Mrs. John Glynn
Will Head Night School

Mrs. John Glynn, Lincoln, was elected chairman of Georgetown Night School committee at a well attended public meeting held at the high school March 19th.

Larry Maguire, retiring chairman, informed the meeting that there had been a record number of enrolments last season, approximately 370 persons having decided to go back to school in the evening. Eighteen courses were given. It was found necessary to go outside the Georgetown area, that is beyond a ten mile radius for only five of the teachers required.

J. L. Lambert is night school principal. Officers elected with Mrs. Glynn to serve on the committee next winter are: Miss Jean Buddell, vice chairman; Mrs. W. C. Reynolds, secretary; Miss Lash Miller, treasurer; Mrs. Ray Thompson, applications secretary; and members-at-large Cyril Bradford, Mrs. Joe Dwyer, Jr., Alex Hendry, Larry Maguire, Willard Mino, Harry Savings, Al Zeravlev.

Mrs. Glynn mentioned in her address that the committee would welcome suggestions for new courses. If anyone thinks they would enjoy having a new course starting this coming winter, they can contact Mrs. Glynn or any member of the committee within the next few weeks, and the suggestion will be given every attention.

Horticultural News
by Tony Bradshaw

The Georgetown Horticultural Society held its regular monthly meeting in the Howard Wrigglesworth School last Wednesday evening. It was most gratifying both to the Society and guest speaker to see such a good crowd out. It is estimated that between eighty or ninety attended, many being new members. A rose bush is being offered to each paid up member for 1957, also garden stock at 20 per cent less than catalogue price from Brookdale-Queensway Nurseries, so it is certainly worth the one dollar fee.

Norman Bird, president of the club, took the chair. Mrs. L. De Vries and Mrs. W. Fiebig, delegates who attended the Ontario Horticultural Society Convention gave very interesting reports and hoped that more members would attend next year as they had enjoyed it so much. Particularly the fact that instead of tall maple trees, etc., being planned along the highways and in towns, shrubs are now being used which will stop all the controversy in future years as to whether or not we shall chop down the trees!

The guest speaker for the evening was John Bradshaw (a cousin of the writer) known locally as the CFJB, also "Breakfast on the farm" from CFRB. Many recognized him from frequent pictures in the Star Weekly. His topic was mainly lawns. He also gave some points to watch when planting shrubs and laying out new gardens. Quite a number of people asked questions, usually this proves to be an awkward time when people are too reserved to speak but after Mr. Bradshaw had accused people of "Babying their plants and hoeing lawns as if they had a bad case of dandruff" they certainly felt at home. It was an enjoyable evening and was brought to a close with the draws for door prizes. Mr. Bradshaw donated seven prizes and gave everyone a seed catalogue and Mr. Bird gave two prizes. It proved to be a very profitable evening all round. Mrs. Don Smith with the help of the ladies served a light lunch.

COMPLETE JERSEY DISPERSAL
AUCTION SALE

The undersigned has received instructions from
FRED RUDELL
To sell by auction at his Cluny Castle Farm, situated 5 miles south of Georgetown on
WEDNESDAY, APRIL 10th
commencing at one o'clock sharp:
120 Jersey Cattle Registered, ROP. Fully Accredited, Vaccinated, Blood Tested, Checked for Pregnancy.

The herd consists of 56 mature cows, many close springers, all in full production, balance being heifers and calves. This is a long time well established herd that has always been bred and fed for heavy production; for many years on ROP. The younger cows are sired by Brampton B P Dancing, a \$1500 bull that was sold late in 1956 for export to Mexico.

Selling are the present herd sires, Brampton Sybil's Acme and Brampton Jean's Curcio. Full description and breeding data in Catalogue. (on request.)

DAIRY EQUIPMENT
Surge 3 unit milking machine with two pumps and 200 ft. hose; 50 cows M. L. electric motor; 1500 lb. can milk cooler with 1 E. J. pump.

Terms: Cash on day of sale. Sale held under cover in case of bad weather.
Georgetown, Ont.

WARBLES ARE COMING UP!
J. E. W.

The annual crop of warble grub are now appearing in the backs of the young cattle throughout the county. Another week and it should be time to get out the warble powder and the scrub brush and give them the first application.

Aside from the loss in value of the hides, warble flies also take their toll in lowered milk production and failure of beef cattle to make economic gains. In practically all townships of central and western Ontario, with the exception of Halton, the Warble Fly Act is enforced, and that means compulsory treatment; appointment of inspectors, etc.

As we see the picture it should not be necessary to take such action in the County of Halton. Certainly the dollar spent in purchasing some warble powder will pay big dividends, and the time factor to do the job is insignificant. Perhaps it is because your scrub is an "independent cuss" but he doesn't like compulsion.

So Halton cattle owners get busy—you can do the job yourself and do it a lot more cheaply and efficiently than any custom spraying machine—and today is a
