## HOW TO GET A RAISE IN PAY

**WOULD YOU** be interested in a larger income? If so you should vote Progressive - Conservative in the Federal election on June 10th.

Industry is the lifeblood of our economy. People prosper as manufacturing plants expand in size and number. Everyone benefits, including the wage-earner, doctor, farmer, housewife, fisherman, merchant, teacher, and miner.

Canadian industry cannot expand as it would like to because of excessive Federal taxes. The Progressive Conservative Party's National Development Plan calls for reducing these taxes and giving industry and all the people a speedway to new prosperity.

Every month Canada spends one hundred million dollars more in the United States than the States spend here. Why? One big reason is that high taxes prevent more manufacturing in Canada. So, rather than sell manufactured goods in world markets, we send our raw materials to the States where they bring relatively low prices. The States process these raw materials, send them back to us as higher-priced manufactured articles. We Canadians pay through the nose.

Canada and the United States are good friends and want to remain as such. But let's not keep on earning less money than people in the same jobs on the other side of the border. Get a raise in pay and Better Government besides by voting Progressive Conservative at the Federal Election on June 10th.

Yours for a Better Canada,  
*Sandy Best*  
Your Progressive Conservative Candidate

### FIREMEN CALLED TO MONDAY GRASS FIRE

Fire of unknown origin blackened a large field on the Moore farm Monday, however no damage resulted from the blaze.

The fire is believed to have started in a bush almost midway between Main Street north and the 7th line early in the afternoon and spread toward the CNR tracks. The firemen kept the blaze under control by starting a backfire and burning off the grass between it and the tracks.

A number of children were seen in the area prior to the outbreak.
