### Family Gathering for 45th Anniversary Day

Mr. and Mrs. J. A. McKane, Edith Street, who are celebrating their 45th wedding anniversary today, were pleasantly surprised on Sunday when members of their family and a few close friends gathered at the home of Mr. and Mrs. Jack McDonald. There was a picnic supper on the lawn of the lovely McDonald farm on the 5th Line, Chinguacousy, and Clarence Anderson was chairman for a short program which included a piano solo by a granddaughter Edith McDonald, speeches by several of those present and a congratulatory address read by Mrs. Francis Thompson. Two little granddaughters presented Mr. and Mrs. McKane with a number of gifts.

Their four children and families were all present, Mr. and Mrs. McDonald, Mr. and Mrs. J. L. McKane, Mr. and Mrs. Art McKane and Mrs. Norman McMillan, Caledonia. Others present included Mr. and Mrs. Clarence Anderson, Mr. and Mrs. John Lyons and their families, Mr. and Mrs. Francis Thompson, Mr. and Mrs. Frank Petch, Mr. and Mrs. Clarence Lyons and Mrs. Andrew McDonald.

A fire call Monday afternoon was made when smoke from an upstairs apartment stove backed up into the Golden Gate Restaurant. No damage.

#### County Will Continue Farm Pond Policy

Farm ponds and dug-outs are definitely paying off in the county of Halton. Water from two such ponds is credited with saving two buildings which were on fire. Aside from this, others constructed under the Halton policy are providing water for livestock and domestic purposes. Consequently the members of the Halton County Council did not hesitate in approving the recommendation of the Halton Conservation Committee that the Farm Pond Policy be continued in 1955. Under the policy the Ontario Department of Agriculture contributes dollar for dollar with the county up to a maximum of \$2,000 for approved ponds in 1955. Before constructing a pond, farm owners must first make application to the secretary of the Halton Conservation Committee, J. E. Whitelock of the Ontario Department of Agriculture, Milton. Once the proposed site has been approved by an agricultural engineering fieldman, the farm owner may secure whom he wishes to construct the pond. Once constructed and properly fenced to keep out livestock, providing the pond qualifies under the Halton policy, the owner is then eligible to receive a grant equal to one-half of the cost but not to exceed \$100 on any one pond. When discussing this matter with George Currie, chairman of the county conservation committee, we learned that they have sufficient money to assist with the construction of approximately 30 ponds in 1955. Those who wish to take advantage of the policy in question would be well advised to contact the agricultural office in Milton, where they can secure a copy of the policy, and at the same time file their request for a farm pond survey. Failure to make application prior to commencing construction of a pond, nullifies any possibility of securing a grant or subsidy on the money already expended.

#### CHICAGO HOG TOPS \$20.

A recent opinion poll around the Chicago Stockyards, conducted by the Chicago Daily Drovers Journal, indicates a consensus that top hogs may bring \$21.00 (live basis) before the end of June and by late summer may hit a \$23.00 peak. The week of June 6th saw hogs hit \$20.25 which incidentally is the best price on the Chicago market since the end of Sept. 1954.

#### 1954 World Meat Production High

Meat output of the world during 1954 reached a new record, according to estimates of the U.S. Foreign Agricultural Service. With the exception of the far east, production is estimated at 83 billion pounds and exceeds prewar production by 20 per cent and last year by 3 per cent.

#### U.K. Hog Quality Improves

In the past 10 months the percentage of Grade A bacon pigs produced in the United Kingdom increased from 35 to 67 per cent of the total. At the same time grade C pigs dropped from 25 per cent to less than 10 per cent and the percentage of undesirable pigs dropped from 30 per cent to 10 per cent.

#### Money Talks in Britain

To further encourage quality production, a bonus of 10 shillings (\$1.37 in Canadian money) was instituted on all "Super Quality" baconers by the Fatstock Marketing Corporation last month. Recently published Y.K. pig census figures indicate that a decline is in prospect. Some predictions indicate that within a year pig numbers may drop to 4 1/2 million head from the 5 1/2 million counted last December.

#### Disappearance of Dairy Products

During the first quarter of the year domestic disappearance of most dairy products rose. Leading the list were dried skim milk and ice cream which rose above last year by 27 per cent and 10 per cent respectively. Evaporated milk, butter, fluid milk and cheddar cheese also showed gains. Dried whole milk disappearance dropped 40 per cent while only slight drops were noted for process cheese and condensed milk. Margarine rose by 11 per cent. Cheese exports for the quarter although 20 per cent below the 1949-53 average, are more than three times as heavy as last year. Butter exports, also below the long-time average are 30 per cent above a year ago.
