IRRIGATION
A troupe of European acrobats brought along with them, to "support" them in their U.S. circus tour, a 66-foot tapered aluminum tower. Atop this rotates a 26-foot, motor-driven ladder, on which they go through their aerial routine.
If we were in their tights, we know we'd make darn sure that everything holding us up was plenty strong. No doubt that's why they chose aluminum. Plus the fact that this light metal would make much easier work of erecting the contraption. We're pleased that they, like so many other people, found just what they wanted in this light, strong, versatile metal.

HORACE TOMLINSON, Surge dealer for the counties of Peel and Halton won the monthly contest for Surge Milker dealers in Ontario for May. This challenge trophy, in the form of a silver plated cannon, was presented by Babson Bros. Co. at a dinner given at the Queen Elizabeth Lodge recently. The cannon is a genuine 10 gauge Winchester firing piece, and is one of six being competed for throughout Canada.

FARM NEWS
4-H Homemakers Club Achievement Day

J. E. W.
As a new departure, the Halton County 4-H Homemaking Clubs held their summer Achievement Day in the Agricultural Hall in the Milton Fair Grounds Sat. July 14. The location was excellent for a summer day and the programme well attended by both members and visitors. This event marked the completion, for one hundred girls from nine clubs, of the food project, "The Cereal Shelf." Under the direction of the county home economist, Mrs. Mabel Borgstrom, a Cereal Quiz and judging classes of Muffins and Menus occupied the morning for all members, during which time their own muffins and Record Books were also arranged for display.
In the afternoon, club contributions were made to the program in the form of exhibits, demonstrations and skits. Exhibits on "The Cereal Shelf" were prepared by Hornby, Nelson, Norval and Palermo Clubs, with comments by Shirley Downs, Vici Gilliland, Aileen Harrop and Kathleen Marshall respectively. Some criticism and suggestions for these were offered by visiting Home Economist, Mrs. Peter Ferguson of Oxford and Norfolk Counties.
"Around the Clock with Cereals" was the subject chosen by Scotch Block and Omagh Clubs, and presented in the form of a skit, with all members taking part. Ashgrove used the same subject for a Demonstration by Jean and Evelyn Bird, as did Dublin with Jean Moffat and Jean Britton demonstrating. The Bannockburn Club made use of all of their members in a skit entitled "Saving with Cereals". Miss Carolyn Kelman, Home Economist for

Is this your experience too?

... ever dusted the stair rail with a lace handkerchief? Well, it isn't too practical, but it does illustrate the cleanliness you will experience with a gas winter air conditioning furnace. Much of the dirt that must be removed from curtains, walls and woodwork, is caused by smoke, soot and dust from solid and liquid fuels. The home with a gas furnace has no such problems, for gas in the clean fuel. There just isn't any smoke or grime from gas... it burns with a clear, smokeless, sootless flame. No valuable storage room is needed for gas, for it is piped into your home. Many families, in converting to gas heat, have also converted dusty, cramped basements into clean, livable areas. There are many makes of gas furnaces on the market today. Before you install a gas furnace, consult your local heating expert... your plumber or gas company... to make sure that you get the right size furnace for your house and family.
