

*What Georgetown Can  
Mean to You and Me . . .*

# Our Town

Georgetown, Ont.  
May 7th, 1958

Dear Fellow Citizen:

Georgetown stands on the threshold of its finest hour.

The forces that make for progress, forces that are working to fulfil the prophecy that "the 20th century belongs to Canada" are apparent on every hand.

No use sighing for the good old days, the dear dead days of the handlebar moustache, the tin bathtub and leg of mutton sleeves. They're gone, never to return.

We must turn our faces to the future, not the past. There are problems ahead, but let's run towards them, not away from them. In solving the issues that confront us lie Georgetown's greatest opportunities.

Actually, all we need is teamwork. Courage. Co-operation. Patience on the part of all concerned . . . our council, the business men of the community, and the citizens themselves.

With teamwork, we have everything to gain, and nothing to lose.

By pulling together, by thinking positively and acting constructively, we can create a Georgetown that will exceed our fondest expectations, our most optimistic hopes. We have every potential for a bright and happy city, one offering more jobs and lower taxes, a good place for us to live in and for others to move to.

Helping Georgetown fulfil its destiny is a big responsibility. We can be goodwill ambassadors for our community. Be proud of it. Show that pride. When we talk, when we travel, boost don't knock. The results will provide a gratifying future for all of us.

Sincerely Yours,

**Rex W. Heslop, President**
