ASHGROVE

ATTENDS STRATFORD SHAKESPEARE PLAYS

Mrs. Milton Bird was visiting a friend in Stratford for a few days last week and attended the Shakespeare plays and festival.
Mr. and Mrs. Joseph Drake and son Joey have returned from a delightful two week three-thousand mile trip to Yarmouth, Nova Scotia. Congratulations to Mr. and Mrs. John Ruddell on the birth of their second boy born on the seventh of July.

The sympathy of everyone goes to Mr. C. B. Dick in the death of his brother, Mr. Charlie Dick in Cleveland last week. Mrs. C. B. Dick along with Mr. Dave Dick flew by plane on Tuesday to Cleveland and on Friday morning, Mr. C. B.

Dick, Mrs. George Kennedy, Clayton Dick Jr. and Mrs. J. H. Hunter motored to the funeral.

Mrs. S. Gowland, Mrs. Frank Wilson and Marilyn are enjoying a ten day trip to Nova Scotia, to visit Dr. and Mrs. Arthur Wilson and daughter Charlotte.
Mr. and Mrs. Ward Brownridge and children Margaret and Murray motored to Kirkland Lake for the week-end to visit Mr. and Mrs. Hartley Anderson and family.
Mrs. Ben Howden of Guelph is visiting with Mr. and Mrs. A. J. Ruddell and family.
Miss Kay McCaugherty was visiting Valerie Nurse a few days last week.

The haying season is over, most of the wheat is cut and soon the combines and threshing machines will be kept busy while the daylight lasts.

"BEE" PATIENT

Honey Crop

is late this year... we'll have plenty in four weeks time.

Four in Hospital With Broken Limbs

An unusual number of elderly people in Georgetown have fallen and broken bones during the past few weeks.
Patients in Guelph General Hospital include Mrs. Jesse Brandford, Mrs. James Ross and Mrs. J. R. Lindsay, all with broken hips, and Mrs. E. Colman, one of the town's nonagenarians, who has a broken arm.

COMING EVENTS

Attention folks! The Oddfellows and Rebekahs annual garden party will be held in Georgetown Park, Friday, August 21st.

An event this fall... Ladies' Curling Club dance in the Rose Room, CKNX Ranch Boys, October 22nd.

Kindly notice, there will be no bingo at Holy Cross Church Hall on Monday, August 3rd. Next regular bingo will be on Monday, August 10th.

The Conservative Committee Rooms are now open evenings and will be open next week in the afternoons as well as evening. For information, phone there during those times, or 447J anytime.

GEORGETOWN

Public Library

will be closed

AUGUST 1st - 15th inclusive

Extra books may be taken for that period.

LIMEHOUSE

GARDENS COMMITTEE PIE COMPETITION

The W.I. gardens committee, convened by Mrs. Glsby sponsored a flower show and cherry pie competition in the Hall on Monday evening. Mrs. D. Livingstone judged pies awarding first to Mrs. Roughley and second to Mrs. C. Jones. Mr. Roughley carried off the prizes for sweet peas. Pie and tea were served after a few rounds of euchre.

Dr. and Mrs. S. Magwood and Peter on holidays from the Maritimes recently visited the Fred Browns and the Ted Browns.
Dr. and Mrs. H. H. Lockwood of Toronto and Uxbridge have left Limehouse after spending three weeks at Fairfield, the summer home of Mr. and Mrs. Adam Hall.

Mr. and Mrs. Earl Scott, Garry and Trudy and Mr. and Mrs. Douglas Scott and Randy were in New York during last week.

Mr. Isaac Askin was with the Eldin Askins recently.

Mrs. Fred Brown is holidaying at Bala this week.

Mr. A. C. Bourne is home following a trip to the west coast.
The F. T. C. Browns are enjoying a motor trip in Eastern Ontario.

The A. Spitzers and Mr. and Mrs. W. Mitchell visited the Sandfords at Waubashene on Sunday.

Miss Ann Spitzer of Toronto was a recent visitor with the Paul Spitzers.

Mr. and Mrs. Thompson of Toronto with the Gearys.

Mrs. G. P. Wood, Dorothy and Donnie of Richmond Hill are visiting the Ron Latimers, Mr. Wood having visited on Sunday.

Joy Patterson spent last week with her cousin, Marilyn Patterson, Rockwood.

