WHO SAID...?

"ANY MAN THAT SAYS
HE'S BEEN ET BY A WOLF
IS A LIAR"

J. W. CURRAN, noted authority on Ontario's wolves and northland, claimed this backwoods classic was first uttered by Sam Martin of Algoma, about 1910.

Soil and Crop Men All-Day Bus Tour

Eighty-nine Halton farmers participated in the bus trip sponsored by Halton Soil and Crop Improvement Association on Monday of last week. Elmcroft Farms, Oshawa, consisting of some 450 acres, owned and operated by George R. McLaughlin, was the first farm visited. Ensilage of grass silage was in progress and in fact had been for a week. Approximately 100 lbs. of whole oats to the ton of grass silage was being utilized as a preservative. Mr. McLaughlin stressed the importance of ensiling the grass and legumes while they are in the immature stage. Too many folks, he said, are making hay silage rather than grass silage. As in the case of his address in mid-May at the Halton Twilight, Mr. McLaughlin again ably discussed his soil and crop programme, his pasture management and all phase of his farm program. Despite the fact that 2½ hours were spent at Elmcroft, members of the party were loath to leave this farm which has so much of interest, and whose operator displayed such a complete grasp of soils, pastures, pasture management, commercial fertilizers, crops, livestock and labour efficiency.

At Massey Harris Farms the party saw another top herd of Holsteins. A feature of interest was the proving grounds, where combines were being operated and tested for their ability to stand up while being piloted over an almost unbelievably rough terrain.

Stop at Spring Farm

The 400 acre unit being operated by J. M. Fraser, near Huttonville, was the last point of call. Mr. Fraser in discussing his farm program, stressed the importance of legumes as a medium of producing high quality dairy feed, and also as a method of maintaining and building up soil fertility. He is practicing a six year rotation — 3 years in grain or cultivated crops followed by normally 2 years in hay and one year pasture. While Mr. Fraser makes use of commercial fertilizer in his cropping programme, he questioned the economics of some of the heavy applications being made by some operators.

As in the case of Elmcroft, a visit to Jack Fraser's Spring Farm would not be complete without an inspection of this herd which includes such famous individuals as "Juliette" and her brother "Fond Hope," and many of their offspring.

Children Take Part In Flower Day Service

Annual Flower Day and Sunday School anniversary was held at St. John's United Church on Sunday. The church was beautifully decorated with flowers, placed by members of the Sunday School staff. The Sunday school superintendent, Mr. E. Forgrave, and one of the scholars, Miss Lynda Whitmee, assisted Rev. John M. Smith in conducting the service. The former led the congregation in prayer and the latter recited the scripture passages chosen from the 10th and 12th chapters of St. Mark's Gospel.

Special music was provided for the occasion by the Sunday School and Junior Choir. The combined group sang several choruses before and after the worship. These included "Living for Jesus," "We'll Sing in the Morning," "He Lives," Agnes Nelson and Peter Forgrave sang solo verses. The choir sang: "Evening Prayer," "The Lord's Prayer," "Still, Still With Thee," Marilyn Souther sang the contralto solo "Teach Me To Pray."

Rev. John M. Smith spoke to the congregation on the theme: "Flowers and Children." He stressed the fact that life need not be sordid and unbecomingly but should blossom forth in true beauty, full of love, kindness and Christian behaviour.

The Sacrament of Infant Baptism was observed and Lamey Grace Bird daughter of Mr. and Mrs. John Bird and Glenn Cameron Wright, son of Mr. and Mrs. Stanley Wright were baptized.

J. E. HOUCK RECEIVES HIGH PRICE FOR BULL

The annual sale held in connection with the national convention of the Holstein-Friesian Association of America at Grand Rapids, Michigan, brought a total of \$56,825 on 99 head for an average of \$575. Several Canadian Holsteins were amongst those sold.

J. E. Houck & Sons, Brampton, received \$2,200 for Houckholme Starfire, a nine-months old bull calf that went to Rockford, Ill. This was the second highest price for a bull, the top being \$2,500, paid by the Kentucky Artificial Breeding Association, Louisville, Kentucky, to Lakeland Farms, Clarkson, Mich., for Lakeland Fober Baron, whose dam is an 1140 lb. cow bred by Harvey Nigh, Springfield, Ontario.

