World Workshop for Peace

On the bank of the East River in New York City, the world's workshop for peace—the headquarters of the United Nations—adds its modern lines to the mid-Manhattan skyline. The glass and marble structure on the left, rising 39 stories from the ground, houses the International Secretariat of the United Nations. Nestling at its base is the Conference Building where the council chambers and meeting rooms are located. The sloping white structure to the right, topped by a copper dome, contains the auditorium where the General Assembly holds its sessions. The aerial view also shows the extensive landscaped area which surrounds United Nations Headquarters.