Mr. Alex Wright holidayed in Muskoka last week.

Mr. and Mrs. J. A. Smethurst, Jacqueline and John of Islington visited his mother on Sunday.

Lois Miller of Brampton is visiting the Karns.

The W. Shelbourne's visited Mr. and Mrs. Fred Cox, Orton on Sunday.

Mrs. Ray Powell and children of Lowville visited the Shelbournes on Tuesday.

Services at the Presbyterian Church will be withdrawn the first three Sundays in August while Rev. A. Calder is on holidays.
Eliane Morrow spent a few days with Kay Norton this week.

Misses Betty Yake and Helen Mills of Toronto visited the latter's parents here last week-end.

CALL BRIGADE TO GRASS FIRE

Georgetown Fire Brigade was called to a grass fire on Saturday on the Acton sideroad.

Under arrangements with Esqueving Township, the town now services a part of the township around town, and later this year will have a second fire engine housed in town.

Visitors with Mr. and Mrs. James Richardson this week were Mr. and Mrs. P. Mattingley and daughter, Rena, from Alberta and Misses Lillian and Betty Murray, Toronto.

MACKENZIE NEWS

This is the season when the gardeners are getting some dividends from their work.

We have an aluminum door, complete with door closer, hinges, glass and screen. This is a permanent investment made to last a lifetime for \$55.00.
Have a happy holiday week-end.

Rheumatoid Arthritis Relief is Predicted

A report by two Pittsburgh physicians on the combined use of ACTH and gold in the treatment of patients suffering from rheumatoid arthritis indicates that in some cases extended remission of the disease is possible. ACTH has been widely used in recent months in the treatment of chronic diseases such as rheumatoid arthritis, resulting in temporary relief from the disabling and painful aspects of the disease. Gold therapy has also been used, achieving remission of the activity of the disease in a limited number of cases. Drs. Harry M. Margolis and Paul S. Caplan of the University of Pittsburgh School of Medicine and St. Margaret Memorial and Montefiore hospitals, report on the results obtained in their study of 23 patients who were given both ACTH and gold. Five of their patients to whom the administration of the hormone has been discontinued entirely for periods ranging from 30 days to 7½ months are maintaining their remission without relapse of the arthritis. Ten of the number are maintaining their remission but are still receiving ACTH along with gold therapy. The remaining six have discontinued treatment for various reasons. The importance of the continued remission in the seven patients despite discontinuance of ACTH is due to the fact that the beneficial effects of ACTH given alone generally last only as long as the hormone is taken, relapses developing either immediately or shortly after cessation of treatment, they explained.

Carbon Makes Possible New Plant Varieties

Radioactive carbon may be useful in producing new varieties of farm and garden plants, research on "hot" onions reported by investigators from the University of Chicago and the Argonne National Laboratory have disclosed. John M. Beal, professor of botany and chairman of the department at the University of Chicago, and Norbert J. Scully, senior physiologist with the Argonne National Laboratory's division of biological and medical research, have collaborated in a research program the results of which are discussed in the current issue of the Botanical Gazette. The onions, used in this study, were grown inside one of the Argonne Laboratory's plant growth chambers for three months. Radioactive carbon dioxide was mixed with ordinary carbon dioxide and the gaseous mixture was injected into the 360 cubic foot hermetically-sealed glass chamber. The plants "breathed" the gas and incorporated the carbon atoms—radioactive and non-radioactive alike—into the plant structure. The radioactivity interfered with the growth of the plants, and the longer the onions were maintained in the radioactive environment, the greater was the amount of interference.

Turtles Once Weighed a Ton

On the equator west of Ecuador lies the Galapagos Islands group, its name being Spanish for its giant land tortoises, now close to extinction because of men's raids. The ages of some have been estimated to approach their weight, often more than 300 pounds. Some 70 miles west of Key West, Florida, the seven Dry Tortugas islets likewise bear a Spanish name meaning turtle. When it comes to sheer size, the leatherback leads living turtle species. In 1923, a 1,286-pound leatherback eight feet long was captured off California. Later, Vancouver Island waters produced a 1,450-pound specimen. Archelon, a shell dweller of a million years ago, grew 12 feet long and weighed more than one ton. A skeleton, shell and all, is on display in Yale's Peabody Museum. The green sea turtle, favored for soup, reaches a maximum of about 800 pounds.

