

Funeral Service Held For Drowning Victim

Following the funeral service on Friday at the Harold C. McClure funeral home in town, Roger Thomas Mudie, 17, was buried in Hillcrest Cemetery, Norval.

The young Norval district resident lost his life in a swimming tragedy at Paris on August 2nd. He had been visiting with relatives and was swimming with his cousin Gerald Rook when he got into difficulties in deep water. His body was not recovered for four hours from the isolated section of the Nith River where the drowning occurred.

Roger was a native of Georgetown and lived in town all his life until the family moved to a country home near Norval in February. He was employed at the Williams Shoe Co. in Brampton.

Rev. Alex. J. Calder conducted the funeral service on Friday. Pallbearers were his brother-in-law John Beattie of town and five from Paris, his uncles Gordon Speers and Mai Winn, cousins Gerald Rook and Arthur Rook, Jr. and Earl Heas.

Forecast Normal Grain Crop in Halton County

Binders, combines and threshing machines were all in full swing in the general farming areas of the county last week. Harvesting was well advanced at time of writing, and there is every prospect that Halton will harvest a normal crop of grain.

True, crop conditions vary tremendously from community and even on the same farm. However, judging from press, radio, and TV reports of crop conditions elsewhere in Ontario, Halton can consider herself lucky. Reported yields of winter wheat vary all the way from 25 to 50 bus. per acre, with an average of perhaps 30 to 35 bus. Oats and mixed grains are reported yielding all the way from 40 to 80 bus. per acre, with an average of perhaps 45 bus. to the acre.

Alfalfa Seed
First stands of Alfalfa left for seed look the best since 1928. A few fields

of alfalfa look like a seven bushel yield—they are literally black with pods.

Pastures—Generally Poor
Prospects for red clover seed, are rather dismal. Most people require all their aftermath for pasture, and even at that, a good many dairymen are finding it necessary to supplement pastures with hay plus more than the usual amount of grain and concentrate.

Due to short pastures and the heat, production is off in many herds. The drought conditions of the past few weeks have quite a few dairymen talking and thinking about the possibilities of irrigation. Certainly irrigation pays off on cash crops like tobacco, vegetables, etc. When it comes to pastures it's a debatable point—in the flat place, it requires a good stream to provide sufficient water. Secondly, the investment required would be no small item. For the average man, more alfalfa in many of our mixtures along with rotational grazing, might be a more practical solution.

Drought conditions have also affected the fruit growers. In some orchards the sizing of apples and pears has slowed down considerably. There is also some concern among some growers affected, regarding inspection of hail marked early apples.

St. John's Wedding Couple Are Natives of Ireland

Two natives of Ireland were married in St. John's United Church on July 30th.

Wedding principals were Beulah Patricia Cinnamon and Francis Gray, son of Mr. and Mrs. James Gray, Belfast, northern Ireland. The bride, daughter of Mrs. Jean M. Cinnamon and the late Reginald T. Cinnamon of Knock, Belfast, came to Georgetown from Wellington, New Zealand. Her mother is at present visiting in Georgetown. Mr. Gray and his bride, who will be living at Huttonville, are employed at Avro Aircraft, Ltd., Malton.

Rev. Alex. J. Calder officiated at the ceremony which took place at three o'clock. Pink and white gladioli and carnations were used as church decorations. Norman Laird played the organ. Prior to the wedding vows, wedding guests sang "The Lord's My Shepherd" and "O Perfect Love" after the giving and receiving of rings.

The bride wore an original floor-length gown of white French chantilly lace over white satin, and a double layer of nylon net, the outer layer being pleated right around, with long sleeves of chantilly lace and a fitted bodice with a portrait neckline of pleated nylon net. A three-quarter length veil edged with chantilly lace was held by a heart-shaped coronet of pearls and sequins. She carried a cascade of red roses and stephanotis. It was a double ring ceremony.

Mrs. Stanley Cinnamon, 32 Byron St. was matron of honour. She wore pastel pink nylon net, with fitted bodice and shoulder-length coat and a very full skirt. The gown was ballerina length. Miss Julie McMillan, Georgetown, was flower girl in a knee-length gown of white net, with full skirt. Mrs. Cinnamon carried blue and fuchsia gladioli and the

flower girl a nosegay of pinocchio poms and pink roses.

Michael O'Reilly, Weston was groomsmen. Ushers were Alan McMillan, Georgetown, and John McElride, Toronto.

A reception was held in St. John's church hall. The bride's mother received, wearing a midnight blue lace frock with full skirt and heart-shaped neckline with cerise accessories. Also in the receiving line were the bride's brother, Stanley Cinnamon who had given her in marriage and the groom's friends, Alan McMillan and John McElride, all wearing white dress suits.

Leaving on a honeymoon trip to Parry Sound, the bride wore a pale blue nylon frock with full skirt, fitted bodice and white accessories.

Mr. and Mrs. Gray are both natives of Ireland. Mr. Gray came to Canada in 1953 and his bride, who had lived in New Zealand has been in Canada for the past year.

Two Showers for Beulah Cinnamon

Miss Beulah Cinnamon, who was married a week ago Saturday to Francis Gray at a ceremony in St. John's United Church, was honoured at two showers before her marriage. Her sister-in-law, Mrs. Stanley Cinnamon entertained at her home 32 Byron Street and Mrs. J. Ross, Thistleton, was also hostess at a shower.

Numerous telegrams of congratulations from New Zealand and Northern Ireland were received on their wedding day. Wedding guests included the bride's uncle and aunt, Mr. and Mrs. George Thacker of Wolverhampton, England, who are at present in Canada visiting in Windsor with their daughter, Mrs. Bill Woodall.

How to maintain
PROFITABLE MILK PRODUCTION

Feed Pioneer Dairy Ration as a pasture supplement and as a winter milk producer. Pioneer Dairy Ration is a bulky, palatable, vitamin-fortified, balanced feed with molasses and pellets added. It increases your returns by keeping production right up to inherited ability.

Because Pioneer Dairy Ration is high in T.D.N. (total digestible nutrients) the Pioneer-fed cow carries good flesh and continues to produce right up to the end of lactation.

Improves herd health, production and profits by feeding Pioneer Dairy Ration.
