PASSING THE BUCK

A buck lamb does not make a quality meat product. Our lamb and mutton consumption has dropped from a pre-war level of 5.6 lbs. per person, to an estimated 2.7 lbs. in 1956.

On the other hand, beef and poultry producers, by improving their product, have greatly stimulated domestic sales. Faced with stiff competition at the retail counter from the other red meats and poultry, and from New Zealand and Australian sheep men who are anxious to send their product to this country, Canadian lamb producers should be satisfied with nothing but the best—and buck lambs are not the best.

Thirty years ago, buck lambs constituted 8.7% of the total sheep and lamb sales. As a result of an education campaign the number of buck lambs had been reduced to 2.6% of the total ten years later. Last year, however, buck lambs constituted 10% of Canada's total sheep and lamb marketings.

**"GUYS AND DOLLS" CHORUS
B.A.C. BANQUET**

A "Guys and Dolls" chorus provided entertainment at the annual banquet of the B.A.C. men's club of St. George's Anglican last Tuesday.

Headed by John Wolfe as Miss Adelaide, the chorus line pantomimed the "Take Back Your Mink" number from the famous stage show and movie. Taking part in the skit were Logan MacDonald, Bill McNally, Wilf Brispois, Tom Van Sicker, Jack Meades and Jack Gunning. Broadway had never seen costumes like those devised by the cast which enjoyed the show equally as much as the audience.

The banquet was chaired by president Ken Robertson and the program was in charge of Gordon Spence. A guessing contest was arranged by Stan Finlay, in which those present had to guess names of club members depicted by cryptic posters using magazine ad cut-outs, and a couple of games rounded out the evening's entertainment.

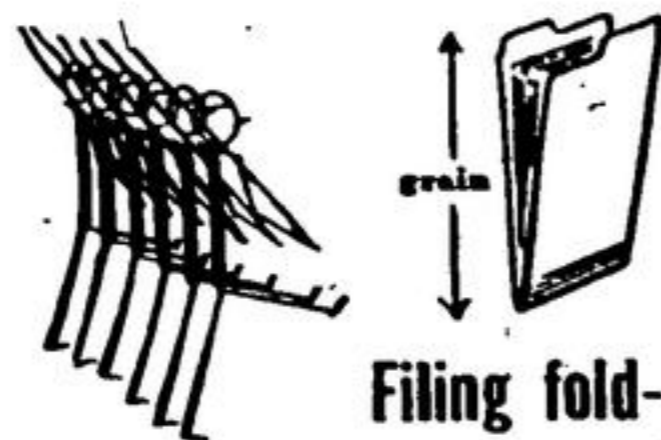

Members and guests were introduced by Jack Armstrong and Ed Wilson. Rev. Kenneth Richardson spoke briefly, as did Rev. J. E. Maxwell, Norval, rural dean, and the churchwardens Sam Penrice and Charles Harris. Thanks to the Daughters of St. George's who catered for dinner was expressed by Clare Francis.

CANADIANS PAT CONSCIOUS

J. E. W.
"Canadians are becoming increasingly fat conscious." Any further deterioration on the part of our hog quality, or even lack of improvement over present quality production, can have a disastrous effect upon the Canadian hog producers.

This was the statement of R. Puttick at the annual meeting of Canadian Meat Packers. We are in accord with that statement. This past week we attended a meeting of the Agricultural Committee of the Kingsway-Kiwanis. This is the Service Club organization which for some years has taken such an interest in Halton's 4-H Club programme. All of these men were not born and brought up on the farm—nevertheless they are interested in agriculture and the farmers' problems. At the meeting in question, we were asked to answer this question—"Why can't we get better quality bacon and other pork products—most of the stuff we are offered is too fat?"

**GEO. E. ELLIOTT, Q.C.
ADDRESSES SHORTHORN CLUB**

J. E. W.
"These were Your People" was the subject of the inspiring historical address delivered by Geo. E. Elliott, Q.C., of Milton, at the recent dinner meeting of the Royal Shorthorn Club held in Guelph. Smith Griffen of Acton R. R. 2, president of the club, was the able chairman of the evening's excellent programme, which had been lined up under the chairmanship of T. C. Amos, of Moffat.

Another interesting feature of this outstanding programme was the presentation of a number of trophies won at the regional Shorthorn Show at Erin last fall. Here Halton Juniors were in the limelight with the W. C. Woods Trophy for the best steer in the show being presented to Carolyn Gardhouse of Milton R. R. 5; and the Bank of Commerce Trophy for the best heifer calf in the same show, to Katherine Merry of the same address.
