

HALTON NEEDS THIS MAN OF ACTION

SEND SANDY BEST BACK TO OTTAWA

This is the man who speaks for Halton in Parliament. He was sent to Ottawa with a majority of over 8,000 votes in the last election, to serve under the leadership of Prime Minister John Diefenbaker.

Who is this outstanding young member of Parliament? Alexander "Sandy" Best is a businessman, scientist and teacher from Georgetown. A son of Dr. Charles Best, co-discoverer of insulin, Sandy has a deep natural interest in the welfare of others.

In the eight months he has been serving Halton, his speeches and his work

in the Progressive Conservative Government have received warm praise from both the Cabinet and the Press. Sandy Best was instrumental in securing additional public works and postal services for the County. He has helped solve a variety of social welfare problems. He has helped establish humane slaughter in meat packing plants. He has worked on the Farm Stabilization Bill and the Bill to advance cash to Prairie wheat farmers.

Sandy Best has accomplished much, and pledges himself to continue getting things done for the people of Halton.

Support Diefenbaker — re-elect Sandy Best
