**Jersey Breeders Visit Three District Herds**

Halton Jersey Breeders, under the joint leadership of presidents Mac Alexander and agricultural representative J. E. Whitlock, visited three of the top Jersey herds in Central Ontario on Wednesday of last week, those of B. H. Bull and Son; Featherstone Bros., and Maurice C. Beaty.

At the Bull estate the party was welcomed by Colonel Bartley and John Bull and conducted by them on a tour of three of their barns. On this 1000 acre estate, there are some 750 Jerseys at the present time.

The two Halton herds visited, while much smaller in numbers, impressed the members of the party with the general high average quality. Jack and Bill Featherstone are carrying some 65 or 64 head on their 100 acre farm. Of the 12 milking females classified under selective registration, they have two excellent cows; 21 Very goods and 6 Good Plus; with an average score of 88.8. We also learned that to date they have 12 daughters classified from their former herd sire Brampton Jersey Basil. Their average score is 87 and a fraction. The final call was at the 200 acre Lindale Farm, where M. C. Beaty has some 85 head. The other point of interest was a tour of the 32½ acre Ford assembly plant at Oakville. Here the members of the party followed the assembly line which is turning out 850 cars daily.

**Unless Players Turn Out Will Suspend Kid Hockey**

A poor turnout of players, coaches, referees and committee on Saturday morning at the arena drew a warning from officials that unless there is a better attendance this Saturday the Kid Hockey League will be suspended.

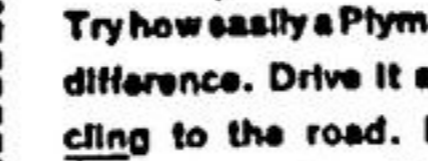

Teams who won trophies and shields last year are asked to return them to the sports committee or bring them to the arena this Saturday.

There seems to be a certain party who has taken a liking to the sweaters used on Saturday mornings, so if he will bring them back this Saturday, we will appreciate it. It is the way the committee phrases one incident.

## Speaking of Values . . . Check These **PLYMOUTH** Safety Values You'll discover a great difference from the moment you take the wheel

First, you'll discover new and wonderful visibility. You have a clear, close-in view of the road ahead over the lower Plymouth hood. Driving is safer and much more enjoyable.

