Chevrolet!

Chevrolet!

Everywhere it's Chevrolet!

Dramatic Proof of Chevrolet's Success!
Everywhere in Canada, consistently, more Chevrolet cars are sold than those of any other manufacturer. And now, to a greater extent than ever before, the 1955 Chevrolet is the favorite of Canadians from coast to coast.

This is Important To You!
Because Chevrolet builds so many more cars, each one costs less to make. That's the simple, provable effect of volume production. And this saving is passed on to you in the form of more value, and more features for the money than you can get with any other car on the market. Also, compare Chevrolet's prices and you'll know for sure at least one reason why so many more people buy Chevrolet year after year - especially this year.

Day by day, Chevrolet gains in popularity... value... sales!
