

DEMONSTRATION
GIVEN

AT OUR
NO. 2 WELL

Now You Can Use That "Back" Burner You Will Really Be Cooking With Gas

You have this wonderful commodity right in your own back yard ... IF YOU HAVE NOT, WE WILL BRING IT TO YOU from our wells situated about three miles from your own back door . . . This God-given natural resource found and produced by a local company, is now available to you. You do not have to depend on the pipe line from the west, or the pipe line from the U.S.A. We as a local enterprising concern would urge the local people to vote YES on this gas question.

GIVE PROGRESS ANOTHER WELL NEEDED BOOST FORWARD.

DO NOT TRY TO IMPEDE PROGRESS.
