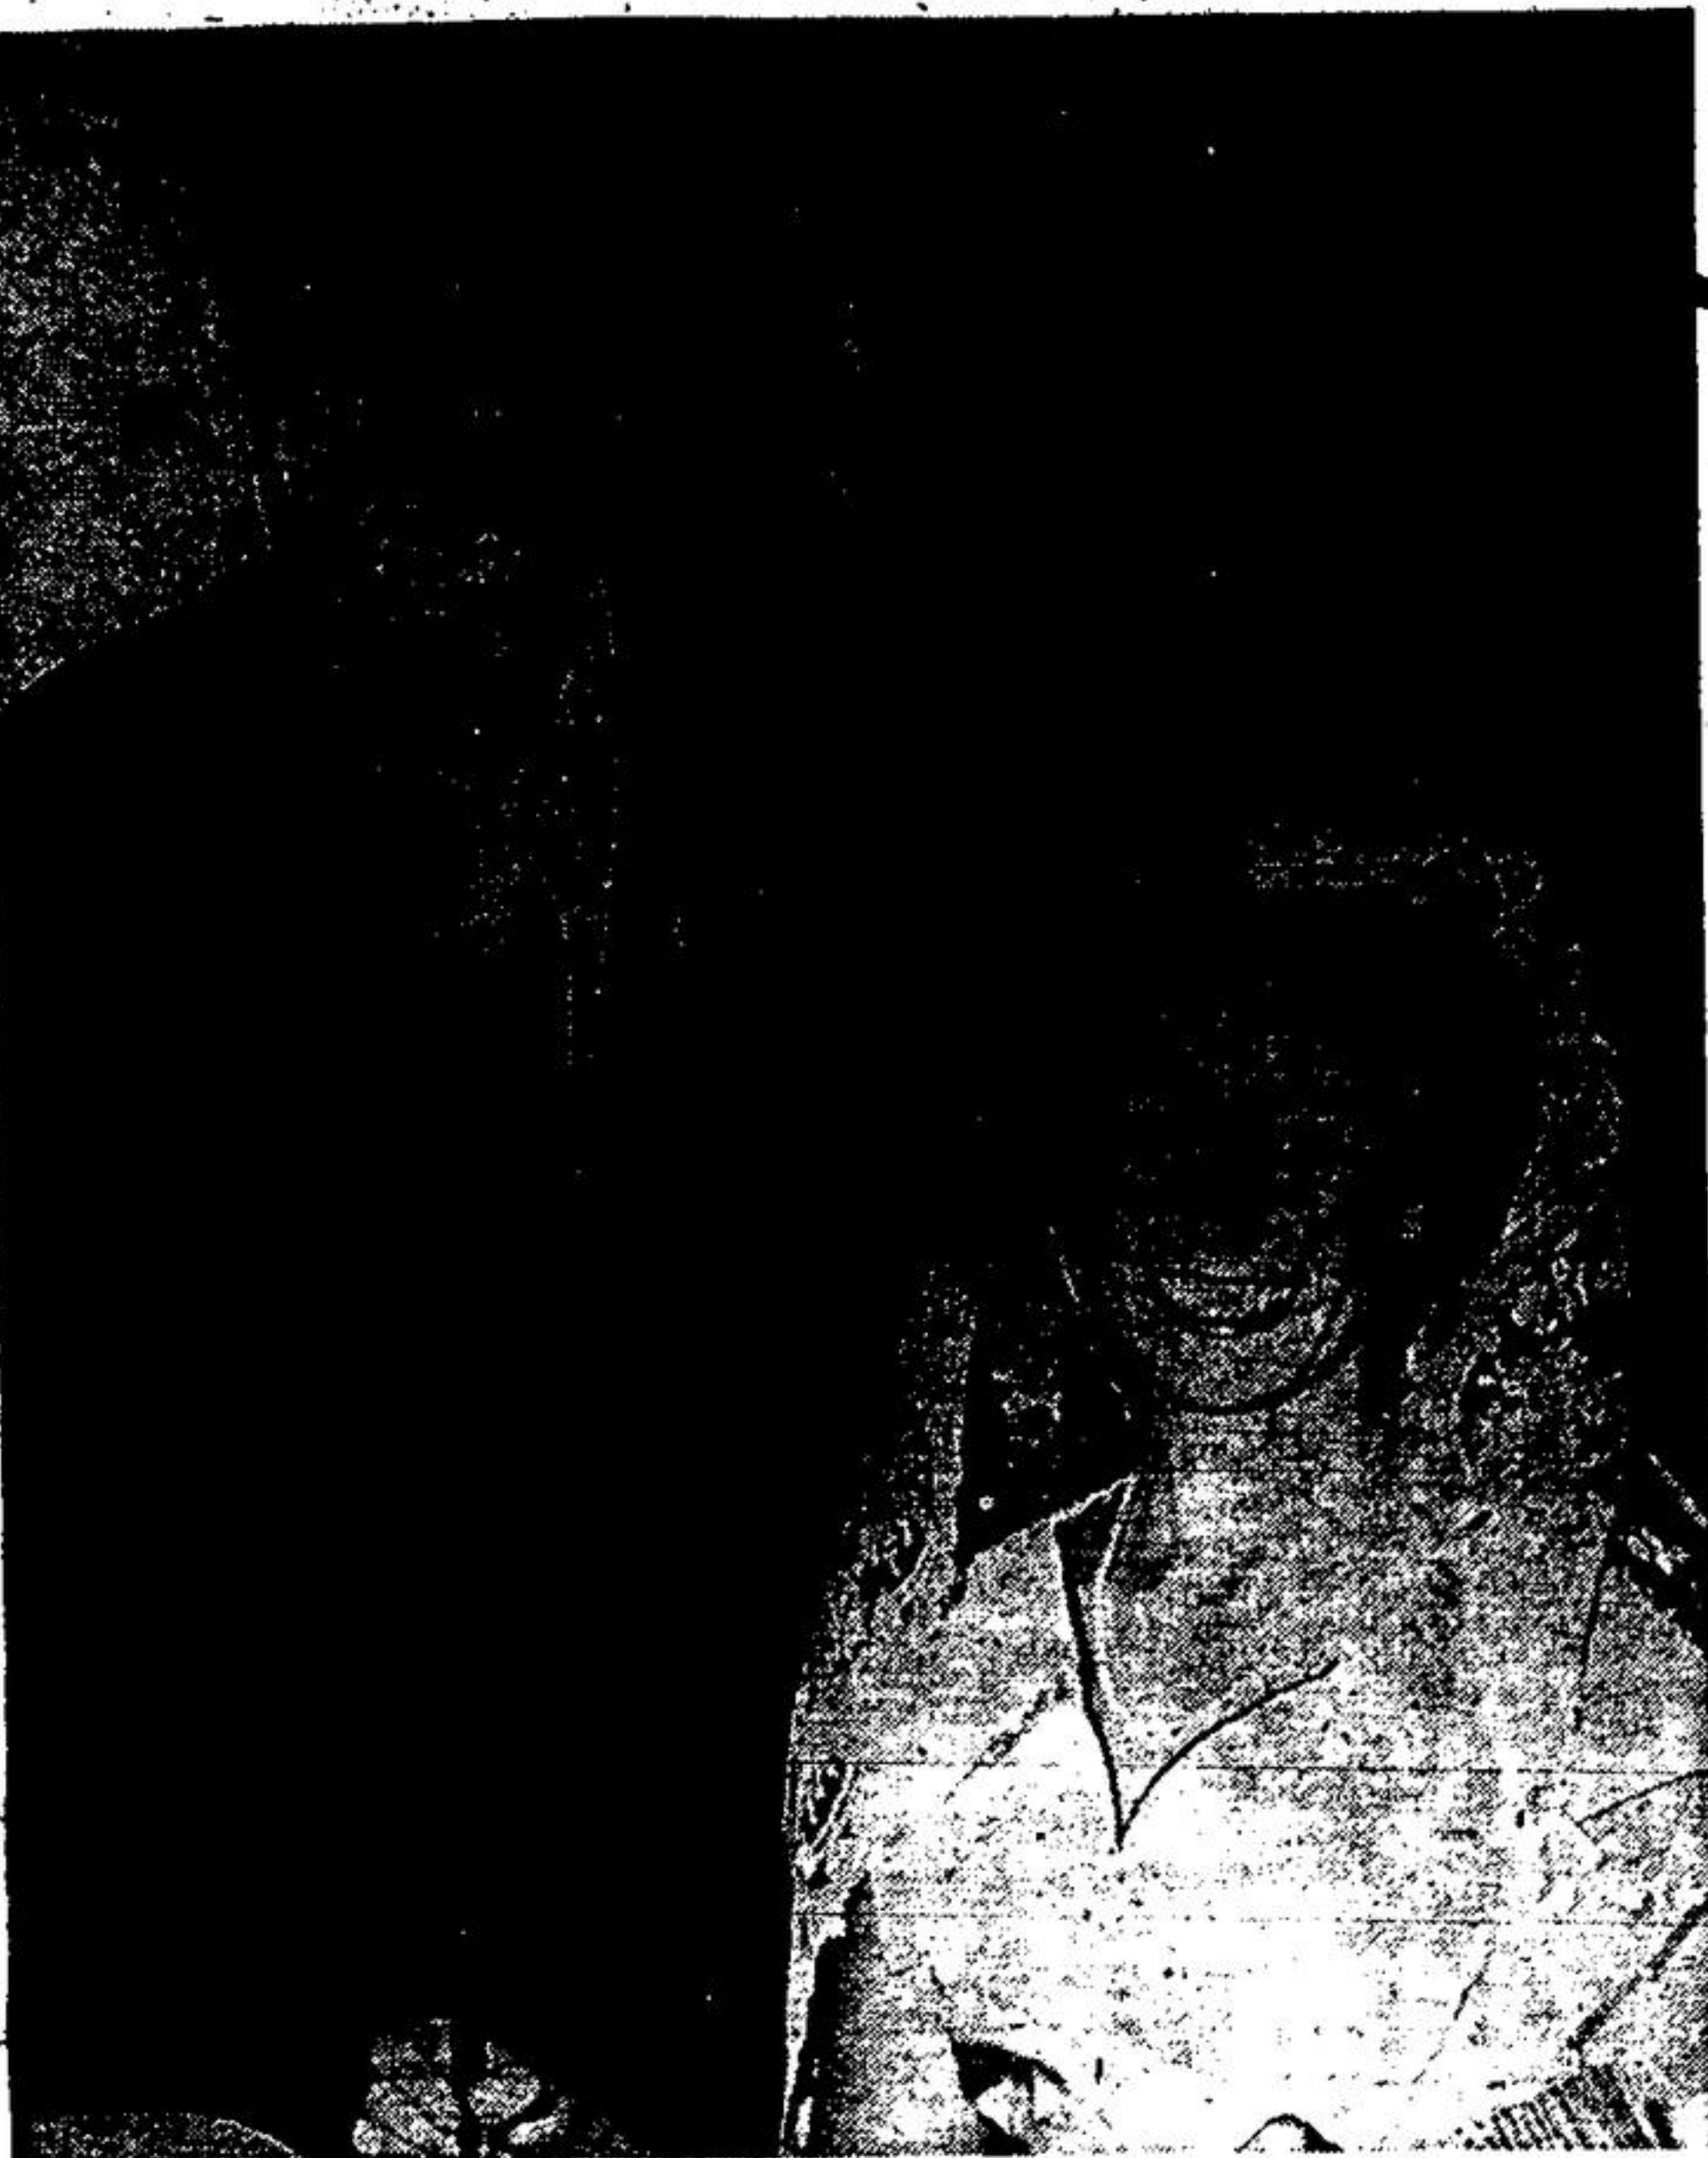

But sewage is more than moisture. By code definition it is "a liquid containing vegetable, mineral and animal matter". It may form corrosive gases that have an injurious chemical action. A sewer pipe must be tough to resist this chemical attack.

VITRIFIED CLAY PIPE is of the nature of glass; and glass is impervious to corrosion by acids and alkalis. This hard, vitreous pipe is produced by heat, which gives it permanence. "Boned by fire", it is able to resist chemical action — permanently. That is what makes VITRIFIED CLAY PIPE the best buy for all sewer purposes.

Mr. and Mrs. Warren Wilkins sign the register after their wedding in Christ Church, Deer Park. The bride is the former Ann Elizabeth Walker, daughter of Mr. and Mrs. Charles H. Walker of Toronto and Limehouse. They are honeymooning in the West Indies and will be living in Toronto.

