First new North American car to make its continental debut in Canada, this new 1956 Lincoln Premier coupe was unveiled by Ed Sullivan at the CNE on September 5th. Lithe, graceful styling highlights its overall length of 18 1/4 feet — more than 7 inches longer and 2 1/2 inches lower than the 1955 Lincoln. Its 285 h.p. V-8 engine with 9 to 1 compression is the most powerful and durable Lincoln engine ever built and its torque rating (driving thrust) is the highest of any North American car. By blending Lincoln's familiar tail lights with unique jet-pod bumper guards (which double as exhaust outlets) the new Lincoln achieves a low, wide and ground-hugging look.

School Enrolment at Chapel Street School
