Proclamation!

Whereas at a meeting of the Council of the Town of Georgetown, it was resolved that the Mayor be authorized to proclaim

Monday, Aug. 4

CIVIC HOLIDAY

FOR THE CURRENT YEAR

Therefore, in compliance with this resolution, I hereby proclaim Monday, August 4th as Civic Holiday for the Town of Georgetown.

If you are travelling on the highways that week-end, we ask, along with the Dept. of Highways, that you use care, courtesy and common sense to make it an accident-free Holiday Week-End.

Jack Armstrong, Mayor

Mayors, Ladies Council Seek Water Fluoridation

The Health League of Canada calls attention to an important fact that the controversy on fluoridation of water supplies enters a new phase of progress. Two important organizations, the Ontario Association of Mayors and Reeves and the National Council of Women of Canada passed resolutions in favour of fluoridation of communal water supplies during their recent annual meetings.

The association of Mayors and Reeves asks Premier Frost to pass legislation that will permit all municipalities to fluoridate their water supplies. The resolution states, that in the 11 Ontario municipalities that fluoridate their water supplies under special bills, it has been proved that fluoridation will reduce dental decay by at least 95 per cent. "It is undemocratic to refuse municipalities the power to fluoridate their water supplies; if they wish" said Reeve Melvin Swart of Thorold township. The resolution was passed by an almost unanimous vote.

The National Council of Women urges, that each local Council of Women promote the implementation of the fluoridation of the water supplies in every municipality in Canada. The Council's endorsement is based upon the fact that fluoridation of water has been endorsed by the heads of departments of preventive medicine of 75 universities, as well as the Canadian Dental Association, the Canadian Medical Association, the Canadian Public Health Association and the National Research Council, USA, the US Public Health Service, the American Dental Association, the World Health Organization, and the Health League of Canada. Other facts on which the resolution was based are, that comparative surveys have been carried out which show, that there is considerably less tooth decay in children using fluoridated water, over a period of years, than in those not having it, and that there is an acute shortage of dentists in Canada.

STANLEY ECKER DIES LOCAL LADY'S FATHER

Mrs. William McDonald, 4 Orchard Blvd., suffered a family bereavement when her father, Stanley Mahlon Ecker, 69 died in St. Joseph's Hospital, Hamilton on Saturday, July 20th.

A native of Hannon, Mr. Ecker was a lifelong resident of Hamilton district. He was an employee of the Hoover Company in Hamilton.

He leaves his wife, Lillian Beatrice Haddock; two children, Russell of Hamilton and Mrs. McDonald; two grandchildren; and brothers and sisters, Samuel Ecker Hannon; Harvey Ecker, Warren, Ohio; Norman Ecker and Mrs. A. I. Fletcher, Windsor; and Mrs. Laura Downs, Tillsonburg.

Ontario Cancer Institute Has Modern Facilities

The age of the lonely night, or day, is over for all patients, including children, in the newest, and one of the finest, most modern and most beautiful buildings of its kind in the world, recently erected in Toronto.

In the new Ontario Cancer Institute (formerly known as the Dunlap Clinic) an electronic gadget in the wall behind every bed permits every patient instant verbal communication with the nurse on duty on the floor at her desk.

The beds, too, come under the electronic eye, so to speak, in that, at the touch of a button, they can be lowered at will, fear of falling out of bed thereby being removed.

The wide, smooth, silent corridors, the desks and comfortable chairs in every room, the meticulously chosen, gay drapes and lovely, spacious, pastel-tinted walls of the Ontario Cancer Institute reveal unmistakably that the patient's physical welfare and frame of mind while under treatment at the hospital has been a major thought of everyone having to do with the planning and building of the Institute.

While not yet officially opened by the Ontario government, whose financial support, together with assistance from Ontario Division of the Canadian Cancer Society, has made this "mother" cancer clinic possible, work is already going ahead. Some 40 patients are already under treatment within the doors, and some 70-odd cups of tea are being served to outpatients by the yellow-smocked volunteers every morning of the week.
