

A SERIES OF VIEWS of the Canadian Pacific Railway's new scenic dome lounge cars which will form part of the 15 new streamlined stainless steel trains now on order to replace existing equipment on the transcontinental runs between Montreal and Toronto and Vancouver, is shown above. Eighteen cars of this type, now being displayed in a transcontinental tour of Canada, are included in the CPR's \$40,000,000 order for 173 new cars, which will be put into service on existing trains as they are received from the builders, the Budd Company of Philadelphia during the next year. The first of the new scenic dome cars is shown in the centre above, while top photo gives an idea of how Canada's exhilarating scenery will be viewed by Canadian Pacific travellers of the future. Bottom left is a photo of the car's exciting mural lounge, with mural decoration an original oil painting executed by a leading Canadian artist in background. Bottom right is scene in car's lounge, showing curving stairway up to scenic dome.
