FARM NEWS

Statistics Show 17 Per Cent Ontario Farms Rented

J. E. W.

We were somewhat surprised recently to learn that about 17 per cent of all Ontario farms are rented either fully or in part. On some part of this continent where farm incomes and values are high, over one-half of the farms are rented. As a matter of fact in the cash crop areas of south western Ontario there is an increased percentage of farms rented — for instance, in Essex County in 1961, 22 per cent of all the farm land was rented. Certainly for the young man with limited capital, renting has many advantages. It enables him to put

his capital into livestock and machinery, rather than make a down payment on a poor farm and not have money to purchase the livestock and equipment he requires. One of the difficulties of the past has been to work out a satisfactory agreement. Every year we usually have at least two or three ask for assistance to work out a satisfactory agreement, either on a cash or a share rental basis. We are therefore very glad to announce that the Economics Division of the Canada Dept. of Agriculture, and the Dept. of Agriculture Economics at the OAC have jointly prepared a circular on "Rental Agreements for Your Farm." Copies of suggested agreements for both share renting and cash renting are included. Copies of this helpful circular are now available at the agricultural office in Milton.

Wrigglesworth Public School Promotions

TO GRADE IX

Teacher — William Kinrade

SCHOOL PUPILS MAKE SWIM POOL DONATION

When the Lions Club held its annual Peanut Day in May, school pupils were enlisted to help as taggers and the club paid them part of the proceeds.

Pupils of Grades 5 and 7 at Wrigglesworth School, taught by Mrs. W. Gwisdala served as a group and the class project raised a total of \$40 as their share of sales. The pupils then voted to turn half of this back to the club for the swimming pool, retaining the other \$20 for other purposes.
