

**NEW HOME GROUP
SELL FOR \$9,190**

Port Credit realtor R. W. Butt and Harold Fobert, his Georgetown representative, who has handled sale of the Cloverdale Heights homes, are particularly proud of a new group of homes which they claim to be the most reasonable yet offered under National Housing.

An initial group of eight homes which will be built at Cloverdale by Glatt Construction, were sold last week within days after they were advertised. Now the firm is negotiating for another tract of land in town and is planning another similar building project this spring.

The 3-bedroom brick bungalows, priced at \$9,190 are offered for a down payment of \$1,103.44. They are designed for men whose salary approximates \$3,225 a year. Monthly payments are \$49 plus one-twelfth of the annual taxes.

**Goldham Brings Wings
For Kid Hockey Night**

The Legion-sponsored Little NHL is running in high gear these days, with the season well on its way, and the competition becoming keener each Saturday morning. The big night to the kid hockeyists will come on Friday, February 25th, when the rink will be taken over for an evening by the kids. It is hoped that that evening parents will see fit to flock to the arena to see the boys in action.

This, to those in charge, is the only draw in the whole hockey program, in that the support of the fans on Saturday mornings has been at most nil. The hockey committee that are responsible for the entire programme, hope this Friday, February 25th will be fought with the arena packed to capacity. As a further inducement for parents to come and see their children play (not that any should be needed) Bob Goldham has promised to be on hand, along with four or five other Detroit Red Wing hockey stars. The merchants of the town, too, have contributed a number of valuable prizes for the night.

Next Saturday's schedule is as follows:

American League
Buffalo vs. Pittsburgh
Hershey vs. Providence
Junior A
Marlboros vs. Kitchener
Galt vs. Guelph
N.H.L.
Canadiens vs. Chicago
Rangers vs. Leafs
Games start at 7:45 and this also includes referees and coaches as well.

All players or parents requesting insurance for Saturday morning hockey contact Herb Arnold. Insurance fee \$1.00 per year.

Tickets for the lucky draw on Friday, February 25th should be turned in next Saturday morning.

**Garment Colour Loss
Traced to "Cold Waves"**

The National Institute of Drycleaning reports according to a press release received by Barrager Cleaners, that there is an increase in the number of garments showing a loss of color around the neck and upper shoulders. They are coming into their Garment Analysis Department to be analyzed for the cause of damage. Over 220 garments so damaged have been received during the last two months. It is difficult to estimate how many thousands of garments that never reach the Institute Laboratories have shown this type of damage.

The chief analyst states that the increase of this type of stain results from women taking their garments out of storage. The colour loss has been analyzed as the old familiar problem of loss of color from permanent cold wave solutions. Research at the Institute has shown that many cold wave solutions when spilled on a fabric do not result in immediate color change. In some cases it takes three or four weeks; in other cases, three or four months after cleaning before a color change develops. It becomes apparent when garments are taken out of storage.

All cold wave solutions are similar in the type of chemical used. The waving solution contains salts of thioglycolic acid; the neutralizing solutions, an oxidizing agent. Both of these solutions will damage or change color of many dyes.

All permanent cold wave solutions may not show the same effect on the same fabric. Exactly the opposite might be found in another fabric. With some solutions on some fabrics, the colour loss develops after finishing a garment. This may even occur in home pressing. Some solutions do not cause immediate loss of color — it takes time to develop a stain. Still other solutions cause only a stain on the fabric, rather than a color change.

In the first quarter of 1954, 451 Canadians met death and 10,508 also were injured on the highways.

—Latest official figures show that in 1951 motor vehicle accidents caused nine deaths per 10,000 vehicles registered in Canada.

**Friday Club Midtown
Popular with "Teenagers"**

by George English

What is Club Midtown? No one seemed to know, so we investigated. We now present an unbiased report on our findings.