Helps Fido

A common but hard-to-control affliction of dogs—ear canker—is being treated successfully with bacitracin, one of the new antibiotic drugs. Dogs are easy prey to ear infections, with fleas, mites and other parasites playing an important role in starting up irritation in the ear canal. When such infections are allowed to continue for extended periods, veterinarians have found them among the most difficult to clear up. When bacitracin was applied, following preparatory treatments, it was successful in 21 of 25 cases. Bacitracin also was found to be useful in treatment of wound infections of dogs and in certain internal infections.

Some Flour Goes Bang!

What element is there in fine corn meal or flour to cause an explosion, such as may occur in a flour mill? Such an explosion is not due to the presence in the grain or flour of any particular explosive material, but it may occur with any finely divided inflammable material such as flour, coal dust or saw dust, which floats in the air as a cloud. If it is piled on the ground and you poke a lighted match into it, the match will go out because there is not enough oxygen to support the burning process. However, if the same material is floating in the air there is around each tiny grain a relatively large amount of oxygen, ample to set it burn.

—Civic Holiday next Monday, August 3rd.

MRS. A. C. COLLINS DIES IN TORONTO

Mrs. A. C. Collins, 49, was buried in Zion Cemetery, Malone, following a graveside service Thursday afternoon.

A Georgetown resident, she died in Toronto Western Hospital the previous Sunday, where she had been taken for further treatment after being a patient in Guelph General Hospital for eight weeks.

The former Violet May Wiley, she was the daughter of the late Mr. and Mrs. Arnold Wiley, born in Weyburn, Sask. She later moved with her family to Ontario and lived at Malone and Campbellford before her marriage. Mr. and Mrs. Collins had lived on Ann Street, Georgetown, for the past ten years, operating a small farm there while Mr. Collins taught public school at Cooksville and Milton Heights.

She is survived by her husband and one brother, Herbert Wiley of Weyburn. Three ministers, Rev. John M. Smith, Rev. H. Wood, Milton and Rev. Burch, Toronto, conducted the funeral service here Wednesday evening at the McClure Funeral Home. At Malone, ministers who took part in the service, where Rev. W. H. Shadbolt, Rev. J. Patterson, Rev. James Smith and Rev. Walsh.

Social and Personal

Mrs. J. S. Rankin, Guelph Street, leaves this week-end for a holiday in Orillia and Muskoka.

Danny Martin and Wayne Armann are spending two weeks at the West End Y camp at Norval.

Brothers Bill and John Doherty are holidaying this week. Bill at Belmont Lake, and John at Barrie.

Two local girls, who are vocal pupils of Thelma Capps Morrison, of Brampton, have passed their Grade 8 exams at the Conservatory. They are Glenna Doherty, who received honours, and Anna Spitzer.

Full Time Magistrate Sells Law Practice

Kenneth M. Langdon, who has practiced law here since 1930, has sold his practice to the Toronto firm of Hewson and Glancy.

Mr. Langdon is retiring from the practice of law to devote his full time to duties as a magistrate. At present he is serving in this capacity in the counties of Halton, Dufferin and Peel.

Mr. Langdon established his law practice here after graduating from Osgoode Hall. First located on Main Street where the present hydro office is, he moved about fifteen years ago to his present office in the Roxy Theatre Building.

George Hewson, who will be in charge of the local office, started his own practice here last month, with an office in the Norton Building. He plans to be here the first four days of the week for the next two months, using Mr. Langdon's present office.

A Toronto native, he graduated from the University of Toronto and Osgoode Hall after serving in Canada with the RCAF and overseas with the army. His partner, Kenneth Glancy, also a U of T and Osgoode graduate, served with the navy in the war.

Mr. Hewson will be moving to town later this year and meanwhile has rented a house in Acton. His father, G. C. V. Hewson is sales engineer for Bearmore and Co. Married to the former Joyce Fredhomme of Windsor, they have two small children, Lyn and John.

Mr. Glancy, whose work will be mainly in the firm's city office, was recently married to Doris Ferron of Kirkland Lake.

On Sunday, Mrs. S. K. Ruddell and Mrs. B. H. Wright had guests from the west, Dr. and Mrs. C. E. Howden of Salt Lake City, Utah, and Mrs. John K. ...
