

Lawn Bowlers Plan Renovate Clubhouse

Last year was one of the most successful seasons for the men's lawn bowling club, it was reported when members held their annual meeting in the clubhouse on Thursday. The club has a membership of 25 and is anticipating several newcomers this spring when the season opens again. Renovations are planned at the

clubhouse this year to make it even more attractive.

Besides election of officers, those at the meeting enjoyed a game of euchre and lunch.

Officers this year are Claude Kentner, president; Dick Licata, vice president; Walter Gray, secretary-treasurer.

Committee chairmen include Jack Williamson, grounds; Dick Licata, entertainment; Norman Icam, games; and W. G. Bell, publicity. A new pro-

perty committee was set up, with members Dick Licata, Walter Gray and W. G. McDowell, to supervise the clubhouse renovations.

Members also decided to enter a team in the provincial bowling tournament this year.

HYDRO Golden Jubilee

1956

50 YEARS OF PROGRESS

The fifty years since Ontario Hydro was created in 1906 constitute one of the most important eras in the history of our province. The Hydro family has played a major role in the progress of that half century, energetically developing Ontario's water resources to make available to farms, homes and industry, dependable electric power at rates among the lowest in the world.

In the process, the Hydro family has grown from the original 14 partner municipalities to 343. The number of customers served through these, plus rural, local systems and industrial customers now exceeds one and one half million. The combined assets of the Commission and the municipal systems is almost two billion dollars.

In this, our Golden Jubilee Year, Ontario Hydro and all the Hydro municipalities salute the men whose foresight and enterprise founded the Hydro family . . . We salute also labour, industry and agriculture, all of which may be proud of their part in helping to bring about the present high standard of living in Ontario.

What of the next 50 years? The future holds great promise in electrical living. Hydro will continue to provide an adequate supply of electricity to meet the power requirements of the province . . . power for greater prosperity for all Ontario.
