

14-MAN PUBLIC RELATIONS BODY

A 14-man committee has been established to constitute an advisory board on publicity and public relations for the Credit Valley Conservation Authority.

The committee was formally set up at the third meeting of the Conservation Authority held recently in the municipal hall, Caledon Township.

Members of the newly organized body include W. M. Robinson, Brampton; Cliff Bowers, editor Peel Gazette; E. L. Homewood, editor the Post Credit Valley; A. M. McKittick, editor Orangeville Banner; A. S. Mendell, publisher the Streetsville Review; Walter Biehn, publisher Georgetown Herald; W. Breckenridge, publisher Oakville Record Star; E. R. Underhill, public school inspector North Peel; A. Martin, public school inspector South Peel; W. L. Lovell, T. L. Skuce, Halton school inspector; W. R. McVittie and W. Leslie.

Conservation Authority May Control Huttonville Dam

The Credit Valley Conservation Authority may take over control of the Huttonville dam.

A petition requesting this action was presented by George Hicks, a resident of the community in which the dam is situated, on behalf of the ratepayers of the area when the authority held its third meeting at Caledon Township Municipal Hall.

Mr. Hicks pointed out that the owner did not require the dam, which was in good condition, and being liable should any damage result for which he might be held responsible, he might well be expected to remove it unless the authority indicated its interest and accepted some responsibility.

Authority chairman D. J. Reddington stated that in his opinion the request could not be granted at this time owing to lack of funds. Mr. Hicks then noted that the owner was not requesting immediate payment. He stated that the owner could be expected to remove the dam unless he were relieved of liability before the spring floods.

Alex McKinney, deputy reeve of Chinguacousy, advised that the Chinguacousy Township council would support action at Huttonville, and expressed concern that delay on the part of the authority might result in the dam's destruction which would result in a considerable loss if it were later replaced at higher construction costs.

H. E. Crown of the Ontario Department of Planning and Development advised that the department could make a study and report on possible developments.

A report of his inspection of the lower portion of the river concerned to the southerly border of Caledon Township after the hurricane had earlier been submitted by Mr. Reddington and this, together with his recommendations and the petitions as submitted, were tabled.

SWITCH

In hospital, an ailing author drew a ravishing beauty for a nurse according to his own chart. "The nurse first held my pulse, then she advanced my pulse, finally she repulsed my advance."

FARM NEWS

Two Halton Jerseys Are Superior Sires

In the list of Superior Sires released by the Canadian Jersey Cattle Club and published in the December issue of the Canadian Jersey Breeder, is Lindale Aina Lad Bred by M. C. Beatty, he was originally sold to Frank Dewhurst, Milton. When Frank dispersed his herd, Aina Lad was purchased by Ken Ella & Sons of Hordby. It was in this latter herd that he did such a tremendous job. Of the 105 Jersey bulls in Canada which have reached the "champion circle", Lindale Aina Lad's daughters in the Ella herd, have the highest average milk production of them all. His ten daughters, have an average production of 10,880 lbs. of milk and 343 lbs. of fat. Six of them have won silver medals as two year olds.

Rock-Ella Sporting Diaper, the Canadian champion two year old in 1953 has both silver and gold medals to her credit — having produced some 630 odd lbs. of butter fat. That the daughters of Aina Lad have type as well as production ability is borne out by the fact that his eleven daughters in the Ella herd under herd classification have an average score of 85.25 per cent. The Ella herd, a comparatively small herd, is one of the four Halton herds which impressed the overseas members attending the World Jersey Bureau at Guelph last July while on their visit to Halton.

Avonlea Also

In addition to the Lindale herd of M. C. Beatty, the Avonlea herd of Featherstone Bros. also has the distinction for having bred a Superior Sire. In the latter case it is Avonlea Zana's Prince, a son of that great old champion producer Fairy Raleigh Zana. Zana's Prince purchased by F. Leitch of Wheatley Ont. has fourteen daughters with an average production of 8,582 lbs. of milk and 506 lbs. of fat. Other Superior Sires which achieved this distinction while being used in this county are Brampton Basil Ward in M. C. Beatty's Lindale Herd,

Rev. Morgan McFarlane Prayer Week Speaker

The Week of Prayer was observed by four Georgetown Protestant churches with a service Wednesday evening in Knox Presbyterian Church. Members of First Baptist, St. George's Anglican and St. John's United joined with the Knox congregation for the service, which was conducted by Rev. Alex Calder.

