

**Ern Hyde made Manager  
Beaver Ready Mixed Co.**

Former town foreman Ern Hyde, who was succeeded on Monday in this position by Alf Collins, has been named general manager of Beaver Ready Mixed Co. Ltd. Mr. Hyde is also planning to enter the construction business. Mr. Hyde resigned last week to take his new position after serving as a municipal employee for eight years. A Georgetown native, son of Mr. Alfred and the late Mrs. Hyde, he has lived in town all his life. He was a Smith and Stone employee when he enlisted in the RCAF and after the war he was employed at Provincial Paper. He was president of the union at the mill when he left the company to work for the town. Married to the former Helen Humberstone, they live on Ewing Street with their family of five. Mr. Hyde takes an active part in town affairs. He is a member of St. John's United Church and of the boy scout group committee. A charter member of the new Rotary Club, he is membership chairman. His fine singing voice has been heard in the minstrel shows presented in recent years by St. John's Church choir in which he has appeared as an end man.

**RETURNS TO DENMARK  
AFTER VISITING SON**

Mrs. Anna Marie Hansen has returned to Copenhagen, Denmark, this week. Mrs. Hansen came to Canada nearly three months ago to spend a year with her son Mr. Henri Hansen and his family who live at Fallbrook farm but after being here a short time became homesick for her native land and decided to return home. Mr. Hansen and his family have been in Canada for three and a half years living all but 5 months of that time at Fallbrook farm. They are very happy there, and wish that his mother could have stayed to enjoy a Canadian winter with them.

The number of graduate Canadian nurses emigrating to the United States has increased more than fourfold since the end of the Second World War. In the last year that we have a full record of, 1953, some 1,042 nurses moved to the U.S.

**FIRST RAIN  
MAKER**

Back in the nineties a patent was issued for an irrigating device consisting of a balloon, perforated water pipes... and an active farmer to haul the whole contraption along by its guy ropes. Today, of course, irrigation is a lot easier proposition. Aluminum irrigation tubing, for instance, can be laid, lifted, moved about with the greatest ease. With it one man can water more land than an army of balloon operators. Shows how lightweight, low-cost aluminum (Canada is the world's most efficient producer of the metal) makes a simple job out of a tough one. ALUMINUM COMPANY OF CANADA, LTD. (ALCAN)

**LEGION NOTES**

Well, August has rolled around, and it's getting awfully close to the Decoration Day parade, to be held on September 11th. This is a Sunday and it is hoped that all members will take part, because after all, the members, make it. After all, the Branch is not burdened with an overly large number of parades, and surely we could all make an effort to be present for this one in memory of our fallen comrades. As you all know, the procedure is to proceed to the cemetery and deposit flowers on the graves of the members who are departed. As a rule, the Ladies Auxiliary also take part and also the Firemen. This is one of the most solemn and important affairs of the Legion year, so be on hand, won't you? Invitations have been extended to the nearby branches, and it is hoped to have a number from each attending our service. Bands have been hired for the day, and it is hoped that the local Lorne Scots Company will be on hand too. From the interest that was taken in reviving the affair, it would be expected that there will be a really big attendance for this. After all, surely no member is so busy that he can't afford to give one Sunday afternoon in memory of those of his Comrades who have gone before.

Quite a large group of the golfing fraternity attended the one golf tournament at Credit Valley course last Saturday. We understand that a good time was had by all, and that a very creditable number of cards were handed in by some of our local boys. In spite of the weather, the boys, led by captain Ken Nash, managed to bring home the bacon, with the Skbil Bennett trophy, as well as four individual trophies, and a number of the other won special prizes. There have been a few repairs in the caulking to our freezer, especially around the outlet for the cases. A good deal of the cold has been escap-

**ASHGROVE**

Friday afternoon around the rooms is becoming one of the busiest spots we know. Certainly there has been a definite increase in the patronage of members and it's been quite often so full that one has to hunt for a seat... something that in the past has been a rarity on Friday p.m's.

Friday nights continue to woo the dancers, even in this heat, and each week seems to bring a few different ones. The air conditioning has certainly helped the general atmosphere upstairs.

We believe some interesting plans are now on top for renovations, particularly to the stage area upstairs, inasmuch as a modern stage will be built right in the wall. There are also a number of other projected changes mooted for the downstairs, as well as upstairs, and if they all take place, will certainly make a decided improvement to our Legion Hall.

Warriors' Day Parade and special events at the Canadian National Exhibition will this year be held on Saturday, August 28th, and we imagine that once more buses will be taken from the Branch. This is always a highlight of the year for some of the members, and we know a number of regulars who never miss them. For information see the bulletin board in the rooms or enquire from the steward.

We believe that it will be the same as other years, with several buses going at different times, and one returning home fairly early for the children.

Now that "holidayitis" is over for another year, hope we can find something interesting for our column. Any suggestions will be greatly accepted. In fact we'd just love any news tips you can give us. After all, we try to get as many as we can, but it's hard to hear all the little quips and puns that go on, and would give the readers a big laugh. So if you hear anything that you consider either humorous or interesting, pass it on to us.

**Victoria College Grad  
Church Service Speaker**

The Young People presented a very fine service in the church on Sunday morning with president Jean Bird in charge. Psalm 735 was used. Bill Wilson read the scripture from Matthew and the speaker, Mr. Lloyd Benson, a graduate from Victoria College presented some thoughts from the will of God and said everyone might have everlasting life if we have faith and believe in God and present ourselves as a living sacrifice we will find God's will.

There will be no service in our church for the next two Sundays, but this Sunday evening a service is being held in Bethel United Church with Rev. G. W. Lock of Grand Valley as the minister.

Mr. and Mrs. J. Hunter spent a few days visiting at Port Elgin. Joey Drake is visiting his sister Joan and brother-in-law Earl Bayers in Ottawa.

Mrs. Horace Barnes, Jack and Nora, Mrs. Stanley Eyre and her four children of Norval spent last week at Jackson's Point, Lake Simcoe.

Miss Dorothy Hill of Toronto is having holidays at her grandparents, Mr. and Mrs. W. Stringer.

**TRUCK, CAR DAMAGED  
COLLIDE AT FLASHER**

A car and truck were damaged when they collided on Thursday at the flasher light intersection of Water St. and No. 7.

Jim Cleave, driving a truck, was turning off the highway onto Water Street, when a car travelling west was attempting to pass him at the same time. The car was driven by D'Arcy Kirkpatrick, 396 Hillside Ave. E., Toronto. Some \$200 damage was caused to the car, and the left front fender and running board of the truck suffered some damage in the crash.