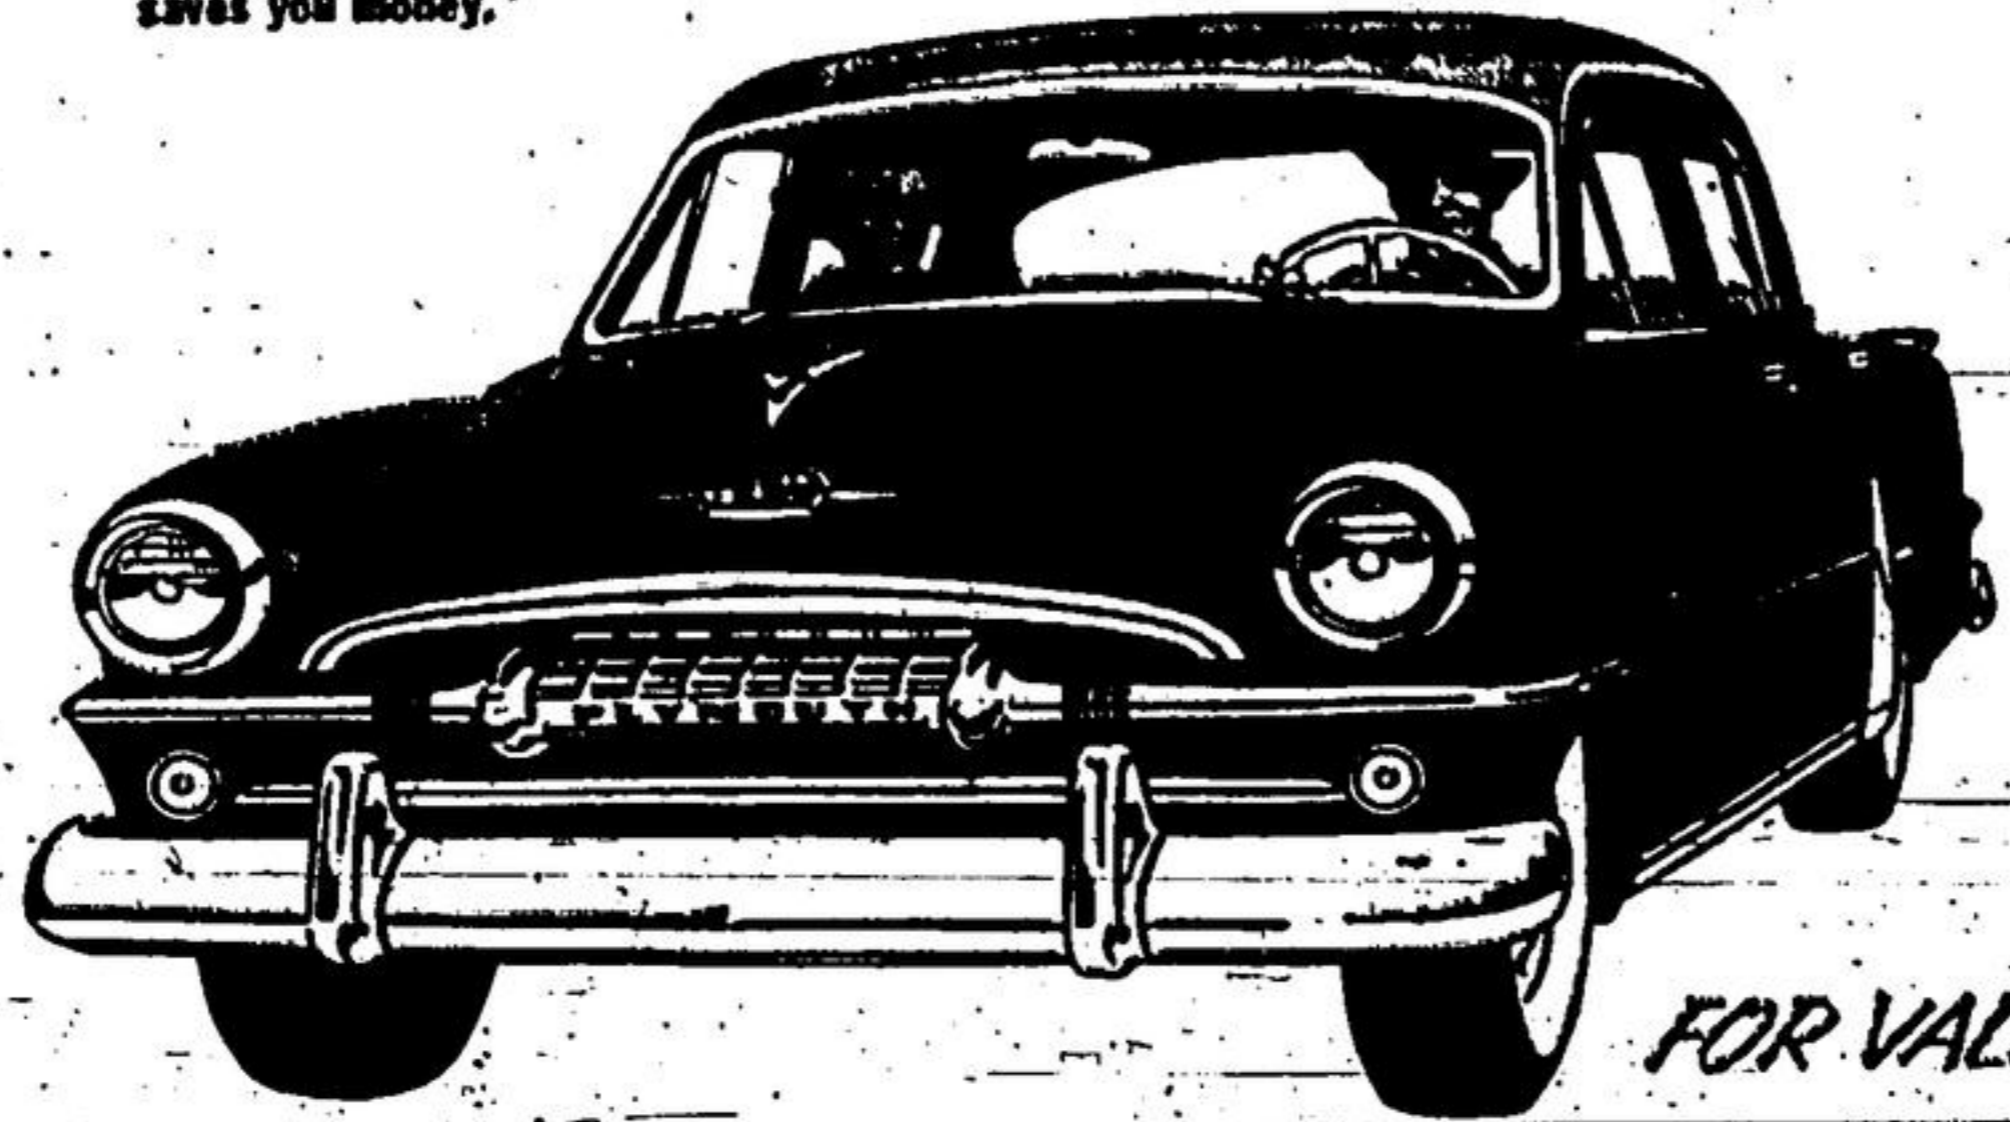

Then, the steering wheel is below eye-level. You look over the wheel—not through it. Plymouth Chair-High Seats let you sit up comfortably so you see all round. You don't get tired and cramped as in ordinary, lower seats.

The Plymouth Balanced Ride using Oriflow shock absorbers, has been widely accepted, but test the original. Feel how it eliminates pitch, roll and bounce . . . how it smooths out the roughest roads, makes pavements feel level as a table-top.

To these safety features add other Plymouth values . . . outstanding Plymouth styling . . . beautiful two-tone interiors and gem-bright baked enamel body colours . . . durable Chrysler engineering that saves you money.

You've an extra value, too, in peace of mind. Plymouth Safety Rim Wheels, exclusive with Chrysler products, afford extra protection in case of sudden tire failure, because the Safety-Rim feature holds the deflated tire on the wheel while you make a swifter, safer stop.

You have the all-time protection of constant-speed Electric Windshield Wipers—they won't slow down when you climb a hill or accelerate to pass as you've seen vacuum-operated wipers do.

You have balanced braking. Plymouth has two brake cylinders in each front wheel brake where extra braking effort is required—not just one like most other cars. Cyclebond rivetless brake linings last much longer—no rivets to score brake drums—greater surface contact area for more efficient braking effort.

If you like the extra ease of Power Steering®—remember, Plymouth's Full-Time Power Steering is on the job all the time, from the moment your engine starts.

Full-Time Power Steering is available on ALL 1964 Plymouths at reasonable cost.
