

**AY ESQUEJING COUNCIL  
TOWNSHIP WILL BUY  
NEW 3-TON TRUCK**

At last week's meeting of Esquejing Township council, the road superintendent was instructed to advertise for tenders for a new 3-ton truck suitable for use on township roads.

Recognition of Acton Junior Farmers as county hockey champions was made in the form of a \$150.00 grant. The motion by Councillor Campbell Sinclair and Deputy Reeve Walter Lanham did not meet with unanimous support and a recorded vote was demanded. Voting for the motion was Reeve Wilfrid Bird, white councillors Spencer Wilson and George Currie were opposed.

A \$20 claim was paid to Roy Johnston for a ewe destroyed by dogs, with a \$4 valuator fee to Duncan Waldie.

The township pays claims of \$3 for each fox destroyed, and payments of \$9 to Fred Wilds, Acton, and \$9 to Cliff Davison, Glen Williams were passed.

Esquejing's 50 per cent share of hospital accounts for the first quarter of the year amounted to \$242 and this has been paid to the county treasurer.

Application has been made to the Ontario Municipal Board for permission to borrow \$20,000 by law for erection of the new school at Milton Heights to replace one destroyed by fire last year.

H. A. Lever, C.A., who audits the township books attended the meeting and presented his report for 1954.

**Young People Unite For  
Church Service, Breakfast**

Easter services were largely attended at First Baptist Church on Sunday commencing with a sunrise service at seven o'clock sponsored by the Young People's Unions of St. John's United, Knox Presbyterian and First Baptist churches.

The regular morning worship was conducted by Rev. A. J. Barker when he selected for his sermon title "He Is Risen." There is a hankering in the human soul for a life which extends beyond the physical life, he said, evidence for which is to be seen amongst the most primitive people and great philosophers.

God has fed this native longing of the human heart in speaking to us through nature in the unfulfilled aspirations of our hearts, unfulfilled tasks, uncompleted righteousness and of the very nature of love. Jesus came to bring the gift of life itself, not to stretch out the unsatisfactory lives which we now live forever and forever. The gift of God is life everlasting. Jesus came to life and immortality to life through the gospel. He not only showed us the resurrection — he has given us the power to live the life that is of the quality of heaven itself, and which has consummation after the death of the physical body in heaven itself.

The choir anthems were "Easter Alleluia," "The Head That Once was Crowned," and "Easter Morning." In the evening a choral service entitled "I am Risen" was presented by the choir under Mrs. W. Townsend's direction, depicting the Easter message in picture, word and song. Those taking solo parts were Arlene Reeve, Mesdames J. Hancock, R. Buttrey, M. Thompson, L. Thompson, F. Blair and Rev. A. J. Barker. Messrs. W. Winfield, D. Peck, D. Cole and H. Campbell. Mr. Ivor Williams was the narrator and Terry Harley the projectionist.

**FARM NEWS**  
**Speaker Claims Many Dairy Farms Overstocked**  
J. E. W.  
"Is it cheaper to purchase rather than raise the necessary replacement heifers for the average dairy herd?" was one of the many questions asked of the panel members at the annual meeting of Halton's three Dairy Herd Improvement Associations which was held in Milton, on Monday, March 28th.  
Despite the heavy roads and blocked lanes a goodly number were out for the morning session to hear Cliff Morrow, dairy specialist of the Ontario Livestock Branch. Mr. Morrow dealt with the subject "DIIIA Records as a Basis for Proving Herd Sires." Certainly the research programme being conducted at the Ontario Agricultural College on this subject is bringing to light a tremendous amount of valuable information, regarding the relative ability of herd sires of the Holstein breed, to transmit type and production.  
To get back to the question of whether it is cheaper to purchase or raise the necessary replacement heifers in the average commercial dairy herd, John Clark of the Farm Economics Branch, Toronto, admitted that their studies revealed that it costs as much or more to raise a heifer to milking age than such heifers can be purchased for at the present time.  
On the other hand, it was the consensus of opinion, that keeping in

mind the disease problem and also herd improvement, that it is sound business to raise heifer calves from the better cows in one's herd.  
**Not Economically Sound**  
Prior to the embargo a few years ago as a result of the outbreak of Foot and Mouth Disease, Canada enjoyed an almost unlimited market in the US for surplus dairy heifers and cows. Due to the high dairy cattle population in the US, the demand for Canadian commercial dairy cattle for export has been drastically curtailed since the embargo was lifted. As a result, a large percentage of our Ontario dairy barns are filled to capacity. Certainly on the majority of our Halton dairy farms there are far more young cattle coming along than are required for replacement purposes.  
It was Mr. Morrow's opinion, that if we are to improve our dairy cattle we should restrict or curtail the raising of heifer calves to those which in DIIIA receive gold and red seal certificates. With this contention, we heartily agree. In the years when we had an almost unlimited export market for commercial grades and pure-breeds it was, perhaps, economically sound to raise practically every heifer calf. Today that isn't true and if we are to raise the average production of our DIIIA herds from 8150 lbs. of milk and 294 lbs. B.F. which was the average figure for the year ending April 30th, 1954, then surely it would be economically sound to veal all of the calves, irrespective of sex, from cows which fail to qualify in either DIIIA or ROP.  
The final part of the interesting day's program was spent in visiting the farms of Fred and Harvey Nurse. At both points there was much of interest to all dairymen.

**ED FRANCIS JOINS LIQUOR STORE STAFF**  
Newest member of the staff at the Liquor Control Store on Mill St. is Ed Francis, well-known local man who has had a period of ill health resulting from his experience as a war prisoner in a German camp during World War 2. He has been employed at Provincial Paper, Ltd. since 1928.  
Mr. Francis succeeds Matt Tyler of Acton, who with his wife has left to spend some time in Arizona. Serving also with Manager James Ritchie at the store is Elmer Stef, who joined the staff last fall.

**MOVING TO ERIN SOON AFTER SELLING FARM**  
Mr. Jos. Allan held quite a successful auction sale last Wednesday. Mr. and Mrs. Allan have purchased a home in Erin and are retiring after farming for forty-five years on their present farm on the Peacock side-road. We wish them many years of good health and contentment together.  
What grand weather for Easter on Sunday! Our church was lovely with Easter lilies and other spring flowers. Mr. Russ preached a most appropriate sermon taking as his theme "God so loved the World." A duet by Mr. and Mrs. F. J. Shortill "His love is Wonderful" and an anthem by our newly formed choir were very much appreciated.  
Mr. and Mrs. Ken Cotton and family spent Easter Sunday with the Cripps family in Stayner.  
Miss Mary Jennings of Lowville is spending the holidays at her home here.  
Guests at the home of Mr. and Mrs. Frank Smith on Good Friday were Mrs. Norman Swann and daughter; Mr. and Mrs. Preston and family all of St. Catharines, Mr. and Mrs. Lorne Jamieson and family of Galt, and Mr. and Mrs. Bert Crowe and Daphne of Willowdale.  
Mr. and Mrs. Ken Ridler, Judith and Janice of Sault Ste. Marie were Easter visitors with F. W. Shortills and other friends in the community.  
Sunday evening the joint thank-of-