Rev. Morgan McFarlane of St. John's used verses 7 and 8 of Matthew 7 as his sermon theme on Prayer.

The disciples, he said, had experience with prayer but in the presence of Christ, they asked "Lord, teach us to pray."

Today there is a need for people to know the value of true prayer, he continued. Some people pray seldom, some have tried and fumbled, and others know from experience that prayer works.

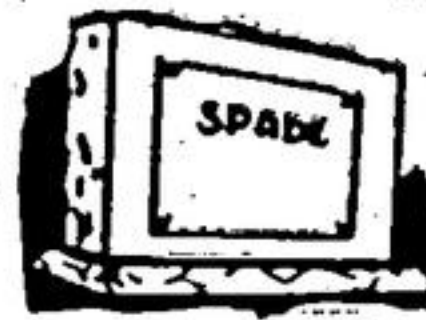

To value prayer in its true light one must have a sense of need, a recognition of God and a willingness to do his will.

The Knox church choir led the musical part of the service, and Anna Spitzer was soloist.

where 37 daughters produced an average of 8,614 lbs. of milk and 501 lbs. of fat — 36 of these daughters have a classification average rating of 86.53 per cent; then down at Avonlea, Brampton Jersey Basil achieved fame by siring sixteen daughters with an average production of 8,911 lbs. of milk and 400 lbs. of fat and we further note that under classification 33 of them have an average score of 85.08 per cent. Last but by no means least, up at Graham Farm, owned and operated by Gerald H. Graham, no less than two great sires achieved their Superior rating on their showing at Graham farm. First was that outstanding sire, Brampton Favorite Royal, whose 18 daughters had an average production of 10,165 lbs. of milk and 500 lbs. fat. Under herd classification eleven of his daughters had an average rating of 85.68 per cent. Then came Brampton Pinn B Aim whose 18 daughters have an average production of 8,706 lbs. of milk and 404 lbs. of fat. Is it any wonder the visiting Jersey breeders were enthused by what they saw when they visited these four Halton homesteads last summer.

The Memorial Ideal

A monument built of enduring granite, or marble, symbolic in design and reverent in purpose, resting in surroundings of peace and beauty, a tribute of respect and honour to the dead, a constant source of inspiration to the living.

This is THE MARK OF A NEW AGE!

That big, bold Sweep-Sight Windshield — curving back to vertical corner posts — is easy-to-see evidence that Chevrolet has cast aside the tradition of the past to start a whole new age of low-cost motoring. It's smarter to look at — safer to look out of — and it's only part of Chevrolet's new outlook for '55!

Yes, Chevrolet brings you a whole new outlook in low-cost motoring for 1955! It's best symbolized, we think, by the sweeping expanse of windshield that widens your view of the road and lets you "see through" the corners for greater safety.

The car with the new idea! Besides widening your view of the road, the Motoramic Chevrolet broadens the whole horizon of the low-priced car. It was built around the idea that a car doesn't have to be high-priced to look, ride and

perform like it. A lot of time and sweat went into the building. A lot of old traditions went out the window because they didn't measure up to this daring new concept. Trust Chevrolet to have the resources and the skill — yes, and the courage — to break so completely with the past.

Everything's new in Chevrolet! Everything — from its tubless tires to its lower top. There's new beauty with that long, low "let's go" look! New fun underfoot with the new "Turbo-Fire" V8 and the new "Blue-Flame" six! A new

choice of drives — new Overdrive, Super-Smooth Powerglide (extra-cost options), and new standard transmission! A wonderful new ride! New High-Level ventilation! But we can't even begin to give you the whole story here.

Look who's stealing whose thunder!

Chevrolet's stealing the thunder from the high-priced cars in more ways than one! Come in, drive it, and you'll see why the Motoramic Chevrolet starts a new and exciting age of low-cost motoring. This you're going to love!

MORE THAN A NEW CAR...
A WHOLE NEW CONCEPT OF
LOW-COST MOTORING!

Everything's new in the
