

### Halton Liberals Elect Gordon Lever President

Friday evening, March 2nd, the annual meeting of the Halton County Liberal Association was held in the auditorium of the Milton town hall. The meeting was well attended. Election of officers was held with the following elected: Gordon Lever, Oakville, president; Lorne Bird, Esquesing, 1st vice president; Peter Waters, Oakville, 2nd vice president; Victor Hall, Hornby, treasurer; K. Y. Dick, Milton, secretary.

Russell Reinke, M.P. was the guest speaker and he spoke on health insurance and the western wheat question. Those present found it a most interesting and informative talk. The ladies of the association served lunch at the close of the meeting.

#### ASHGROVE

### Church, Young People Hear Chinese Minister

Winter is slipping away. We are now into March and the crows are busy crowing and on Sunday we saw a

ground hog in a field. But don't let these signs make you think spring is here. We can get real winter, weather for all this month yet.

At the church service on Sunday morning we all enjoyed listening to the Rev. Timothy Tam from Hong Kong, China, whose father is a minister in China. He brought Christian greetings from his homeland which is in the southern part of China. He said "Man cannot live without religion." We are created from God who died for us, the Chinese are willing to accept Jesus Christ as their Lord and they seek help and comfort from the teachings of our missionaries in churches." He played a hymn in Chinese on a tiny bamboo flute and to close his address he sang a hymn in Chinese and also hymn 253 in our language "O Zion Hate thy Mission Light Fulfilling." Visitors at this service were Mr. and Mrs. Alonzo Thornton of Toronto, Mrs. George Kennedy of Milton and Mrs. Howard Wrigglesworth and sons Douglas and Robert of Georgetown.

Sympathy is extended to Mr. C. B. Dick and family in the death of his brother David last week at Cleveland, Ohio.

Congratulations to Kent and Hugh Graham who passed their Grade 2 Music exams with honors which they tried in Guelph a week ago.

The Young People held a meeting on Sunday evening in the church and had the young people from Hornby United Church as their guests. President Bill Wilson was in charge. Evelyn Bird read the Scripture. Fred Barnes led in prayer. Mr. Russ introduced the speaker Rev. Timothy Tam who spoke on his work in China and Hong Kong and also answered questions the young folk wished to know. Ralph Cunningham conducted a sing-song of hymns and Jimmie Learmonth of Hornby thanked Ashgrove for their hospitality and a social hour with coffee and doughnuts ended the pleasant evening.

### Chiropractors Opening New Georgetown Office

Thursday of this week will see two new professional men on Main Street in the persons of Dr. Gay and Dr. E. Tetrault, D.C., chiropractors. They are opening their new offices at No. 2 Main Street, over Cotton Bros.

Dr. Tetrault, former resident of Saskatoon attended the University of Saskatchewan for four years in the college of pharmacy and four years at Chiropractic college in Toronto. He served as a lieutenant in the Armoured Corp. during the war.

Dr. Gay, a resident of Toronto received his degree at the Chiropractic College in Toronto. The doctors are now operating a clinic in Toronto which they hope to continue as well as their offices in Georgetown. Neither of the doctors are married.

### THE STORY OF CHIROPRACTIC

Chiropractic (pronounced ki-ro-prak-tic) is a system of treatment based on the premise that the nerve system controls all other systems and all physiological functions of the human body; that interference with the nerve control of these systems impairs their function and induces disease by rendering the body less resistant to infection or to other exciting causes.

The Doctor of Chiropractic realigns by manipulation the structures of the body when there is fault, especially those of the spinal column, to restore normal nerve function. In doing so he removes the cause of the disease and gives the body protective and restorative powers and opportunity to function normally.

The principles upon which the science of Chiropractic is based can be traced to the earliest physicians of antiquity. They were known and practiced by Hippocrates, the Father of Medicine (460-370 B.C.); by Galen (130-200 A.D.) and other phys-

icians of ancient Greece and Rome. Descriptions of this method of treating bodily ills are also found in the ancient manuscripts of the Egyptians, Hindus and Chinese.

Lost for centuries, the principles of this system were rediscovered by a Canadian, born at Port Perry, Ontario, Dr. Daniel David Palmer, in 1893, and named chiropractic—a composite of the Greek word "cheir" and "praktikos", meaning "done by hand."

The basic operations upon which this system is built have been successfully applied for over fifty years. Its basic principles are accepted by the most eminent scientists. The remarkable effectiveness of this method in treating disease and preserving health has won for chiropractic a permanent place in the family of health sciences.

Included in the clinic are ultra-sonar short wave and galvanic equipment for physiotherapy. These are recommended and effective in treatment of bursitis, arthritis, inflammatory condition of the muscles, and tendons, as well as other allied conditions.
