"I saved money on my life insurance because I bought a Mutual Life policy ...

"When I took out most of my life insurance, my first thought was 'How big a premium will I have to pay?' Then a representative of The Mutual Life of Canada said: The real cost of life insurance is the premiums less the amount you'd receive in dividends.

"He showed me the outstanding dividend record of The Mutual Life of Canada. That convinced me.

"Over the years, I'm already several hundred dollars to the good because 'I took out a Mutual Life policy."