Club Midtown is an organization formed to provide Friday night entertainment exclusively for "Teen-Agers." It is the brain-child of three public spirited young men, namely, Al Darby, Ken Gregory and Bill Hardman, president, secretary and treasurer respectively. The Club, though financially independent, is sponsored by Cotton Bros, who have kindly donated prizes, records and advertising for the dances.

Membership of C.M. is easily obtained; if you are 13 to 19 years of age and a human being with \$2.00 in your pocket, you can obtain a card which entitles you to attend the dances for the ridiculous price of only 10 cents. (We knew somebody would find a use for a dime other than as a screw driver.) For the habitually hungry, soft drinks and chocolate bars are sold at the dances at prevailing prices.

There is the basis of Club Midtown. To date, there have been two dances held in the Oddfellows' Hall. There will be no dance this Friday night, because there is one at the High School. Any conflict would cause both dances to suffer, so C.M. graciously ceded the evening to GHS. For further info regarding the next dance date, stay tuned to this paper.

Future plans for C.M. include such outdoor activities as hay rides, tobogganing parties, etc. Negotiations are also tentative with Brampton Teen Town on the idea of playing host to one another each month.

There, in a nutshell, is Club Midtown, past, present and prospective future. We say prospective, because the future naturally depends upon attendance and upon the support given to the officers. Criticism, suggestions and advice regarding the organization as a whole, or in any part, including this column will be welcomed by your humble author and passed along to the powers that be.

We hope that, with this report, we have answered any questions that arose with the inauguration of Club Midtown. If not, there is little that can be done as our special investigating committee has just left the country to escape the threat of being investigated by the Better Monkey Business Bureau.

**Fiberglas Optimistic
About 1955 Prospects**

While the past year has presented a constant challenge in sales we feel we can be satisfied with the outcome and with the prospects for 1955. A. J. Fisher, general manager of Fiberglas Canada Limited, told branch managers and sales personnel at a national sales conference held at the Guild Inn, Scarborough, February 3, 4 and 5.

Optimism, he stated, has been shown through major additions to plants to keep pace with sales and wider product groups within the Fiberglas organization. As an example, he cited the recent addition of 70,000 square feet at the Sarnia operation. New machines have been set up at the Guelph plant for vinyl coating. Fiberglas yarns for the production of window screening and other equipment has been added to make Fiberglas mat for reinforcing plastic sheet.

He said plans are being formulated for increasing end uses of Fiberglas and extending promotions to include these new products.

New gold production available for export from Canada in 1953 totalled \$144,000,000.

**Replace Layette Supplies
Sent During Hurricane**

The regular meeting of the Georgetown Women's Institute was held at the home of Mrs. R. T. Paul, February 2nd. The meeting opened with the ode and prayer and was followed by the roll call which was answered with a humorous story.

The ACWW conference will be held in Ceylon in December, 1956 and money was requested to help furnish four villages with modern equipment in the homes. \$42.00 was realized from the copper contest and the losing side will entertain the winners with a euchre party at Fairview Inn. The usual \$5.00 was voted to the High School for books to be given as prizes at the commencement. A report was given on euchre parties held in the homes, from which \$46.00 was made. The conveners then gave reports — Mrs. Fred Armstrong on home economics Mrs. Herb Cleave on agriculture and Canadian industry and Mrs. B. M. Bell on Helping Hand. A generous shower was also given for the layette to replace the supplies that were donated at the time of Hurricane Hazel.

As it was the birthday of one of the members, Happy Birthday was sung and then lunch was served.

FARM NEWS

WATSON TO SPEAK AT SEED FAIR SHOW

W. P. Watson, Ontario's livestock commissioner, is to be the special speaker at Halton's annual Seed Fair and Bacon Show, in Milton. Halton farmers in common with farmers generally from one end of the province to the other, annually look forward to the opportunity of hearing "Bill" Watson prognosticate on the "Farm Outlook." Another highlight of the special afternoon programme will be an "A" and "C" carcass. Assurance on this point has been received from W. S. McMullen, of the Federal Live Stock Branch, whose staff will cooperate with the competitive bacon show.
