TOWN SEEKS EASEMENT FOR WATER LINE INSTALLATION

Worried about lack of an easement for installing watermain across Dominion Seed House property, council on Monday instructed lawyers Hewson and Ord to seek permission from the property owners immediately and if such permission is not obtained, to take necessary legal action for crossing the property.

The company was asked eight months ago, through their lawyer, for the easement and to date council has heard nothing further. A letter from engineer Roberts Monday reminded council that work may be ready to proceed this week, and it would seriously delay the contractor if he could not lay the pipe when he is ready.

It is necessary to cross the property to tie up two parts of the new waterworks system and the extension which are being made.

Cr. Doug Sargent, industrial and town planning chairman, expressed the thought that it might not be wise for Georgetown to acquiesce to a new subdivision which is being planned on Meadowglen Growers property.

A small number of houses are going to be constructed on the hill near the plant and while these are in Easing Township, the town was notified of a sitting of the Municipal Board here August 4th, to give a ruling.

Mr. Sargent said that while it is not the town's business at present, it could be sometime in the future if the area should be annexed. The houses,

he understands, are being built on what could be valuable industrial property, and could be detrimental to future industrial expansion.

A request from Mrs. Fred Sinclair for permission to use a lot, smaller than the building by-law calls for, for building purposes was turned over to the town planning committee for a recommendation. The lot, 58x72, faces on Henry Street.

Engineer Douglas Wilson and police chief Roy Halsey will make a survey of town to suggest proper places to designate as stop streets, and the engineer will submit an estimate of cost of installing stop signs and street signs.

HYDRO COMMISSION ADDS AERIAL LADDER TRUCK

Keeping pace with the increased work which a growing town brings to public utilities, Georgetown Hydro Commission has added a valuable new piece of equipment.

Recently the commission asked for tenders for an aerial ladder truck and the successful bidder was Bowers Motor Sales which has supplied a Fargo.

The truck has an innovation which superintendent Gerry McCallum believes may be the first of its kind in Canada. The 28 foot ladder made by the Keystone Company is arranged on a swivel so that a man working on it can stay in his position while the ladder is rotated.

The truck is painted red, complementing the new construction truck which the commission acquired earlier this year.

An Extract From The Financial Post
June 11th, 1955

"The rise in price of Trust and Loan Company stocks is one measure of the growth of the essential services they perform. And in the past year, this group of stocks has bounded higher than stocks in general."

Malton & Peel Trust & Savings Company shares at \$11 per share offer an unusual opportunity to invest in a Trust Company which is already making very substantial progress, with assets in excess of four hundred thousand dollars.
