**Keep it under your hat!**  
The bright idea of a New York Fire Commissioner gives us an idea, too. He liked his dress cap; disliked the regulation fire helmet — but he recognized the ever-present danger of falling debris. So he simply had an inner shield of aluminum made and fitted into the cap.  
And that's where our idea comes in: A lightweight aluminum shield that would fit under a wayward husband's fedora and save him many a skull abrasion when he sneaked in late at night to a rolling-pin reception by the little woman. Ah! aluminum, the useful metal!