Grand Union Company Buys Carroll Chain

An American firm, the Grand Union Company has bought Carroll's Limited, of which the Georgetown store is one of 31 grocery stores in Hamilton and the surrounding district. Founded in 1893 by the late William Carroll, Carroll's was sold by the family in 1930 to Montreal and Toronto interests for more than three-quarters of a million dollars, but the name of the firm was retained. Purchase price in the latest sale has not been disclosed. M. R. Gilmore, Toronto and J. J. Block and Joseph Hopmeyer, Montreal, were owners of the chain for the past two years. The acquisition of this Canadian company marks the entry of Grand Union into Canada, according to an announcement by Lansing P. Shield, company president. The second oldest and one of the major retail food chains in the states, this company operates 300 supermarkets and

stores in six eastern states, as well as 700 home service routes in 30 states. In 1932 its sales exceeded \$184,000,000. The company placed fourth in 317 "Excellent Managed Companies" named last year by the American Institute of Management, and a brochure issued by the Institute said: The Grand Union Company is especially strong in Research and Development and in Sales Vigour. In a highly competitive field, Grand Union has made its recent strides through unrelenting effort, largely from its president, Lansing Shield. An appointment by the new management is that of E. A. Wheeler as general manager of the meat merchandising department of Carroll's. With food chain experience before joining Grand Union in 1936 as a store manager, he rose to the position of meat buyer for the company. He will be living at Aldershot.

