THE LEGISLATURE IN SESSION

By the end of last week at Queen's Park everyone was thinking, talking and arguing about the report of the Committee on Privileges and Elections. This committee had been called to consider CCF leader Donald MacDonald's contention that three members of the Legislature had acted with impropriety in voting for Bill No. 25, an Act to permit the Township of Scarborough to issue debentures totalling nearly \$400,000.

It was claimed by Mr. MacDonald that three Conservative members, Mr. Beckett, Mr. Fishleigh and Mr. Sutton, had a personal interest in Bill No. 25, and that therefore they acted with impropriety in sponsoring and voting on this bill.

Mr. MacDonald waived his parliamentary immunity to claim that Mr. Fishleigh was the president of a company which would receive money as a result of the bill being passed by the Legislature. He maintained also that Mr. Sutton, the sponsor of the bill, had a \$375,000 mortgage on another company which would gain by passage of the bill. Mr. Beckett, according to Mr. MacDonald, was the Scarborough township solicitor and had been the first to suggest to the township that a private bill would put them in a legal position to pay subdividers who had installed over-size water-mains without the permission of the Ontario Municipal Board.

As you can imagine there was something of a fuss in the Legislature when Mr. MacDonald rose to make these charges.

After one afternoon and an evening of accusations and counter-accusations, with the Liberals siding with the Conservatives in their denunciation of Mr. MacDonald for making the charges, Mr. Beckett of York East moved that the Committee on Privileges and Elections be called to investigate the allegations and report back to the Legislature.

The Committee met at 10 o'clock on Tuesday morning and heard evidence until 2:00 a.m. the following morning. At 10 on Wednesday morning the committee reconvened in secret session to sift the evidence and draw up their report.

The final report which was presented to the Legislature and adopted on Wednesday afternoon with the CCF dissenting, stated: "It is a matter of regret to the committee that an honorable member would make such serious charges against other honorable members in the absence of material establishing proof of the facts."

"In the opinion of the committee, from the admissions and statements made at the hearing by the honorable member who made the allegations, these allegations ought never to have been made by an honorable member of this house."

The following resolution which was moved by Mr. T. D. Thomas, a CCF member of the committee was ruled out of order: "This committee re-affirms the time honored and well-grounded principle that members of the legislative assembly ought not to vote on bills in which they have directly or indirectly a financial interest, either actual or contingent."

During the committee hearings Mr. MacDonald withdrew completely his charges against Hollis Beckett but refused to modify his contention that Mr. Fishleigh and Mr. Sutton had acted with impropriety. He insisted that no evidence had been placed before the committee to disprove his statements regarding these two members. "The honorable gentlemen," he said "may have offended in ignorance, but the fact is, they offended, and that is the point."

Premier Frost stated that Mr. MacDonald's actions had been "contrary to the honour of the House. It impugns the honour of all members of the Legislature and all members of the municipal council". Mr. Frost went on to say that he would not do anything to make a martyr of Mr. MacDonald, but would "leave him to the judgment of all the honorable men and women in this Province".

And so adjourned this third session of the twenty-fifth Legislature of the Province of Ontario.

It was arranged to buy several handbooks for members not having them, also for the raising of funds through "Talent Money" and a "Travelling Basket." It was suggested also that members take turns entertaining the children during meetings to enable the mothers of young children to take part in the meetings. Mrs. K. C. Lindsay and Mrs. Marchington assisted Mrs. Corbett in serving tea.

The three children of the Stone School competing in the music festival finals at Milton on Friday brought honour to the school by all of them winning medals in their several classes — Paul Kidney winning the gold, Ricky Corbett winning the Silver, and David Kidney taking the Bronze medal.

Gordon Hurst and David Norton of Lakefield Preparatory School have been visiting with the W. R. Nortons and with friends and relatives in Acton.

Mr. Donald Lindsay is in Toronto General Hospital for an eye operation which we hope will be completely successful.

PER CAPITA MEAT CONSUMPTION UP IN 1956

J. E. W.

An over-all gain of nearly 3 lbs. in Canadian per capita meat consumption was recorded in 1956, a compared to 1955, according to a major gain in beef, which disappeared last year at a rate of 73.6 lbs. per capita compared to 71.9 lbs. in the period 1935 to 1939.

The per capita veal consumption last year of 8.9 lbs. in practically unchanged from 1955, as is also the 2.7 lbs. consumption rate per capita recorded for lamb. Pork consumption last year, which was relatively high during the first half of the year, ended up at 58.3 lbs. per capita compared to 57.9 in 1955. This would indicate that consumption of pork tapered off toward the end of last year, when supplies fell and prices rose rather sharply.

World Hog Numbers

Recent estimates by the US Foreign Agricultural Service indicate that world hog numbers in 1956 reached a new record high of 385 million head, nearly a third higher than pre-war. World pork output in 1957 is expected to remain at about the same level as in 1956, with feed supplies favorable to increased output in Eastern Europe, the USSR and South America.
