Hardman Named Top Cadet at Banff Summer Camp

Probably the happiest young man in Georgetown these days is high schooler Bill Hardman. Friday night he returned from the national cadet camp at Banff with the coveted award of "Best Cadet." When you realize that Bill was tops of over 250 cadets specially selected to attend the camp from all parts of Canada, it's no wonder he is proud. And as another highlight of his summer training, he has memories of participating in the honour guard for the Duke of Edinburgh at the British Empire Games in Vancouver.

Bill, whose father served overseas in World War 2 and brother Bud is at present in Germany with Canadian NATO troops, was commanding officer of the high school corps last year. Last summer he was at camp at Iqerwah and got a shield as No. 2 cadet.

Although he was not fortunate enough to personally meet the Duke in Vancouver, his position as 2 i.c. of the honour guard put him in a spot where the Duke passed close by and he had a good look at this famous personage.

13th Lucky, Otherwise For Two Local Ladies

Two Georgetown ladies have opposite views on the old superstition about Friday the 13th.

Mrs. Thomas Parry believes in the jinx which tradition says hangs over such days and we must agree she has good reason, for it was a sad day when the Star puzzle man called and she could not supply the \$200 answer.

Mrs. Phil Pridham, River Drive, has a contrary opinion and a \$200 cheque to prove it.

Both ladies' stories parallel up to a point for both had been following the daily puzzles faithfully and had worked out every one but this. When Mrs. Parry was called she was given two minutes to find her Wednesday paper and solve it, but she was doubly unfortunate for she couldn't even find the paper. Mrs. Pridham, who also did not have the puzzle solved, had better luck, and in her two minutes succeeded in coming up with the correct answer. The Pridhams are building a new house and the found money will be extra welcome in their household.

Fred forgot one thing...

He forgot that a bit of wood preservative, applied at little cost when the fence was put in, would have saved him the cost of new posts now.

In the telephone business, as around your own home, we find it's better to do the job right in the first place and then look after it. It's the best way we know to avoid heavy repair and replacement costs, to save expense and give you most service for your money.

That's why we treat telephone poles against rot; why we keep our trucks clean and in good repair; why we put up exchanges and offices to last.

It's common sense if we are to keep our costs down—and the price of your telephone service low.

If you would like to get useful information on the preservation of wood we suggest you write Forest Products Laboratory of Canada, Department of Northern Affairs and National Resources, Ottawa.
