### Morning Fire Consumes Building Supplies, Truck

Early Wednesday morning, June 20th, Rev. F. M. Fletcher, R. R. 1, Georgetown, lost his storage warehouse and the entire contents consisting of building and plumbing supplies as well as his truck.

Mrs. Fletcher looked out the window at 8:30 in the morning, and saw smoke pouring out of the building. Shortly after there was an explosion which it is believed was the gas tank of the truck. Firemen believe the fire was caused by a short in the truck. The Georgetown firemen were called and did everything possible but the fire had too great a start.

### Mr. and Mrs. Eugene Wright Making Home in Guelph

The Church of the Precious Blood, Scarborough was the scene of the marriage on June 16th of Kathleen Jane Leeder, Guelph Street, the daughter of Mr. and Mrs. Fredrick Leeder, 8 Kingscourt Drive, Islington, and Eugene John Wright, son of Mr. William Wright and the late Mrs. Wright, 188 Dufferin Street, Guelph.

The church was beautifully decorated with snapdragons and white carnations. Rev. J. M. Murphy performed the ceremony. Mrs. Cleve of Scarborough was organist and soloist, playing the wedding march as the bride entered the church "On This Day" and "Pans Angelicus" during mass and the Ave Maria as the bride and groom left the church.

The bride-given in marriage by her father chose a white floor length satin gown covered with tulle lace, her fingertip veil fell from a pill box covered with pearls. She carried a pearl rosary with her nosegay of red roses and white poms and white streamers.

Mrs. Agnes Heritage, Scarborough, acted as matron of honour for her sister gowning in waltz length royal blue net covered with white lace. Her nosegay was made from blue and white poms with blue streamers.

## Most modern truck V8's ...and the pounds prove it!

Pound for pound, the most powerful truck V8's today are Chevrolets. That's one way you can tell they're the most modern V8's going!

Any engineer will tell you that horsepower-per-pound is a good indication of efficient engine design. And Chevrolet's modern short-stroke V8 truck engines do more work for their weight than any other V8 in any truck today.

That means they carry around fewer pounds for the power they develop. They weigh up to 200 pounds less than other comparable engines! It means, too, that less of the maximum truck G.V.W. consists of engine weight — and more is devoted to payload. So, you not only can haul bigger loads — you have more usable power to move them!

Stop by and let us show you how Chevrolet's compact, super-efficient truck V8's can save hours and dollars on your job.
