**MRS. V. RAWSON IS AGAIN W.I. PRESIDENT**

With Mrs. W. Stelick in the chair the W.I. held their election of officers at their regular monthly meeting in Knox Church Sunday School last Wednesday. Officers re-elected from last year were Mrs. Frank Petch, honorary president; Mrs. V. Rawson, president; Mrs. Ernie Pearce, vice-president; Miss Joan Adams, 2nd vice-president; Miss Lucien Campbell, secretary-treasurer; Mrs. Harold Clowe, assistant secretary-treasurer; Mrs. E. T. Paul, pianist; Mrs. Ern Thompson, assistant pianist; Mrs. Albert Livingstone, press secretary; Mrs. Petch, district director.

After a pot luck supper the meeting was opened with the institute ode followed by the Mary Stewart Collect. The roll call was answered with suggestions for next year's programs.

Following the treasurer's report on the year's work a donation was voted to the Children's Aid Society of Halton and final arrangements were made for a layette to be entered in the Salada Tea contest being held at the district annual in May.

Mrs. Petch reported on the directors' meeting at Milton and reports were read by conveners of the various committees on the past year's work. Mrs. Dan Livingstone gave the motto, "It's not what you start but what you finish."

The president, vice president, and secretary treasurer were appointed to make enquiries in an effort to secure a place to hold future meetings.

Two public school students, Barbara Evans and Robert McCumber sang solos which they will be presenting at a music festival in Milton later this year, and accompanied by Mrs. James Evans entered with a duet.

**REASONS AS ST. GEORGE'S CHURCH SCHOOL SUPT**

At the regular meeting of church school teachers at St. George's Anglican on Monday, Harvey Dewhurst informed those present that he has resigned as superintendent. Mr. Dewhurst has held the office for twelve years, being appointed by the late Archbishop W. G. O. Thompson to succeed Walter Carpenter who had moved from town.

Included in Monday's general business agenda was the purchasing of six new tables for the primary department. Class partitions were discussed. Election of officers was postponed because of a small attendance and the absence of the rector, Rev. Kenneth Richardson at an important meeting elsewhere.

A new teacher for the junior department, Mrs. Doug Meades, Rexway Dr. was welcomed. John Elliott was appointed superintendent of the senior and bible class dept.; Mrs. Roy Bradley, primary dept.; and Mrs. Elmer Fendley, beginners dept.

An impressive film "Stars in Your Crown" was shown. It showed that it is one's life and what we are that is important, and teaching is not all preparation and Sunday sessions but every day too, taking a personal interest in pupils. Teachers were requested to attend the special parent-child service with their classes next Sunday at 2:30 p.m. Sunday school has been suspended in the morning for this.

**Who is Sandy Best**

Charles Alexander Sandy Best was selected by the people of Halton to represent them as Progressive Conservative candidate in the forthcoming Federal election. He is a young man with a brilliant mind and many worthwhile achievements to his credit.

He has established himself as a successful farmer-businessman and capable successor to the late Miss Sybil Bennett, who, as Progressive Conservative M.P., protected your interests in Halton.

Brought up in this county where he has resided for nearly twenty years, Sandy is widely known to thousands. A son of Dr. Charles Best, co-discover of insulin, he follows his father's footsteps in directing his efforts to the public interest. Sandy is a teacher of Biology at the University of Toronto and for several years has been an active member of the Halton Progressive Conservative Association and its secretary.

Sandy operates his own nursery stock farm near Georgetown. As a scientist active in horticultural, agricultural and beef cattle developments, he also grows flower species famous across the world. Over the years he has so organized this enterprise that he now has the time necessary to properly represent Halton in the House of Commons.

The forthcoming Federal election is highly important to all Canadians. They hope it will mark a return to responsible and truly representative government. The selection of capable members of parliament is a big factor in achieving this objective.

Sandy Best is genuinely concerned with the problems facing everyone in this county. He firmly believes that present high taxation is unjust and affects individual and business progress. He contends that more federal help should be made available to municipalities and the farming community. Deeply interested in educational problems he thinks our young people deserve every consideration in preparing for a worthwhile future.

Halton Progressive Conservative Association is very pleased to have Charles Alexander Best as standard bearer in this county. The Association recommends him highly to you, the voter, and has no hesitation in saying that he is "Best for Halton and Best for you."

**FARM NEWS**

**Storm Retards Halton Seeding Operation**

J. E. W.  
Hopes of Halton farmers for an early seeding received a setback with the storm last Thursday. Previous to the storm one farmer in the Hornby area was noted on the land. The majority of Halton farm operators are ready to go just as soon as soil and weather conditions permit. The demand for seed grain, particularly of the varieties, Garry and Rodney in oats, and Brant in barley, has been keen and most of the supply offered by local farmers has been picked up.

**Wheat Wintered Well**

In general, Halton fields of winter wheat appear to be in good shape to date, and certainly the storm on Thursday may be a blessing in disguise to both the wheat and meadows.

**Look Out for Grubs**

In many parts of the province, white grubs, the larvae of June beetles, are likely to do a good deal of damage in 1957. The White Grub requires three years to complete its life cycle. In most sections of the province this is the year the young grubs feed on the roots of grain, corn, cereals, potatoes, etc. Lawns and large areas of turf such as golf course fairways are sometimes badly damaged.

Fortunately for most sections of Halton, 1957 is not the bad year. Recently we checked with Professor E. W. Goble, provincial entomologist and here are his comments: "You may have some trouble with white grubs on any of the soil types that are suitable for grubs in Halton County. In the northern part I would expect heavy damage although

**MARKS TWENTY MILLION ACRES FOR U.S. SOIL BANK**  
The U.S. soil bank sign-up seems to have been greater than most people would have guessed earlier. Nearly 20 million acres had been earmarked for the acreage reserve as of March 15. The sign-up sounds good, but how much it will reduce production remains to be seen. Payments, it is stated, will be over 570-million dollars on the "banked acres".
