WHAT COUNCIL DID

HOSPITAL COST RISE AFFECTS LOCAL BUDGET

Hospital accounts for indigent patients will be checked even more closely in future by the town council.

Learning this week that a 50 per cent increase has been made in such charges by recent Ontario legislation, the town clerk has been instructed to investigate each case carefully, and to refuse responsibility in cases where proper action has not been taken by the hospital. A dispute is at present in process between the town and the Brampton hospital over a recent case, the town claiming they were not informed of the matter until after the patient was discharged, and that he did not enter as an indigent in the first place.

The increase, which is retroactive to the first of the year, is from \$3.00 to \$4.50 daily in the case of the Brampton hospital. Town and county share costs on a 50-50 basis.

Two Great World-Wide Organizations Unite

Massey-Harris, pioneer in the farm implement industry, pioneer in power farming equipment and world-leader in the self-propelled combine, now becomes greater than ever by the acquisition of Ferguson—pioneer in the application of hydraulics and the mounting of implements to make tractor and implement an integral unit—known universally as the Ferguson System, which has been much imitated but never duplicated. From the pooling of engineering skills, the more advantageous use of manufacturing facilities and efficiency that can be effected under a single management, the new organization of Massey-Harris-Ferguson goes forward to make a greater contribution than ever by developing new and more efficient machines to make farming easier and more profitable.
