**Answers Critics of Blood Transfusion**

Georgetown, Feb. 20th, 1956.

Dear Mr. Editor:

In the Name of the Father, Son and Holy Spirit . . . Amen.

At Christ's weekly Holy Communion which we offer with special intention for the sick and for the capable work of doctors, nurses and hospitals, we pray, "Almighty God, whose blessed Son Jesus Christ went about doing good, and healing all manner of sickness and disease among the people, continue we beseech Thee in our hospitals His gracious work, console and heal the sufferers, grant to the physicians and surgeons wisdom and skill and to the nurses diligence and patience, prosper their work, O Lord."

God has given the physician and surgeon clever minds and the work of science has provided great advances in modern medicine. This I regard as an Act of God and I for one am thankful for blood transfusions and all the blessings of medical assistance. God Bless our physicians and surgeons, may their learning and progress ever increase as they share Christ's ministry of healing the sick.

It is also my happy privilege to drink of the Blood of Christ which was shed for all who believe in His Name. This is the cup offered by Christ "Likewise after supper, He took the cup and when He had given thanks, He gave it to them, saying Drink ye all of it (St. Matthew). For this IS MY BLOOD of the Covenant, (St. Matthew, St. Mark), or, This cup is the New Covenant in MY Blood, (St. Luke, 1 Cor.) which is shed for many (St. Matthew, St. Mark), or which is shed for you. (St. Luke), for remission of sins (St. Matthew) Do this as oft as ye drink it, in remembrance of me (1 Cor.)

You see this is the great gift of the precious Blood of Christ and indeed I am extremely thankful and gladly drink of it, obeying HIS Divine command, for the words mean what they say and I believe them, implicitly, apostolically and Eucharistically.

With every charitable thought, as I too, express my belief as a Baptized soldier of Christ.

Kenneth Richardson,  
(Priest, Anglican Communion)

**Farm Sale Agreements**

J. E. W.

Over the past few months we have heard reports and rumours of various farm sales and options at prices which a year ago we would have said were impossible. Needless to add, while we rejoice in the farmer's good luck, it is always with a touch of sadness that we hear that another good farm has been sold or optioned. What really disturbs us, are the reports of some of the agreements which it is stated some of our farmer friends have signed. We can only hope that the reports are wrong. We do not pose as an authority on real estate deals, but in our opinion, the first thing to do before signing any agreement of sale is to read it and see a good lawyer. Here are a few points to keep in mind too:

1. The survey should be made at the expense of the purchasers;
2. The survey must be produced at least 30 days before the date of closing;
3. The sale must be completed within a reasonable time;
4. At least one-half of the purchase price should be paid in cash;
5. The down payment must be paid to the vendors and not to the agent;
6. If the sale is not completed through default of the purchasers, the vendor retains the deposit;
7. No commission shall be payable to the agent until the sale is actually completed and will be paid out of the cash due on the closing of the sale. No sale - no commission;
8. No partial discharges should be granted of less than ten acres and upon payment of ten times the value of an acre;
9. If the lands upon which the buildings
