**BABY KILLED, TWO INJURED
ACCIDENT IN HEAVY FOG**

A fatal accident on Main Street North, Saturday, claimed the life of one year old Linda Wright, the daughter of Mr. and Mrs. M. L. Wright of 766 Markham St., Toronto.

Mr. Wright was driving south on the highway at about 6.30 a.m. when visibility was very poor as an early morning fog had blanketed the area. Gordon Laidlaw, 22, of Norval and Ronald Moffat were proceeding north in a truck and approaching the town's western limits.

Distances were misjudged in the fog when the two vehicles attempted to pass. The Wright car, a '37 Plymouth, struck the left running board of the truck, and was pulled into the corner of the box directly behind the cab. The impact tore off the left side of the car and sent it skidding 48 feet across the highway and into a fence opposite 151 Main Street North.

Mr. Wright suffered a concussion and deep head lacerations. Mrs. Hansen a passenger in the back seat, sitting next to the ripped off section of the car received eight broken ribs and a double fracture of her left elbow. Linda Wright, who died at the Hospital for Sick Children in Toronto one and a half hours after the collision; was sitting on Mrs. Hansen's knee.

Mrs. Wright, wife of the driver of the car, Mr. Hansen, the injured woman's husband and two other children escaped serious injuries. Mr. Hansen is the brother of Mrs. Wright and was returning to Toronto with her to attend the funeral of their father.

Mrs. Ken Hunter and Mrs. John Ingles, of 151 Main St. North, were of great assistance, allowing their house to be used for the treatment of the injured until the doctors arrived and while first aid was being applied.

Georgetown police constables Nelson Trafford and Harley Lowe investigated the accident. Dr. J. H. Chamberlain treated the injured before they were removed to the Guelph General Hospital.

**good news for
television owners**

**Georgetown's T.V. Specialists now guarantee
you excellent reception of the Buffalo
outlet WBUF of the NBC**

You will see such programs as Sid Caesar, George Gobel, etc. etc.

Take now full advantage of your Television set and get all the channels that are available in this area.

Have WIGO TV install you an U.H.F. aerial and converter.

Prices for complete installation start at \$45.00, depending on material and labour involved, and of course for the do-it-yourself man, all material and parts are available, while we will be glad to give all the advice needed.

For those who want the installation made by us, we advise to hurry and phone us right away, we expect to be very busy.

Act now . . . without delay

**FARM NEWS
Amend Brucellosis Act
County Gets Vaccine**

J. E. W.

After October 1st, the cost of vaccinating all female calves in supervised areas will be borne by the province of Ontario. The Brucellosis Act, 1956, has been proclaimed and came into force on October 1st. On that date all townships in which by-laws were passed under the Brucellosis Control Act of 1953, became "Supervised" areas. Halton county therefore, automatically becomes a supervised area.

Under the new legislation, Municipal Councils are relieved of all responsibility in connection with its administration and enforcement, thus obviating the necessity for local committees and township inspectors. As previously indicated, the cost of vaccinating all female calves after October 1st, will be borne by the province of Ontario. Every practicing veterinarian will be granted an opportunity to participate in this program. However, a practitioner must enter into an agreement with the minister, otherwise he will not be eligible to collect for vaccination services from the Ontario Livestock branch.

In contrast to the previous Brucellosis Act of 1953, every cattle owner must notify the veterinarian of his choice when he has female calves between the ages of four and eight months to be vaccinated. However, cattle owners should make sure that the veterinarian of his choice has an agreement with the minister of agriculture, otherwise the cattle owner will be liable for the cost of vaccination. Halton cattle owners should also realize that a failure to notify a veterinarian that he has a calf or calves of the proper age to be vaccinated, renders such cattle owner liable to be charged with an offence under the act.

be well advised to contact their local veterinarian or the Milton office of the Ontario Dept. of Agriculture, prior to taking such action. In short, we are so confident the new legislation will meet the general approval of Halton cattle owners, 90 per cent of whom in 1954, petitioned their respective township councils to make calfhood vaccination compulsory. It is our understanding that official releases on the subject will be made to the agricultural press, all dailies, weeklies, and all radio stations, so we would suggest that our readers be on the lookout for further details.

grove and Palermo; C. Grade, Dublin.

4-H Agricultural Clubs —
A. Grade, First Year Grain Club; Holstein Calf Club; Jersey and Guernsey Calf Club; Second Year Grain Club; Beef and Dual Purpose Calf Club; B. Grade, Halton Swine Club and Halton Potato Club. The award for the grand champ exhibit was won by the Halton 4-H First Year Grain Club. One had only to take a very cursory look at the 25 club exhibits to realize that a "terrific" amount of planning and work was involved. To the club members concerned and their respective leaders, go our heartiest congratulations on a job well done. In short, the entire section was keeping with the 4-H Club slogan, "Learn to do by doing."

FARM NEWS

Hall Exhibits are Outstanding at Milton
J. E. W.

Our scribe has just returned from a quick inspection of hall exhibits at the Milton Fair. Despite the rival attraction on the grounds on Friday evening, the halls were well filled with an interesting throng. And what a display — this year Halton farm folk, in common with most other sections of the province, have had the toughest struggle to get their crops in and off that the writer can recall. However one would never think it to see the outstanding exhibits in the various sections of the three halls housing exhibits. While it is perhaps foolhardy to single out any section for special mention, nevertheless, in our opinion, the greatest advance over the year was made in the Arts and Crafts section. Certainly the exhibits in that section reflect much credit on the night school classes, which have been conducted in the county over the past six years. As usual, the Women's Institutes made an outstanding showing — 17 branches being represented. The flower section, while not perhaps as large as it has been some years, was a credit to the county of Halton. The cooking classes — well, just to look at them made one's mouth water. In short, the ladies' agricultural work in general left nothing to be desired. In the purely agricultural sections, we have seen larger and better quality exhibits in some classes, but considering the year, they too were excellent.

Junior Farmer Section

The inter-club educational displays were at least up to the standard of former years and that is saying a great deal. In some respects, perhaps, they were the best yet. Here are the awards:

Junior Institutes —
A. Grade, Milton. Norval and Palermo; B. Grade, Acton.
Junior Farmers —
A. Grade — Milton; B. Grade — Palermo and Acton.
4-H Homemakers —
Clothing Clubs — A. Grade, — Hornby, Nelson and Omagh; B. Grade — Ashgrove and Lowville.
Food Clubs — A. Grade, Hornby, Nelson and Omagh; B. Grade, Ash-
