**Milk Producers Choose
Walter Royle President**

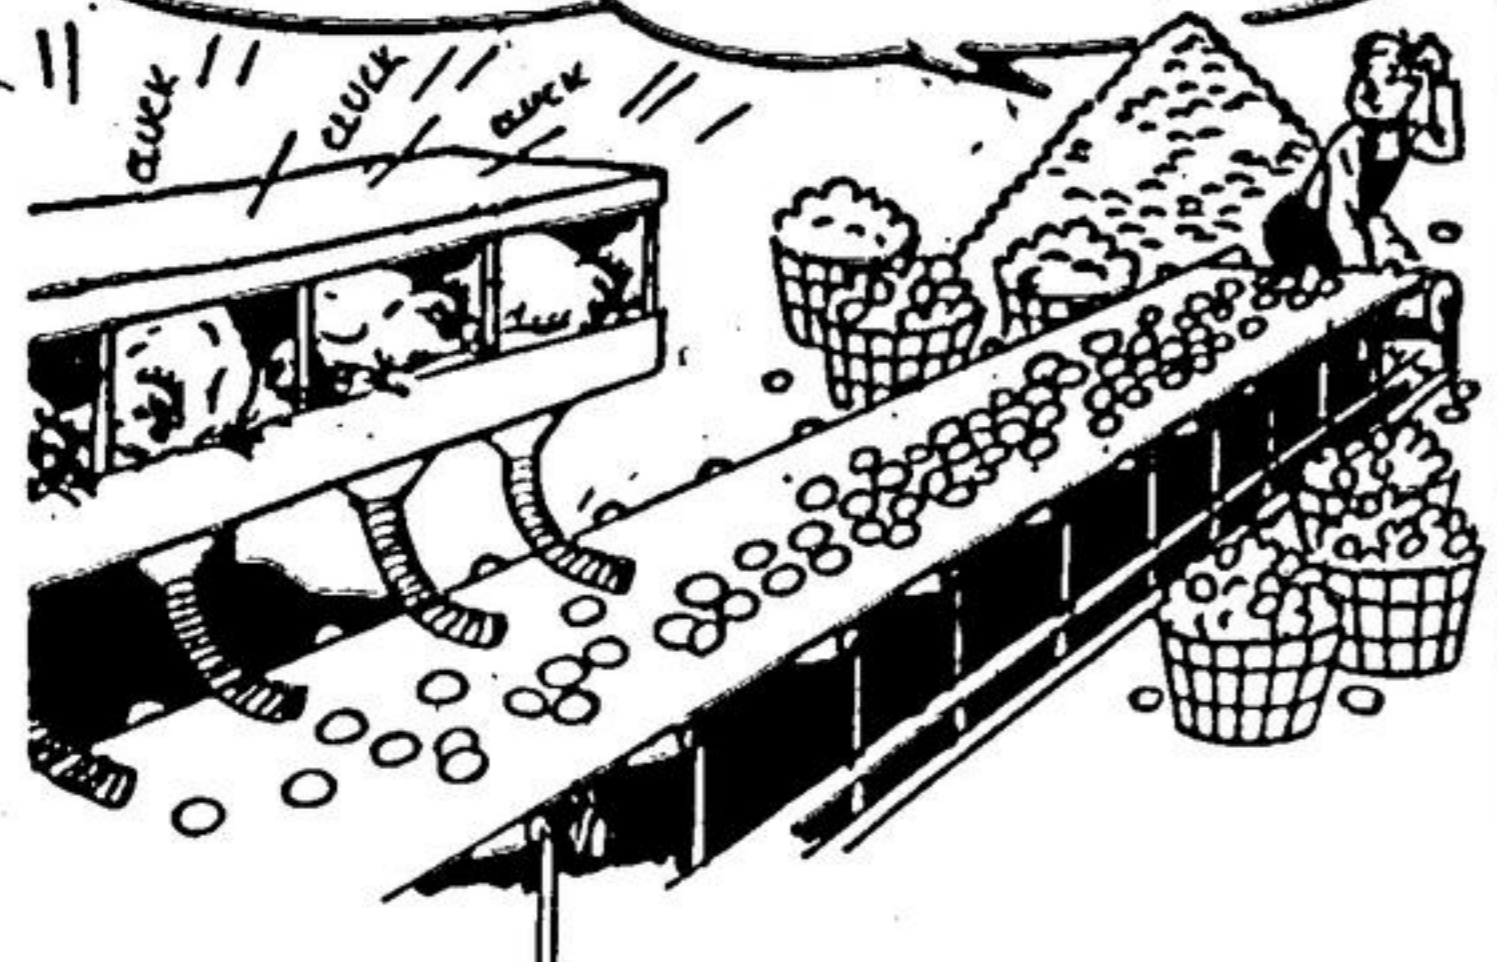

"Don't worry about the surplus of butter — we need a surplus from summer production to carry us over the winter months," Wm. Holles, the president of the Toronto Milk Producers' Association, reported Hon. James Gardiner, Federal Minister of Agriculture, as stating at a recent dairymen's meeting. According to president Holles, Hon. Mr. Gardiner also reminded the meeting in question, that it was only two years ago that Canada found it necessary to import butter. In dealing with bulk haulage Mr. Holles stated "Don't go into it any sooner than you have to — you will get better equipment." It was also reported by Mr. Holles that eighty different markets in Ontario have now adopted formula pricing — in other words, the various factors which determine the price today, ties us in with the economy of the country.

Others who spoke briefly at this most interesting meeting held in the Stewarttown Hall on Friday, included Harold Schmidt, of Baden, director of the new surplus milk plan and Roy Randall, the general manager of the plant. President Holles congratulated the officers and directors of district number twelve, which includes Halton, east Wentworth, and South Wellington, on their active and progressive programme.

Agricultural Representative J. E. Whitlock conducted the election of the new directors for 1955, and this resulted as follows:
