FARM NEWS HAYING STILL IN PROGRESS

Haymaking has extended over a longer period of time in 1953 than has been the case in many years. It has been a trying year to make good quality hay - during the past ten days or so good progress has been made but last week-end there was a tremendous quantity still in the fields either in bales or still

standing. Certainly farmers who were in a position to make some grass silage this season are for the most part away ahead at the game. While the great majority put their grass in upright solos, there are quite a number who are trying out the 'pit' silo. At the Lindale Farm of Maurice Beaty, in Trafalgar Township, a 'horizontal' silo on top the ground, looks to have real possibilities. Those who are located on farms which are not conducive to 'Pit' silos will be watching the "Beaty" experiment.

Mr. Beaty's horizontal silo which is built of some posts, a little lumber and snow fence, holds 20 acres of grass or in the neighbourhood of 200 tons of silage. It is, 80 or 90 ft. long - 20 feet across and 6 feet high. What impresses is the fact that aside from their own labour, the construction was less than \$100. In these days of \$1000 to \$1200 for concrete upright solos, that is quite a factor, providing there is not too much spoilage." At the moment, prospects are promising but next winter will tell the final story.

FARM NEWS **Expect Wheat Harvest** Higher Than Normal

During the week of July 13th, a goodly number of Halton farmers rolled out their binders. While combining will not likely get under way until the week of July 27th, the current week-end will see a fairly large percentage in stook.

The crop is a heavy one - true, a few fields have been hit by root rot and many others to some extent by rust - nevertheless prosspects point to a higher than normal yield. The heads are a little shorter than normal, but the stands for the most part are thick. It is anticipated that some of the fields entered in the "Fifty Bushel Wheat Competition" will exceed the fifty bushel objective.

approved CLOTHES

SILVER'S

Many Georgetowners

At Avro Picnic

Many Georgetown employees of the A. V. Roe Company and their families were among 20,000 people who thronged Exhibition Park, Tor-

onto Saturday for the company's THE MAIL BAG

annual picnic. One of the largest affairs in this part of the country, a full day of races and games, rides and amusements was planned.

A LETTER FROM MRS. R. F. BESSEY

Halton Centennial Manor, Milton, Ont.

July 10th, 1953

Dear Mr. Biehn: Thank you very much for the copy of the Georgetown Herald containing the little write-up on my ninetieth birthday. I had heard over the radio a little while ago that Mrs. Jim Buck had been mentioned in the Herald for the same reason, and I learn that it is a custom of your weekly newspaper As-

sociation, This is really not the first letter I have written you. You published one for me concerning the North Halton High School area. I think I gave some good suggestions but they have not yet been carried out.

I am partly deaf, blind and lame but am otherwise in fairly good health. I miss reading and writing (I a dictating this letter) but I have taken up crocheting again a hobby that I enjoy very much. It is so much better for me for my time to be occupied. Human beings wer made to work, and it is well with us when we enjoy working. Thanking you again for remem-

bering me and wishing the Herald and the old town every success. I remain.

> Yours truly, Mrs. R. F. Bessey.

MINISTER'S DAUGHTER VISITS TOWN AGAIN

An interesting visitor in town last week was Mrs. A. B. Shade of Philadelphia, accompanied by her daughter Mrs. Janet Shade Gardner of Rochester, N.Y.

Mrs. Shade is the daughter of the late Rev. S. J. Cunnings who was minister of the Baptist Church here in 1887 and 1888. She herself is the widow of a Baptist minister who died last year. She had not previously returned to Georgetown since she lived in the parsonage on Main Street as a small child when her father was serving here.

We will budget for Government's legitimate needs ... we will stop budgeting for bloated surpluses whichin three years—took from the people's pockets the staggering sum of \$1,618,000,000 more than the Government needed.

We will end the shocking conditions in our Defence Department which the Government's own investigator, (Col. G. S. Currie) described as: "A general breakdown in the system of administration, supervision and accounting ... Accounting records in a chaotic condition and of little use in determining the nature and extent of irregularities ... Waste and inefficiency far more costly in loss than that covered by actual dishonesty".

Defence.

We will provide the nation with an administration whose attitude towards the spending of public monies will be one of prudence and common sense. A new Government in itself will mean substantial savings to the taxpayer—it will replace a Government whose arrogant indifference to economy was best expressed by Mr. Howe's scornful remark, "What's a Million?". Or, "If they need a gold-plated piano it is our duty to

We will, without impairing the efficiency of our

Armed Forces, correct the appalling inefficiencies in

the administration of the Department of National

We will reduce or eliminate countless hidden, indirect taxes which grossly inflate the cost of consumer goods, add to the grievous cost of living, increase the price of homes beyond the capacity of most of our people to pay, discourage saving and initiative.

We will reduce federal taxes by at least \$500,000,000 a year ... without reducing any pensions, family allowances, or other social security payments:

\$500,000,000 TAX CUT NOW!