FARM NEWS

CHOLERA CONTROL PROGRAM CONTINUES

Latest reports from veterinarians assigned to cholera control and eradication duty in Ontario indicate that outbreaks have now been definitely confined to date on a total of 35 premises in eleven Western Ontario counties. In each case so far, hogs passing through community sales have been the cause of the infection. A methodical routine check of all lots of hogs sold in these channels has now been completed, and this procedure has been instrumental in detecting potential cases even before visible symptoms are evident. Efforts are still continuing, to track down the source of original infection. There are a number of possible ways in which the virus could have entered the province and all avenues are being carefully explored.

FARM NEWS

HOG PRICES HIGHER

Hogs continued to advance sharply in price during May in both U.S. and Canadian markets. At Chicago the May average price of \$23.60 per cwt. for live hogs set a new record for the month eclipsing the previous high of \$22.40 in 1947. The remarkable advance of \$7.00 per cwt. in Chicago hogs since December, is unprecedented and unforeseen by the most sanguine forecasters. The Toronto hog market, following the lead of Montreal and Chicago, also advanced in May. The price of \$34.00 per cwt. for Grade A dressed hogs at the close of the month was the highest level since the first week in September, 1951, when the price was \$36.25. In direct contrast to hogs, the cattle trade continues to be featured by relatively heavy supplies and little change in prices. Beef is moving in substantial volume into retail channels now that it is priced attractively in relation to pork.

College Students Visit Here on "Field Trip"

Eleven paper technology students at Western Michigan College, accompanied by R. T. Elias of the faculty, left Kalamazoo Sunday morning, June 14th, for a week-long trip to mills in Canada, New York and Pennsylvania. Each student will write a report on the visit and also a report on some specific aspect of operation which he observed through several mills. The huge plant of the Ontario Paper Company, Thorold, was their first start where they watched operation of a mill which daily turns out 1,200,000 pounds of newsprint. The excellent research and control laboratories of the plant were of special interest.

Tuesday morning they visited the Provincial Paper Co., Thorold and the Alliance Paper Mills, Merrittton. During the afternoon they were in Georgetown where they inspected the new coating mills of the same firms. The Interlake Tissue Mills Co., Merrittton, was visited Wednesday morning, then to Newfane, N.Y. for a luncheon and visit at the Lockport Felt Co.

Niagara Falls, N.Y., and the Kimberly-Clark Corp., were the object of Thursday morning's stop, while in the afternoon they were at the International Paper Company, North Tonawanda, N.Y. Last stop of the tour took place Friday at the Hammermill Paper Co., Erie, Pa.

Making the trip were Andre Breton, France; Richard Drexel, Valdosta, Ga.; Ronald Hamilton, Vincent Owenwallier, Lawton Smith and Leonard Timmer, Kalamazoo, Mich.; Ted Jewson, Otsego, Mich.; James Lewis, Lansing; Maurice Metzelaars, Constantine, Mich.; Emery Vargo, Niles, Mich., and Russell Larson, Norway, Mich.

Summer mill tours are required of students enrolled in the paper technology curriculum two of the three summers in which they are students.

KelmScott Swine Auction Sets New Ontario Record

An Ontario record for swine auctions was set when the KelmScott herd of E. L. (Nim) Taylor was sold at Milton. The 206 lots went for a total of \$34,078, an average of \$165.

The sale was originally slated for Hays Sales Arena at Oakville but the hog cholera outbreak resulted in having it at Mr. Taylor's farm near Milton. Mr. Taylor became a breeder of English swine after selling his Massey-Harris agency in town a few years ago.

Top price at the sale was \$2300 for an imported boar, one of the best animals in the herd of English Yorkshires.

Five boars average \$630 and 25 fall boars brought an average of \$164. The 20 bred females returned \$289 and the top 30 spring boars \$100 average. The top 30 weaning gilts brought an average of \$89 and 11 sows with litters an average of \$324.

Top price for a sow was \$600.
