

High School Board Plans Additions to Schools in Three Towns

North Halton High School District Board has given approval to the architect's sketches for additional rooms at the three schools. The plan for Milton is two rooms with corridors built at south end of the school. At Acton the additional two rooms will be an extension at the east section. Heating and plumbing provision in the present building will need only to be extended. A corridor with storage room on one side will be part of the classroom extension. At Georgetown the proposal is for two classrooms at the east of and adjoining the older section of the building. The action was covered in the following resolution: "That this Board approve of the plans submitted for additions to the three schools of the North Halton High School District at Acton, Milton and Georgetown and that a delegation confer with the Department of Education on this required building immediately and that the delegation to the Department be composed of the Building Committee, the secretary-treasurer and the architect."

Need Immediate Start

It was pointed out that action on the building program must be started at once to have the accommodation ready for next term. The statistics on public school enrolment indicate a steady rise in High School attendances requiring these additions.

Eight applications were received for the position of caretaker at Georgetown School and A. Homan was engaged at a salary of \$2500 per year.

Messrs. Robertson and Moffat were a delegation to request the Board to give shop work training to 38 public school pupils of Nasagaweya township. The teacher doing this work has resigned and

shop work has to be dropped unless some arrangement could be made. Transportation would be arranged by the Nasagaweya Board to the Acton and Milton schools.

Order More Desks

The Board agreed to confer with the principals of the two schools to see if these pupils could be accommodated in the teaching schedule.

Three additional science desks were ordered for the Georgetown school. The necessary plumbing and wiring had been provided for these units in the new building.
