Telephone Round-up

Every parent knows how easily a two-gun cowboy can lose track of time especially around mealtime.

But she also knows it's a simple matter to round him up by telephone. And any vague feeling of anxiety about where he is or what he is doing is quickly dispelled by that eager voice at the other end of the line.

Yes, the telephone is a convenience and a comfort, all day long. It means fewer meals grown cold because youngsters or husband are late getting home. It means more security when you're alone at night. It means more things done with less time and effort . . . Yet this endlessly useful servant works for you for just a few cents a day.