Since 1941 the value of gold has dropped in Canada from \$300 million to \$125 million.

LEAVING SCHOOL?

Let's look into
YOUR FUTURE

Maybe the Canadian Army Active Force isn't for you... but why not find out? There are dozens of opportunities for you if you're young, healthy and eager to learn. Here's only part of the story...

If you're 16, and have a Grade VIII, or better, education, how about the Canadian Army's Apprentice Plan? You'll receive thorough trades training in one of 16 trades and skilled instruction in physics, chemistry, algebra, English and other subjects. In addition you'll receive the general training of the Canadian soldier. This is combined with sports, other entertainment and generous holidays.

If you're 17, or over, you can enlist as a fully-fledged soldier in the Canadian Army Active Force! Here you can either take up a specific trade or follow the general training for service in a number of Army branches.

If you are from 16 to 21, have a senior matriculation or equivalent, and meet officer selection standards, you may now get a free college education while qual-

ifying for the Queen's Commission. You will receive service pay plus board and lodging, and tuition costs at college. Upon graduation you will be commissioned as a Regular Force Officer with the option of release after three years.

Isn't it worth an hour of your time to find out all about the particular career opportunity available for you? There's no obligation and it's easy to do something about it.

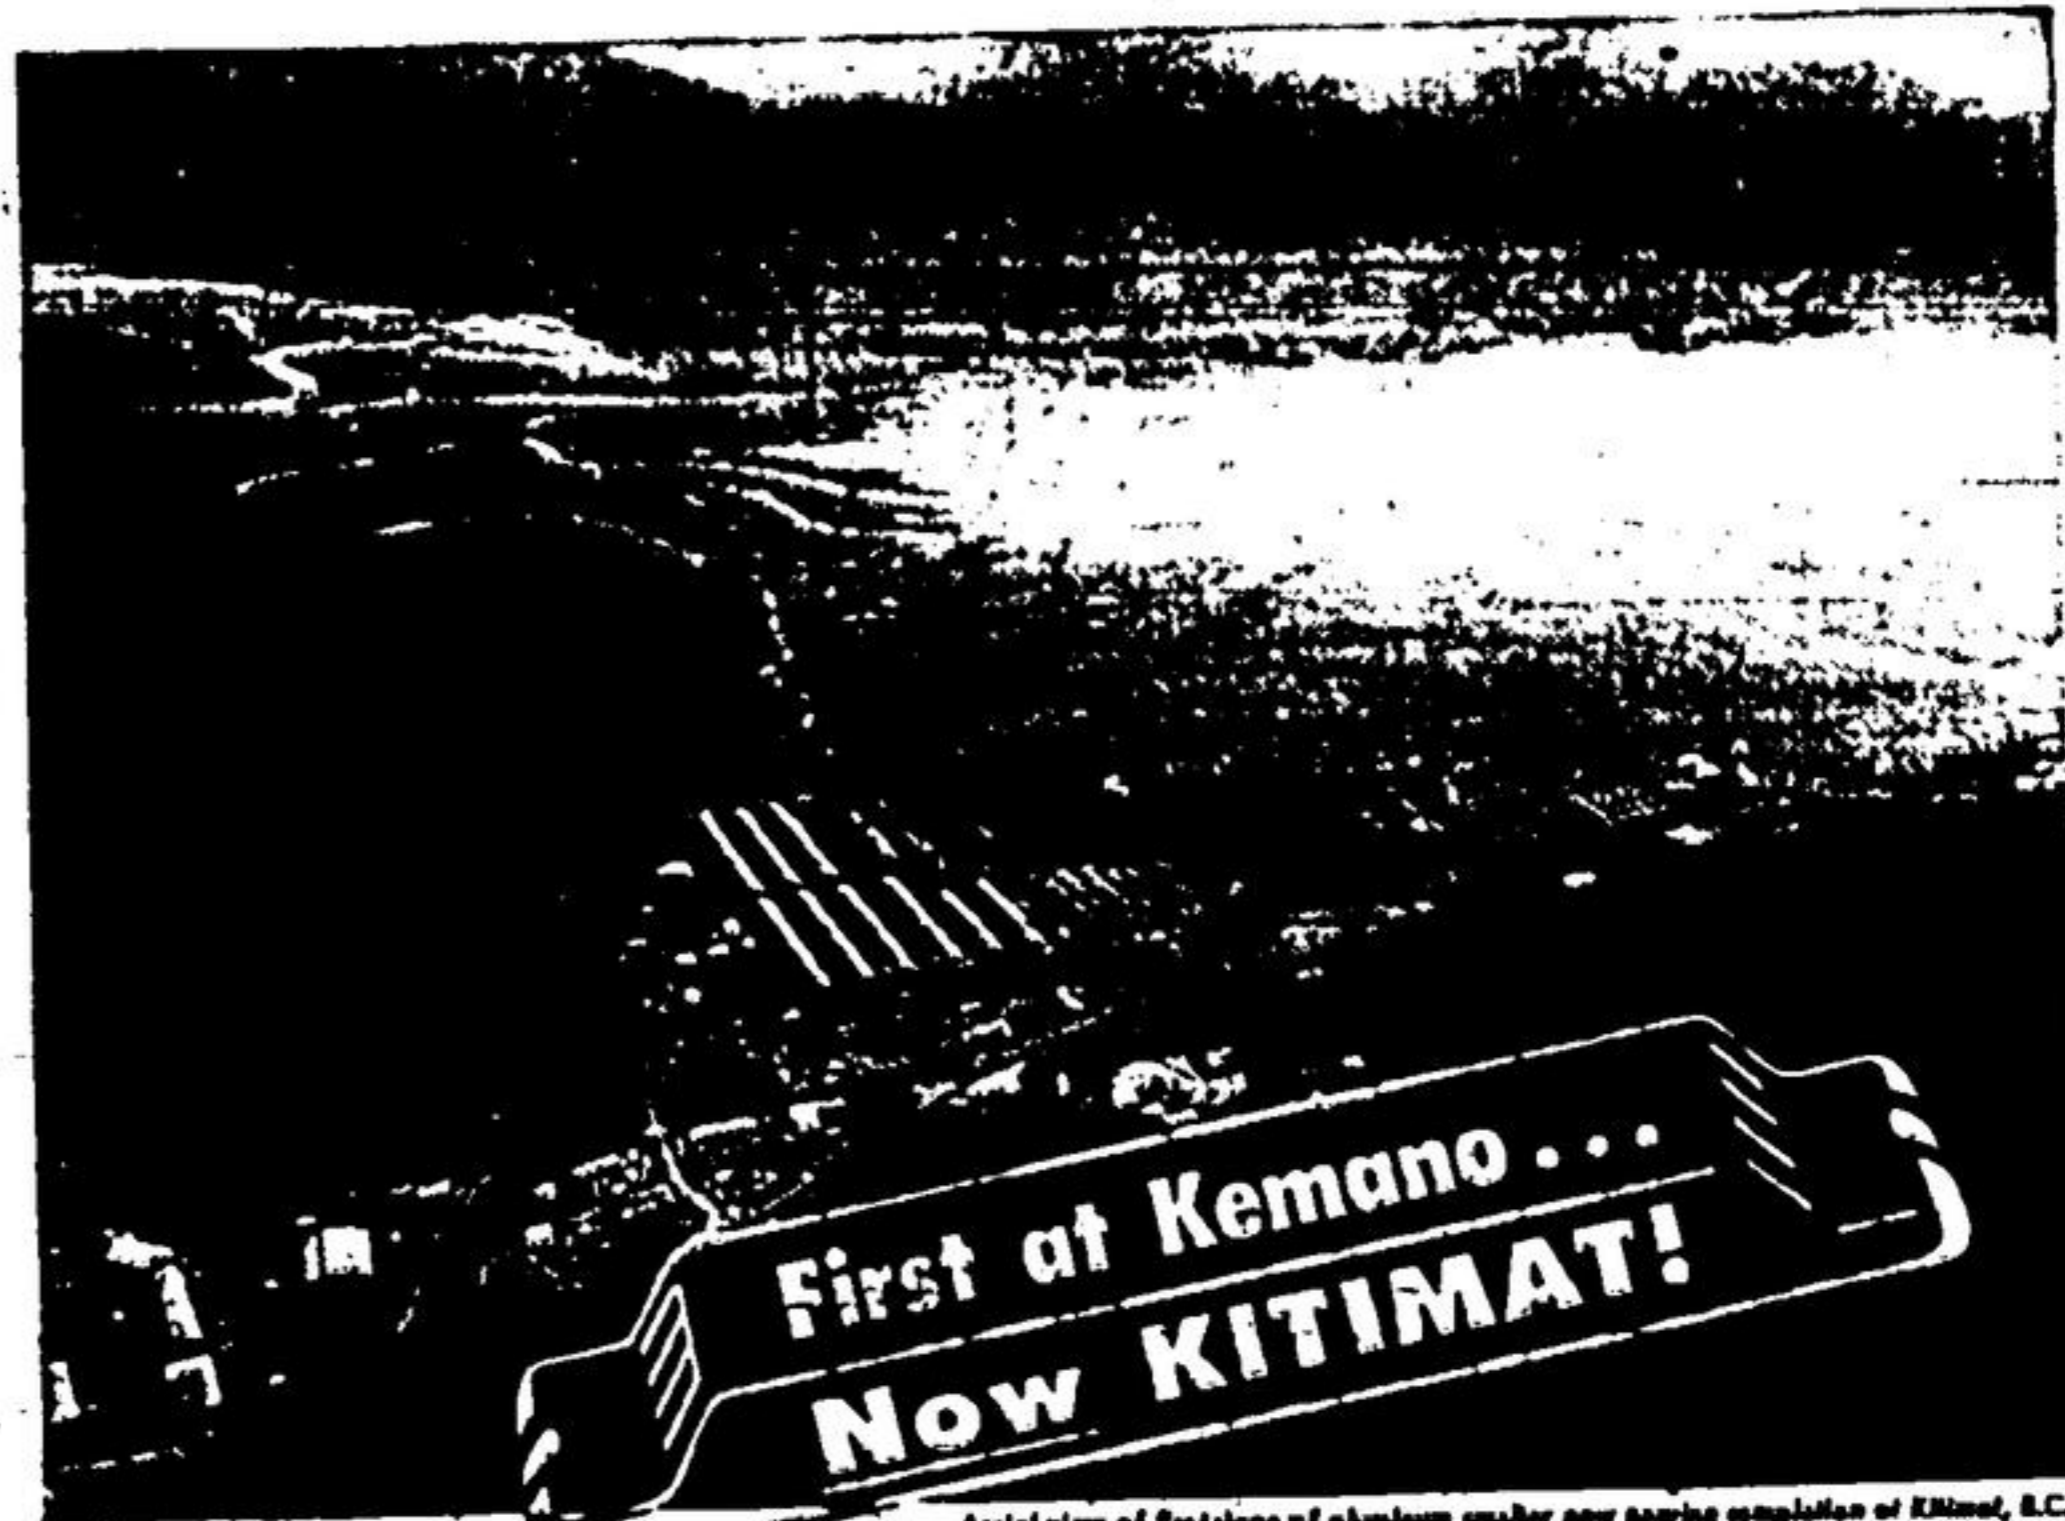

Our information officer will see you at your home or at your nearest recruiting office. Just phone, write, or drop in. Now it's up to you.

First at Kemano...
Now KITIMAT!

AGAIN the Royal heads north to new industrial frontiers

For over two years the Royal Bank has provided on-the-spot service for the men tunnelling and bulldozing, building dams and transmission lines for the gigantic "Alcan" project on B.C.'s rugged coast. At Kemano, 400 miles north of Vancouver, and at work sites back of the coastal mountains, the Royal Bank has had its branches almost from the beginning.

Now, as the smelter and port are readied for operation, and the new "Aluminum City" of Kitimat emerges from the wilderness, the Royal Bank's Kitimat branch opens for business. So another page turns in the story of Canada's northward expansion, and in the pioneering record of The Royal Bank of Canada.

Elsewhere, too, the Royal has moved forward to new frontiers. Already two branches are operating in Alberta's important new Pembina oil field. And at Port Radium, on the fringe of the Arctic Circle, we maintain the "farthest north" branch bank in Canada.
